Justification for Budget Amendment to Replace Two UTVs

Our beach sticker program relies on UTVs to generate revenue and support operations on the beach. Unfortunately, our current fleet of UTVs has faced significant issues, necessitating immediate action to ensure continuity of operations and financial stability.

Current Situation

1. **Repairs and Reliability Issues:**
 - Three UTVs were sent out for steering repairs, with the dealership indicating that only one may be returned. The remaining units will be salvaged for parts to repair the single functioning UTV.
 - Even if the repaired unit returns, its long-term reliability is uncertain.
2. **Aging Fleet:**
 - Two of our remaining UTVs are entering their fourth year of service, exceeding the typical lifespan of three years for UTVs operating in beach conditions.
 - The wear and tear from the harsh environment significantly impact their performance and dependability.
3. **Operational Impact:**
 - In 2024, we experienced 4 months with at least one UTV out of service and 3 months with two UTVs out of service.
 - This downtime resulted in an estimated **\$70,000 revenue loss**, as each UTV generates approximately **\$10,000 per week** in beach sales.

Financial Considerations

- The cost of replacing two UTVs is **\$20,000 per unit**, totaling **\$40,000**.
- Investing in replacements will prevent further revenue loss and ensure consistent operations.

Long-Term Plan

To avoid significant downtime and financial losses in the future, we propose establishing a replacement schedule:

- **Annual Replacement:** Budgeting for two new UTVs each year to maintain a reliable fleet and reduce repair-related disruptions.

This proactive approach will minimize operational interruptions, protect revenue streams, and ensure efficient beach operations.

Request

We request a budget amendment of **\$40,000** to replace two UTVs immediately. This investment will:

- Restore operational capacity.
- Offset potential revenue losses due to unreliable equipment.
- Set the foundation for a sustainable fleet management strategy.

By addressing these issues promptly, we can safeguard the beach sticker programs revenue and ensure consistent service delivery.
