Grant Proposal

To:

Betty Massey, Executive Director
Mary Moody Northen Endowment

From:

Galveston County Sheriff's Office Dive Team

Subject:

Community Impact Grant Request for Specialized Dive Equipment

Introduction and Purpose

The Galveston County Sheriff's Office Dive Team respectfully submits this proposal requesting funding to purchase specialized, life-saving equipment essential to safe and effective underwater operations. Specifically, we are seeking funding for Shearwater Peregrine wrist-mounted dive computers, Zeagle pony bottle mounting systems, Highland pony bottle regulator sets, and hazardous-material (haz-mat) dry suits.

Our Dive Team is responsible for conducting underwater operations including evidence recovery critical to criminal investigations, victim recovery operations, and responding to any submerged environment incident requiring a specialized capability. We serve not only the Galveston County Sheriff's Office but also all municipal law-enforcement agencies within the county, as well as state and federal partners including the Texas Rangers, FBI, DEA, and Department of Defense. The team has also been deployed out of state when needed.

To enhance diver safety, operational readiness, and mission effectiveness, we respectfully request funding in the amount of **\$16,390.00** for the following equipment:

- Eight (8) Shearwater Peregrine wrist-mounted dive computers – \$7,392.00
- Eight (8) Zeagle Pony Bottle Mount Kits – \$518.40
- Eight (8) Highland Pony Bottle Regulator Sets – \$2,079.60
- Two (2) Fourth Element Haz-Mat Dry Suits – \$6,400.00

Equipment Description

Shearwater Peregrine Wrist-Mounted Dive Computers

These advanced dive computers provide critical operational data including remaining air supply, depth, bottom time, and no-decompression limits. Importantly, they allow divers to access this information without surfacing, which preserves search pattern integrity and eliminates repeated depth fluctuations that increase the risk of barotrauma and decompression sickness (DCS). This technology significantly enhances diver safety and operational efficiency.

Zeagle Pony Bottle Mount Kit

This mounting system securely attaches a redundant air supply (pony bottle) to the diver during operations. Redundant life-support systems are industry standard and are a vital safety measure in the event of primary air system failure.

Highland Pony Bottle Regulator Set

This system provides a complete redundant breathing source including first-stage regulator, button-style submersible pressure gauge, and second-stage regulator with extended hose routing. In an emergency, divers can transition safely to this system and ascend with a reduction in risk.

Fourth Element PTS1 Haz-Mat Dry Suits

These dry suits are worn on all operational dives and provide full-body encapsulation when paired with gloves and full-face masks. Constructed from chemically resistant materials, they protect divers from biological, chemical, and environmental contaminants commonly present in Galveston County waters. This equipment is essential to ensuring diver health and safety.

Background

The Dive Team began informally prior to 1992 with two off-duty SCUBA-certified deputies and became a formal Sheriff's Office unit in 1996. Since then, the team has evolved significantly:

2000: Adoption of full-face masks and Life Guard Systems certification

2001: Implementation of underwater communications

2003–2004: Transition to agency-owned dive gear and surface-supply systems

2008: Complete loss of equipment due to Hurricane Ike; replaced through grant funding

2008–Present: Incremental modernization of dry suits and regulators; return to SCUBA systems

2025: Implementation of ERDI SCUBA certification standards for all team members

Courtesy, Protection, Service

Despite this progress, much of the equipment currently in use is outdated, approaching the end of its service life and is in the process of being replaced or already has been replaced. Up to date equipment is necessary to maintain safety, operational capability, and to maintain industry standards.

Equipment Needs Summary

Equipment	Quantity	Total Cost
Shearwater Peregrine Dive Computers	8	\$7,392.00
Fourth Element PTS1 Haz-Mat Dry Suits	2	\$6,400.00
Zeagle Pony Bottle Mount Kits	8	\$518.40
Highland Pony Bottle Regulator Sets	8	\$2,079.60

Total Request: \$16,390.00

Program Justification and Impact

1. Public Safety

The Dive Team plays a critical role in evidence recovery, enabling successful prosecution in criminal cases, and in victim recovery operations, providing closure for families during tragic events.

2. Community Engagement

We actively participate in community outreach including Kids' Day at the Galveston County Fair and Rodeo, school presentations, dive club education, and specialty public programming such as Space Center Houston's "astronaut experience."

3. Interagency Collaboration

The team supports all law-enforcement agencies within Galveston County as well as numerous state and federal partners. Our expertise has resulted in deployments across jurisdictions and states.

4. Training and Professional Development

The team conducts monthly training to ensure diver proficiency, safety, and compliance with international dive standards. All personnel are trained specifically on the equipment they operate.

5. Emergency & Disaster Preparedness

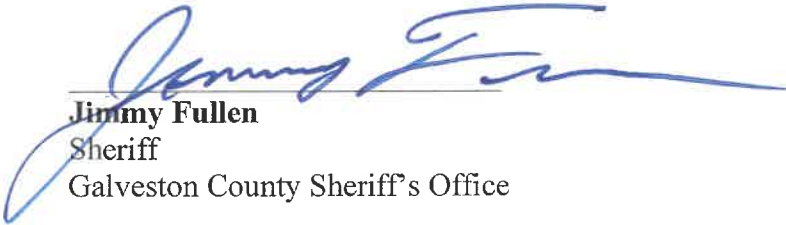

Several team members are certified in Swift Water Rescue, enabling deployment during natural disasters and flooding events to assist with life-saving civilian rescues.

Conclusion

On behalf of the Galveston County Sheriff's Office, we sincerely thank the Mary Moody Northern Endowment for considering this request. Your support will significantly enhance diver safety, improve operational effectiveness, and strengthen our ability to serve Galveston County and beyond. Funding through this grant is essential, as the equipment cannot be purchased this year without it. Failure to acquire this equipment would pose safety and liability concerns and result in noncompliance with established industry standards. These items do not alter, expand, or change the mission of the department in any way, but rather strengthen our capacity to carry out our established responsibilities in service to Galveston County and its residents. We remain committed to professionalism, public trust, and compassionate service. This grant will allow us to continue fulfilling that mission safely, effectively, and efficiently.

Respectfully,

Jimmy Fullen

Introductory Section

The Introductory Section contains the transmittal letter, which provides an overview of the County of Galveston's finances, economic prospects and achievements. Also included in this section is the Certificate of Achievement for Excellence in Financial Reporting awarded by the Government Finance Officers Association. This is the highest form of recognition in governmental financial reporting.

GALVESTON COUNTY

Office of County Auditor

(409) 770-5304

722 Moody Ave 4th Floor, Galveston, TX 77550

March 31, 2025

To the Honorable District Judges of Galveston County
To the Members of the Galveston County Commissioners Court
To the Citizens of Galveston County, Texas

The Annual Comprehensive Financial Report ("Annual Report") of Galveston County, Texas, for the fiscal year ended September 30, 2024, is submitted herewith in accordance with Chapter 114.025 of the State of Texas Local Government Code. The accompanying financial statements were prepared in accordance with generally accepted accounting principles ("GAAP") in the United States of America as promulgated by the Governmental Accounting Standards Board ("GASB") and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed public accountants.

Assumption of responsibility. This report consists of management's representations concerning the finances of Galveston County, Texas. Management assumes full responsibility for the completeness and reliability of all the information presented in this report.

Internal control. To provide a reasonable basis for making these representations, Galveston County ("the county") has established a comprehensive internal control framework designed for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance the financial statements are free of any material misstatements. The county asserts, to the best of its knowledge and belief, this financial report is complete and reliable in all material respects.

Independent audit. The county's financial statements have been audited by Pattillo, Brown & Hill, LLP, a firm of licensed certified public accountants. The objective of the independent audit was to provide reasonable assurance the financial statements of the county for the fiscal year ended September 30, 2024, are free of material misstatements. The independent auditors concluded there was a reasonable basis for rendering an unmodified opinion on the county's financial statements for the fiscal year ended September 30, 2024, and that they are fairly presented in conformity with GAAP. The independent auditor's report is located at the front of the Financial Section of this report.

The independent audit of the county's financial statements is part of a broader annual "Single Audit" which is federally mandated by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements for Federal Awards (Uniform Guidance)*. The Single Audit Report, designed to meet the special needs of federal grantor agencies, includes a Schedule of Expenditures of Federal Awards. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and its compliance with legal requirements, especially those which involve the administration of federal awards. The report includes a Schedule of Findings and Questioned Costs. The Single Audit Report is available from the Galveston County Auditor, P.O. Box 1418, Galveston, TX 77553-1418.

Reference to MD&A. GAAP require the county to provide a narrative introduction, overview and analysis to accompany this report's basic financial statements in the form of Management's Discussion and Analysis ("MD&A"). This Letter of Transmittal is designed to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE GOVERNMENT

Basic information. The county operates as specified under the Constitution of the State of Texas and Vernon's Texas Code Annotated. It was established on May 15, 1838, by order of the President of the Republic of Texas, Sam Houston. It is located on the upper Texas coast of the Gulf of Mexico and comprises a land area of 430 square miles and a population of 361,744. The land area includes Galveston Island (the "Island"), thirty-two miles long and situated two miles from the coast; an area of the mainland between the Island and Harris County to the north; and Bolivar Peninsula, just northeast of the Island across the entrance to Galveston Bay. The county seat is the City of Galveston, located on the northern end of the Island and covering slightly more than forty-seven square miles.

The Galveston County, Texas, Commissioners Court is the county's governing body. The Commissioners Court is elected by county voters for staggered four-year terms and comprises the County Judge (the presiding officer) and four commissioners. Each of the four commissioners represents one of four geographical precincts into which the county is divided. The Commissioners Court holds only such powers as are conferred upon it by the Texas Constitution or by statute. These powers include the ability to levy a property tax on real property located within its boundaries.

The county provides a full range of services with regard to judicial, public safety, health and social welfare, culture and recreation, conservation and roads and bridges.

Component units. A "component unit" is an organization legally separate from the primary government but subject to significant oversight by the latter, such that to exclude the component unit's financial information from that of the primary government could mislead readers. A component unit is termed either "discretely presented" or "blended" depending upon the greater or lesser degree of autonomy, respectively, with which it functions. The county currently reports no discretely presented component unit.

Certain county road construction and maintenance is performed by the Galveston County Road District #1, a blended component unit which functions as a department of the county and has been included as an integral part of the county's financial statements.

The OPEB Trust Fund is considered a blended component unit under GASB Statement 84 and is reported as a fiduciary fund, as the County has a fiscal obligation to contribute to the trust despite the OPEB plan being a legally separate entity.

Additional information on these component units is located in Note I.A.2 to the Financial Statements on pages 53-54.

Budget. The annual budget serves as the foundation for the county's financial planning and control. All departments of the county are required to submit requests for appropriations to the County Budget Office. The budget is prepared by fund, function (e.g., public safety) and department (e.g., corrections).

Once this requirement is met, the Commissioners Court adopts the budget and the tax rate by September 1 or as soon thereafter as is practical. The appropriated budget is adopted by fund by the primary categories of personal services, supplies, other services and charges, capital outlay and other financing uses. All governmental funds, excluding grant and project-based capital project funds, under Commissioners Court authority are annually appropriated. Management cannot overspend the budget at the above-mentioned levels without the approval of Commissioners Court. More detail regarding the budget and legal level of budgetary control can be found in Note II.A to the Financial Statements on pages 65-66. Budget-to-actual comparisons are provided in this report for the General Fund and all budgeted funds.

INFORMATION USEFUL IN ASSESSING THE COUNTY'S ECONOMIC CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the county operates.

Local economy. The county currently enjoys an improving economic environment and local indicators point to continued stability.

The region's diversified commercial, industrial and manufacturing base reduces the volatility in its unemployment rate. Major industries represented include oil and gas production, petrochemical processing, maritime shipping, agriculture, fishing, the teaching and practice of medicine, banking, insurance and cruise- and land-based tourism.

The oldest medical school in the state, the University of Texas Medical Branch (UTMB), is one of the largest in the nation, based upon student enrollment. Established in 1891, headquartered on the Island's northern end and also a major employer, this health-science center is dedicated to a three-fold mission of teaching, state-of-the-art patient care and innovative scientific investigation. The medical facility has expanded and now includes ninety clinics throughout Texas.

The mainland cities of Texas City and La Marque have long been home to important industrial corporations. Among those firms are BP Chemical; Dow Chemical; Valero Refining-Texas, LP; Eastman Chemical; Marathon Petroleum Company, LLC; and ISP Technology. In addition to the refineries, Texas City is also home to the Port of Texas City/Texas City Terminal Railway Company, which is the seventeenth largest port in the United States and the fifth largest in Texas, with total water borne tonnage exceeding 33 million net tons per year.

Galveston's deep-water port, located on the Island at the entrance to Galveston Bay, is among the largest dry-cargo ports in the United States and ranked among the top 50 busiest U.S. cargo waterways. The Port of Galveston generated \$67.5 million dollars of revenue in their fiscal year 2023. A wide variety of exports and imports passes through its facilities. In fiscal year 2023, 3.6 million tons of cargo passed through the port. The port owns and operates public wharves, both open and covered storage facilities and multiple freight-handling facilities, including a container terminal and a grain elevator.

Tourism is an important presence in the county's economy, with historically more than seven million visitors each year. Galveston is the number one cruise port of Texas and the fourth busiest cruise port in the U.S., hosting 1.7 million passengers this year. The Island's seashore, its historic downtown and residential districts and its thriving cruise industry attract growing numbers of visitors to the many hotels, restaurants, shops and museums.

The county enjoys a wealth of year-round cultural, historical and recreational activities. To those seeking outdoor relaxation, the Island offers the amenities of Sea Wolf Park, R.A. Apffel Park, Stewart Beach Park and Galveston Island State Park, as well as free public beaches stretching from 10th Street to 61st Street along the Island's famous Seawall Boulevard. The amusement park rides, concessions and ambience of the Galveston Island Historic Pleasure Pier at 25th Street and Seawall Boulevard, coupled with quality restaurants within walking distance, are a very popular attraction.

The Island is also rich in culture and history and it showcases both in numerous venues which are open to the public. These include the restored mansions of Ashton Villa, the Bishop's Palace and Moody Mansion, along with the Galveston County Museum, Galveston Arts Center and museums such as the Texas Seaport Museum, home to the restored 1877 square-rigged iron barque, *Elissa*.

Other Island attractions include the Downtown/Strand, East End and Silk-Stocking Historical Districts, which exhibit some of the nation's finest collections of restored commercial and residential Victorian architecture. Annual events such as Mardi Gras, the Oleander Festival, the Historic Homes Tour, the ARToberFEST art festival, the Grand 1894 Opera House's Grand Kids Festival, the Lone Star Motorcycle Rally and Dickens on the Strand draw thousands of visitors.

The Island is home to exotic Moody Gardens, which comprises: Moody Gardens Convention Center with 75,000 square feet of meeting space; a 300-room luxury hotel; the ten-story Rainforest Pyramid featuring rainforests of Africa, Asia and the America's; the IMAX 3-D movie theater; the Discovery Pyramid with interactive displays and IMAX "RideFilms" and a fifteen-story saltwater aquarium with several marine habitats, including a King Penguin exhibit.

Off the Island, the Galveston Bay/Clear Lake region is the "boating capital of Texas". The Kemah Marina has the greatest concentration of boats of any region in Texas and claims the third largest fleet of recreational boats in the United States. In addition, Kemah is home to the Kemah Boardwalk which features a variety of waterfront restaurants, amusements, charming retail stores, festivals and seaside shows daily.

Across the mouth of Galveston Bay from the Island, Port Bolivar and the Bolivar Peninsula are a haven for beachcombers and fishermen.

The Galveston Central Appraisal District reported the county's gross taxable base value for the 2023 tax year at \$64.9 billion, an increase of 12.5% from the prior tax year. The county's net taxable base value, used to calculate tax revenues for the fiscal year 2024, is \$49.4 billion, an increase of 13.8% from fiscal year 2023.

The gross taxable base value for the 2025 tax year is expected to increase by 6.9% to \$69.4 billion, and net taxable base value is expected to increase by 6.7% to \$52.7 billion.

Long-term financial planning. Two of the major components of long-term financial planning are debt administration and post-employment benefits.

Debt administration. The county funds much of its capital investment by issuing general obligation bonds and certificates of obligation. There was no new or refunding debt issued in fiscal year 2024.

During its fiscal year ended September 30, 2024, the county made all of its scheduled principal and interest payments timely. At September 30, 2024, its outstanding bonded debt, including cumulative accretion, totaled \$168,959,593. During the fiscal year then ended, the county paid \$15,560,406 in principal and \$12,484,084 in interest. The county maintains an “Aaa” rating from Moody’s Investors Service, Inc., and an “AA+” rating from Fitch Ratings on its general-obligation debt.

See additional detail in Note III.H to the Financial Statements on pages 80-86 of this report.

Post-employment benefits. The county provides post-employment health- and life-insurance benefits to its retirees. At September 30, 2024, the county recognized 530 retirees, 143 of whom are eligible for full health insurance and 387 of whom receive reduced Medicare-supplement insurance. The county follows the provisions of Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pension* with regard to the accounting for post-employment benefits (other than pensions), recognizing an actuarially determined portion of that expense annually as it is deemed to be incurred through employee service. Additional information about the county’s post-employment benefits can be found in Notes IV.F - G to the Financial Statements on pages 91-103 of this report.

Relevant financial policies. The county has adopted a comprehensive set of financial policies, including operating budget, capital assets, fund balance, revenue accounting, internal audit, budgeted reserves and debt management. The county, by statute, has adopted an investment policy for several years. Temporary investments may include certificates of deposit, United States government agency securities, money market investment accounts, negotiable order of withdrawal (“NOW”) accounts and local government investment pool facilities. The county earned \$9,119,504 in interest during the year ended September 30, 2024. More information about the county’s deposits and investments can be found in Note III.A to the Financial Statements on pages 66-69 of this report.

Major initiatives. The county continues to undertake major initiatives to better serve its citizens. These initiatives include parks and cultural services, grant funding, economic development and road and bridge. Examples follow.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association (“GFOA”) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County of Galveston, Texas, for its Annual Report for the fiscal year ended September 30, 2023. This was the twenty-seventh consecutive year the county has received this prestigious award. In order to be awarded a Certificate of Achievement, the government had to publish an easily readable and efficiently organized Annual Report that satisfied both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe this Annual Report will meet the Certificate of Achievement Program’s requirements and we will submit it to the GFOA to seek a certificate.

The County of Galveston, Texas, received the GFOA’s Distinguished Budget Presentation Award for its annual budget document for the fiscal year ended September 30, 2024. To qualify for the Distinguished Budget Presentation Award, the government’s budget document had to be judged proficient as a policy document, a financial plan, an operations guide and a communications device.

The Comptroller of the State of Texas awarded a Financial Transparency Star, as well as Transparency Stars in Debt Obligation and Public Pensions, to the County of Galveston, Texas, for its excellence in reporting financial information, debt obligations and public pensions for the fiscal year ended September 30, 2023. This is the eighth consecutive year the county has received awards for financial and debt obligation transparency and the sixth year for its excellence in reporting public pensions. The Transparency Star program recognizes local governments who go beyond legislative requirements by providing financial, debt and pension information in a variety of formats. Each Transparency Star is valid for a period of one year only. The State Comptroller evaluates the County’s website annually to determine Galveston County remains in compliance to maintain achievement of the Financial, Debt Obligation and Pension Plans Transparency Stars for each fiscal year.

The preparation of this report would not have been possible without the dedicated service of the entire staff of the Galveston County, Texas, Auditor’s Office. I wish to express my appreciation to all members of the department who contributed to and assisted with the preparation of this report. I acknowledge the County Judge and Commissioners for their efforts in planning and conducting the operations of the county in a responsible and progressive manner. I especially thank the District Judges for their support and guidance in matters relating to the discharge of the duties of County Auditor.

Respectfully submitted,

Randall Rice CPA

INDEPENDENT AUDITOR'S REPORT

Honorable County Judge
and Members of the Commissioners' Court
Galveston County, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Galveston County, Texas (the "County"), as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the County as of September 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement due date, including any currently know information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually, or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension and OPEB information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report (ACFR). The other information comprises the introductory section and statistical section, but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2025, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The County of Galveston, Texas presents the following narrative overview and analysis of the financial activities of Galveston County for the fiscal year ended September 30, 2024. Please read the information presented here in conjunction with the Letter of Transmittal in the preceding Introductory Section and with the Basic Financial Statements which immediately follow.

FINANCIAL HIGHLIGHTS

- The county's assets and deferred outflows exceeded its liabilities and deferred inflows (net position) by \$162.9 million on a government-wide, full accrual basis at September 30, 2024.
- Of the \$345.5 million in liabilities, noncurrent liabilities due in more than one year are \$255.1 million. These long-term liabilities include long-term debt and total OPEB liability.
- The county's total outstanding long-term debt decreased by \$26.4 million (including accretion and premiums), due to scheduled debt payments throughout the year. County revenues exclusive of special and extraordinary items totaled \$239.7 million against expenses of \$222.5 million, resulting in an increase in net position of \$17.3 million.
- Net capital assets were \$290.2 million as of September 30, 2024. Net depreciation/amortization expense attributable to assets of governmental activities amounted to \$17.4 million for 2024.
- At September 30, 2024, the county's Governmental Funds reported a combined ending fund balance of \$153.2 million, a decrease of \$12.0 million from September 30, 2023.
- \$58.5 million, or 38.2%, of the combined ending fund balance is classified as "unassigned" and available for any use.
- Net increases to capital assets were \$3.6 million, an increase of 1.3% from the prior year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This MD&A introduces the county's Basic Financial Statements, which comprise three components:

- government-wide financial statements,
- fund financial statements and
- notes to the financial statements.

This report also contains other information supplemental to the Basic Financial Statements.

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the county's finances, in a manner similar to that of a private-sector business.

The *statement of net position* presents information on all of the county's assets, liabilities and deferred outflows/inflows, with the difference reported as "net position." Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the county is improving or deteriorating.

The *statement of activities* presents information showing how the county's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying events giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and

expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and vacation leave earned but unused).

The government-wide financial statements distinguish functions of the county that are principally supported by taxes and intergovernmental revenues (“governmental activities”) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (“business-type activities”). The governmental activities of the county include general government, judicial, public safety, health and social services, culture and recreation, conservation and roads and bridges. The county currently engages in no business-type activities. The government-wide financial statements can be found on pages 36-39 of this report.

Fund Financial Statements. A “fund” is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The county, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the county can be divided into one of three categories: Governmental Funds, Proprietary Funds or Fiduciary Funds.

Governmental Funds. *Governmental Funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as the *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government’s near-term financing requirements. The governmental funds financial statements can be found on pages 40-46 of this report.

Because the focus of governmental funds is narrower than the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for governmental activities in the *government-wide financial statements*. By doing so, readers may better understand the long-term impact of the government’s near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The county maintains sixty-one individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the following five funds, which the county considers to be “major” funds:

- the General Fund
- the Road and Bridge Fund
- the American Rescue Plan Stimulus Fund
- the Grant Fund
- the Debt Service Fund

Data from the other governmental funds are combined into a single, aggregated presentation. Individual data for each of these nonmajor governmental funds is provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

The county adopts annual appropriated budgets for the General Fund, required Special Revenue Funds, the Grant Fund and the Debt Service Fund. Some Special Revenue Funds do not require budgets, while the budgets of others are not under the jurisdiction of Commissioners Court. Project-length, rather than annual, budgets are adopted for the Capital Projects Funds. A budgetary comparison has been provided for all budgeted governmental funds to demonstrate budgetary compliance, regardless of the basis (annual, project-length or other) on which those budgets are prepared.

Proprietary Funds. *Proprietary Funds* include Enterprise Funds and Internal Service Funds.

- *Enterprise Funds* are used to report the same functions that would be presented as business-type activities in the government-wide financial statements. The county currently engages in no business-type activity.
- *Internal Service Funds* are an accounting device used to accumulate and allocate costs entirely among the county's various functions. The county uses four internal service funds to account for: 1) the expenses related to budgeted expenditures of various county departments for group health, unemployment and workers' compensation insurance and 2) general casualty and liability insurance premiums. The Internal Service Funds are combined into a single aggregated presentation in the proprietary funds' financial statements. Individual fund data in the form of combining statements is provided on pages 47-49 of this report.

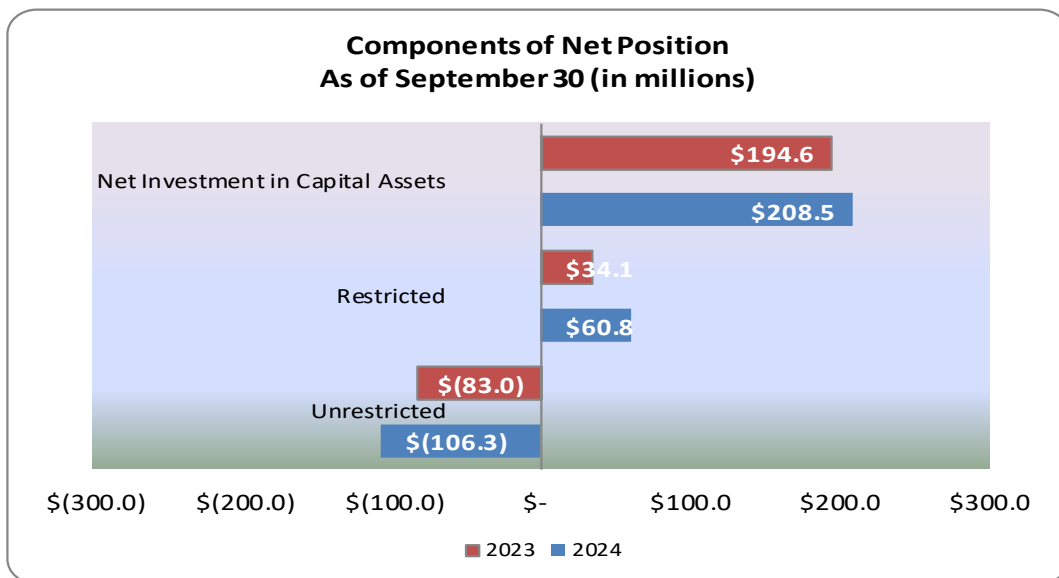

Fiduciary Funds. *Fiduciary Funds* are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reported in the government-wide financial statements because the resources of these funds *are not* available to support the county's own programs. The accounting for fiduciary funds is much like that used for proprietary funds. It includes trust and custodial funds. The county presently accounts for one OPEB Trust Fund (Retiree Life Reserve) and thirteen Custodial Funds. Custodial funds include seizures, registry accounts, unclaimed property and other deductions, escrow, special collections, inmate deposits and special committees. The fiduciary fund statements can be found on pages 50-51 of this report.

GOVERNMENT-WIDE OVERALL FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the county, assets and deferred outflows exceeded liabilities and deferred inflows by \$162.9 million at the close of the fiscal year ended September 30, 2024.

The largest portion of the county's net position, \$208.5 million, reflects its investment in capital assets (e.g., land, infrastructure, buildings and improvements, right-to-use leases, machinery and equipment), less any related outstanding debt that was used to acquire those assets. The county uses these capital assets to provide services to citizens and consequently the assets are not available for future spending. It should be noted the resources used to re-pay this debt must be provided from other sources, since the capital assets themselves cannot be used to do so.

Summary of Net Position September 30, 2024 and 2023 (\$ in millions)		
	2024	2023
Assets:		
Current and Other Assets	\$ 240.6	\$ 267.4
Capital Assets, Net of Accumulated Depreciation	290.2	286.6
Total Assets	530.8	554.0
Total Deferred Outflows of Resources	39.6	57.9
Liabilities:		
Current Liabilities	48.2	62.0
Long-Term Liabilities (Including Current Portion)	297.2	339.8
Total Liabilities	345.5	401.9
Total Deferred Inflows of Resources	61.9	64.4
Net Position:		
Net Investment in Capital Assets	208.5	194.6
Restricted	60.8	34.1
Unrestricted	(106.3)	(83.0)
Total Net Position	\$ 162.9	\$ 145.7

A portion of the county's net position, \$60.8 million, represents resources subject to external restrictions on their use. The remainder, \$(106.3) million, is unrestricted. Because the county incurred

long-term liabilities not offset by corresponding assets, unrestricted net position is negative. The largest contributor to the change in net position was from a decrease in the deferred outflow for pension due to changes in the actuarial valuation. See pages 91-95 of the Notes to the Financial Statements for more details about the county's pension plan.

Extraordinary Item:		
Insurance Proceeds for Damage Remediation/Restoration	<u>-</u>	<u>0.2</u>
Increase (Decrease) in Net Position	17.3	11.9
Net Position - Beginning	<u>145.7</u>	<u>133.8</u>
Net Position - Ending	<u>\$ 162.9</u>	<u>\$ 145.7</u>

The county's net position from current year activities increased by \$17.3 million (11.9%) between revenues and expenses during the fiscal year ended September 30, 2024. The positive change in net position for current year activity indicates that, on a flow-of-economic-resources basis, current year revenues were more than sufficient to pay current year expenses. Compared to fiscal year 2023, underlying revenues decreased by \$8.9 million (3.6%), while underlying expenses increased by \$14.5 million (6.1%).

Key factors in the net change in revenues include:

- Property Tax revenues increased by \$8.3 million due to an increase in the property tax valuations, despite a reduction to the property tax rate.
- Operating Grants and Contributions decreased by \$19.0 million primarily due to a decrease in disaster recovery reimbursements, a decrease in ARPA and ERA#2 spending and a decrease of \$2.6 million in TxDOT reimbursements for the FM646 project.
- Payments in lieu of tax revenue increased by \$1.2M due to an increase in the foreign trade zone (FTZ) revenue.

Key factors in the net change in expenses include:

- General Government decreased by \$5.5 million, mainly due to a decrease of \$2.0 million in contract legal fees, \$1.4 million in other contract services and decreases in the retiree health plan valuation.
- Public Safety expenses decreased by \$6.4 million in large part due to decreases of \$2.3 million in CDBG non-housing grant expenditures, \$1.4 million in the jail healthcare contract, \$1.0 million in vehicle and equipment purchases, as well as \$0.6 million in vehicle maintenance. In addition, decreases occurred in the retiree health plan and pension plan valuations.
- Roads, Bridges and Rights-of-Way expenses decreased by \$1.4 million due to an overall decrease of drainage improvement and road construction projects.
- Interest on Long-term Debt expense decreased by \$0.9 million owing to the re-payment of long-term debts, with no new issuances.

As the county presently engages in no business-type activities, governmental activities account for all of the changes in net position at the government-wide reporting level.

FINANCIAL ANALYSIS OF THE GOVERNMENTAL FUNDS

As noted earlier, Governmental Funds are accounted for as near-term resource inflows and outflows providing funds for county operations. Such information is useful in assessing the county's financing requirements.

Changes in Fund Balance – Major Funds

General Fund. The *General Fund* is the county's primary operating fund. At September 30, 2024, the General Fund's unassigned fund balance totaled \$62.7 million; total fund balance decreased during the fiscal year to \$67.8 million. As a measure of the General Fund's liquidity, it is useful to compare both unassigned and total fund balances to total expenditures. The General Fund's unassigned fund balance and total fund balance represent 37.4% and 40.4%, respectively, of total expenditures for the fiscal year ended September 30, 2024. This indicates the county's ability to fund operations for roughly six months using fund balance.

Revenues increased from the prior year by \$9.4 million. The change in revenue was mostly due to a \$6.4 million increase in property tax revenue related to an increase in property valuations and a \$1.7 million increase in miscellaneous revenue, in large part due to a \$1.2M increase in FTZ revenue.

As shown on the Statement of Revenues, Expenditures and Changes in Fund Balance, the net result of revenues less expenditures and other financing sources was a decrease in fund balance of \$6.3 million. Commissioners Court assigned a portion of fund balance to be utilized in the fiscal year 2024 adopted budget in the amount of \$37.2 million, to be used as needed for unforeseen expenditures not known at the time the budget was adopted.

Road and Bridge Fund. The *Road and Bridge Fund* has a fund balance at September 30, 2024, of \$3.4 million. The fund balance decreased from the prior year by \$1.4 million. The largest contributors to this decrease was a reduction in tax revenue of \$0.8 million due to the change in the property tax rate for the Road & Bridge Fund, as well as an increase in road materials expenditures of \$0.4 million.

American Rescue Plan Stimulus Fund. The *American Rescue Plan Stimulus Fund* has a fund balance of \$0.5 million at September 30, 2024, a decrease of \$1.1 million from the prior fiscal year due to the spending of the fund balance on projects that support the health, social and economic impacts caused by the COVID-19 pandemic.

Grant Fund. The *Grant Fund* has a fund balance at September 30, 2024, of (\$4.2) million. The fund balance increased by \$6.9 million in the current fiscal year; this change was largely due to a grant match-mandatory amount of \$5 million from the General Fund, as well as revenue earned from the Court Backlog grant.

Debt Service Fund. The *Debt Service Fund* has a fund balance at September 30, 2024, of \$4.1 million. Its fund balance decreased by \$3.4 million from the prior fiscal year, due in large part to a reduction of \$2.6 million in TxDOT reimbursement revenue with the completion of the FM646 project.

General Fund Budgetary Highlights

The original adopted budget for General Fund operating expenditures was \$170.5 million, plus transfers out to other funds budgeted at \$1.8 million. Including budgeted reserves of \$37.2 million, the total adopted General Fund budget was \$209.5 million (rounded). During the year, budgeted reserves were reduced by \$26.1 million; \$10.5 million was used to increase transfers out to other funds to \$12.3 million. The final amended budget for operating expenditures after returning unused budgeted reserves to fund balance was \$188.8 million. The increase in operating budgeted expenditures was primarily due to:

- General Government expenditures increased by \$7.5 million, mainly due to a \$1.1 million increase in legal fees and a \$4.4 million increase in information technology for subscription-based IT arrangements, as well as maintenance and repairs of equipment and equipment and other rentals.
- Public Safety budgeted expenditures increased \$3.4 million, mostly for overtime and salary increases as well as an increase in the jail healthcare contract and vehicle make-ready.
- Capital Outlay budgeted expenditures increased by \$6.5 million mainly due to anticipated purchases of vehicles and machinery and equipment that were on backorder from the previous fiscal year.

During the year, actual revenues were greater by \$12.9 million and actual expenditures were \$20.9 million less than final budgeted amounts. See table below for significant budget to actual variances for both revenues and expenditures in the General Fund.

General Fund Budget to Actual Variances September 30, 2024 (\$ in millions)

Miscellaneous	(4)	3.4	4.8	1.4
Total Revenues		<u>\$ 155.6</u>	<u>\$ 168.5</u>	<u>\$ 12.9</u>
(1) Taxes -		increase due to an increase in the property tax base and a higher than expected collection rate		
(2) Intergovernmental -		increase due to an increase in the Sheriff's ISDs salary reimbursements		
(3) Investment Earnings -		increase due to the increase of investment activity, leading to a greater than expected interest earnings rate		
(4) Miscellaneous -		majority of the increase is due to underestimate of FTZ revenue received, as well as telephone and tablet commissions for the inmates

Total Expenditures		<u>\$ 188.7</u>	<u>\$ 167.8</u>	<u>\$ (20.9)</u>
(1) General Government, Judicial & Public Safety -		decrease due to county policy related to vacated positions left unfilled for 4 payroll periods		
(2) General Government -		decrease due to fewer contract services, agency memberships, equipment rentals, building maintenance and utilities costs, as well as reclassification of leases (GASB 84) and subscription-based IT arrangements (GASB 96) to Debt Service		
(3) Judicial -		decrease due to various lower court costs - petit and grand juries, court appointed attorneys, family/child protection expenses, etc.		
(4) Public Safety -		decrease due to lower juvenile justice placement services and other contract services, as well as lower emergency management contracts and nuisance abatement services		
(5) Health And Social Services -		decrease due to lower medical examiner costs and indigent medical care services		
(6) Debt Service -		increase due to reclassification of principal and interest payments for leases (GASB 84) and subscription-based IT arrangements (GASB 96) from General Government		
(7) Capital Outlay -		decrease due to the purchase of machinery, equipment and vehicles not occurring by fiscal year-end due to market shortages, as well as a new facility project not completed		

Notes to the Financial Statements

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The Notes to the Financial Statements can be found on pages 52-104 of this report.

Other Information

In addition to the basic financials statements and accompanying notes, this report also presents certain required supplementary information ("RSI") about the budgetary compliance of the county's General Fund, Road and Bridge Fund, American Rescue Plan Stimulus Fund and Grant Fund. Also included are notes to the RSI, which provides schedules regarding the net pension liability/(asset) and employer contributions for the county's retirement plan, as well as schedules related to OPEB liability and funding. The RSI and notes to the RSI can be found on pages 105-125 of this report.

Capital Assets and Debt Administration

Capital Assets. The county's investment in capital assets at September 30, 2024, net of accumulated depreciation/amortization, totaled \$290.2 million, an increase of \$3.6 million from the prior year. Capital assets are classified as land, infrastructure, buildings and improvements, machinery and equipment, improvements other than buildings, right-to-use leases, right-to-use subscriptions and construction in progress. The increase in investment in capital assets occurred mainly from an increase in capital outlay to purchase or construct improvements other than buildings.

Capital Assets (Net of Depreciation/Amortization) At September 30, 2024 and 2023

	2024	2023
Land	\$ 38,816,885	\$ 38,816,885

Infrastructure	54,774,576	52,293,705
Construction in Progress	33,543,845	59,151,144
Total	<u>\$ 290,210,095</u>	<u>\$ 286,616,905</u>

During this fiscal year, \$38.1 million was transferred from “Construction in Progress” to various capital asset categories, including:

- Buildings
 - Medical Examiner-La Marque
 - Bacliff Annex JP1 Courthouse & Parking
 - Renovation North County Annex
 - Juvenile Justice Detention Center
 - Mental Health Public Defenders Office (Old Crt, 6th Fl)
 - Texas City Annex HVAC
- Infrastructure
 - Bolivar Culverts
 - Bacliff 9th & 11th Ave Drainage
 - Bacliff Villas Drainage
 - Seawall Riprap Restoration
 - Birch Road Bridge Replacement
 - Highland Bayou Jay Road Ditch
 - Willow Bayou Drainage
 - Estes Park Culverts
 - Bacliff 10th St. Reconstruction
- Improvements Other Than Buildings
 - Pocket Park#2 Lot/Walkover/Driveway
 - Port Bolivar Park, Improvements
- Intangible
 - Intellidact, Court Redaction Software
 - Odyssey Modules

At fiscal year-end, total Construction in Progress included the following:

- Land and Land Improvements: \$2.3 million
- Buildings: \$19.7 million
- Infrastructure: \$11.4 million
- Improvements Other Than Buildings: \$77 thousand
- Equipment: \$4 thousand

Additional information on the county’s capital assets is found in Note III.E to the Financial Statements on pages 72-74 of this report.

Long-Term Debt. At September 30, 2024, the county’s outstanding bonded debt, including accumulated accretion, totaled \$169.0 million, all of which is general obligation bonds. These general obligation bonds are backed by the full faith and credit of the county.

**General Obligation Bonds Outstanding, Including
Cumulative Accretion, by Intended Use of Proceeds
At September 30, 2024 and 2023**

	2024	2023
Road, Bridge and Flood Control Projects	\$ 92,816,447	\$ 101,609,426
Public Facilities and Other	76,143,146	87,195,304
Total Long-Term Debt	<u>\$ 168,959,593</u>	<u>\$ 188,804,730</u>

The county's outstanding bonded debt decreased by a net 10.5%, or \$19.8 million, during the fiscal year ended September 30, 2024. No new debt was added, and scheduled principal payments totaled \$15.6 million. Current-year accretion on capital appreciation bonds added \$1.0 million; this increase was offset by the payment of \$5.2 million, resulting in net accretion of (\$4.3) million.

The county maintains an "Aaa" rating from Moody's Investors Service, Inc., and an "AA+" rating from Fitch Ratings on its general-obligation debt.

State statute limits the amount of general obligation debt a governmental entity may issue to 5 percent of the assessed full valuation. The current debt limit for the county is \$1.7 billion, which is significantly in excess of the county's outstanding general obligation debt. In addition, Article III §52 of the Texas Constitution limits the unlimited tax road bonds a governmental entity may issue to 25 percent of the assessed full valuation. The current debt limit for the county is \$7.9 billion, which is significantly in excess of the county's outstanding unlimited tax road bonds.

Additional information concerning the county's long-term debt can be found in Note III.H to the Financial Statements on pages 80-86 of this report.

Economic Factors and Next Year's Budgets and Rates

- The total ad valorem tax rate for FY 2025 is \$0.333500 (per \$100.00 of valuation). This is a reduction of \$0.0084 from the FY 2024 tax rate of \$0.341900.
- The reduction in tax rate is due to Senate Bill 2 tax reform legislation, as well as an increase in the county's net taxable base value from \$43.4 billion in fiscal year 2023 to \$49.4 billion in fiscal year 2024.
- FY 2025 budget figures for the General Fund include revenues of \$176.2 million, expenditures of \$176.5 million and transfers to other funds of \$9.0 million, with an additional \$34.2 million set aside for unanticipated expenditures.
- As reported by the Bureau of Labor Statistics, the unemployment rate in Galveston County for September 2024 was 4.4%, which exceeded the 2024 state unemployment rate of 4.1% by 0.3% and the September 2024 national unemployment rate of 4.2% by 0.2%.
- The U.S. Census Bureau estimated the county's population at July 1, 2023 at 361,744, an increase of 11,060 from the 2020 census figure of 350,684.
- The Real Estate Center at Texas A&M University reported an average of 472 housing sales per month for the county's fiscal year ended September 30, 2024 at an average median sales price of \$354,659 compared to statistics of 506 and \$340,000 respectively, for its fiscal year ended September 30, 2023.
- The U.S. Census Bureau also reported that in 2022, the most recent year of data available, there were 6,408 employer establishments operating within the county, employing 90,641 persons, with a combined annual payroll of \$4.4 billion.

GALVESTON COUNTY, TEXAS
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN
FUND BALANCES - GOVERNMENTAL FUNDS TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
For the Year Ended September 30, 2024

Net change in fund balances - total governmental funds: \$ (11,997,559)

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period. This is the amount by which depreciation of \$15,694,681 exceeded additions of \$19,263,396 to capital assets in the current period. 3,568,715

Governmental funds report the entire net sales price (proceeds) from sale of an asset as an other financing source because it provides current financial resources. In contrast, the Statement of Activities reports only the gain on the sale of the assets. Thus, the change in the net position differs from the change in fund balance by the undepreciated cost of the asset sold. (942,651)

Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the Statement of Activities when earned. (1,655,936)

Governmental funds report bond and other debt proceeds as current financial resources. In contrast, the Statement of Activities treats such issuance of debt as a liability. Governmental funds report repayment of bond principal as an expenditure. In contrast, the Statement of Activities treats such repayments as a reduction in long-term liabilities. This is the amount by which repayments exceeded proceeds. 17,769,344

Some expenses reported in the Statement of Activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds:

Accrued interest not reflected in governmental funds	64,390
Compensated absences	319,188
Amortization of deferred charges	945,368
Other post-employment benefits	(1,818,179)

Notes to the Financial Statements

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

1. Primary government

Galveston County, Texas was organized and exists under the Constitution and laws of the State of Texas. It was established on May 15, 1838, by the President of the Republic of Texas, Sam Houston. The county is located on the upper Texas coast and comprises a land area of 430 square miles. It is governed by an elected Commissioners Court composed of the County Judge and four County Commissioners. Services related to public safety, health and social programs, culture and recreation, conservation and the construction, improvement, maintenance and acquisition of roads, bridges and rights-of-way are provided.

The county prepares its basic financial statements in conformity with generally accepted accounting principles of the United States promulgated by the Governmental Accounting Standards Board ("GASB"), including:

- Governmental Accounting Standards Board Statement No. 61, *The Financial Reporting Entity: Omnibus – An Amendment of GASB Statements No. 14 and No. 34*, and
- Other authoritative sources identified in Statement on Auditing Standards No. 69, *The Meaning of "Present Fairly in Conformity with Generally Accepted Accounting Principles" in the Independent Auditor's Report* of the American Institute of Certified Public Accountants.

2. Component units

The accompanying financial statements present information for the government as well as its *component unit*. A component unit is an organization which is legally separate from the primary government but which is subject to fiscal, and sometimes other, oversight by that government which is so significant that to exclude the component unit's financial information from that of the primary government could mislead readers. Three specific tests are applied to determine whether a legally separate organization is a component unit of a government. These tests look at:

- the method of appointment of the organization's governing board;
- the degree of the organization's fiscal dependence upon the primary government; and
- the extent to which the exclusion of the organization's data from that of the primary government could contribute to unclear financial reporting.

Blended Component Units

A component unit is called *blended* if its operations are so intertwined with those of the primary government that it functions, for all practical purposes, as an integral part of that primary government. No distinction is made between the data of the primary government and that of a blended component unit.

The county has determined its Road District #1 qualifies for classification as a blended component unit and thus reports its financial data in the Road District #1 Special Revenue Fund. Road District #1 was created and defined under Article III, §52 of the Texas Constitution to construct, maintain and operate macadamized, gravel and paved roads and turnpikes. The Commissioners Court is the statutory governing body of Road District #1 and is authorized to act on its behalf to issue debt, set tax rates and assess tolls.

The county maintains all of the accounting records for Road District #1; separate financial statements are not issued.

The county also determined the OPEB Trust Fund qualifies as a blended component unit and is thus reported as a fiduciary fund. Although the OPEB plan is a legally separate entity, the county has a fiscal obligation to make contributions to the trust until the fund is no longer in existence. More information regarding the implementation of GASB Statement 84 and the OPEB Trust Fund can be found below in the notes.

Discretely Presented Component Units

Alternatively, a component unit is labeled *discretely presented* when it operates with a greater degree of autonomy with relation to the primary government. The data of such a component unit is presented together with, but distinguishable from, the data of the primary government. The county currently reports no discretely presented component unit.

B. Government-wide and Fund Financial Statements

The *government-wide financial statements* (i.e., the Statement of Net Position and the Statement of Activities) report information for non-fiduciary activities of the primary government. The effects of inter-fund services provided and used are not eliminated in the process of consolidation, whereas indirect expense allocations are eliminated from the government-wide financial statements.

In the Statement of Net Position, activities of the primary government are classified either as *governmental activities* or *business-type activities*. Governmental activities, which are normally supported by taxes and inter-governmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The county presently accounts for no business-type activity.

The Statement of Activities demonstrates the degree to which the *direct expenses* of a given function or segment are offset by *program revenues*. Direct expenses are those clearly identifiable with a specific function or segment. Program revenues include:

- charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and
- operating and capital grants and contributions that are restricted to use in meeting the operational or capital requirements of a particular function or segment.

Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for *Governmental Funds*, *Proprietary Funds* and *Fiduciary Funds*, although the fiduciary funds are excluded from the government-wide financial statements. Major individual funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide and proprietary funds financial statements use the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property

taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Proprietary Funds distinguish *operating revenues and expenses* from *non-operating items*. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a Proprietary Fund's principal ongoing operations. The county's Proprietary Funds are its four Internal Service Funds. Their operating revenues consist primarily of charges to the county for medical insurance and reimbursements for claims from workers' compensation insurance. Operating expenses for these Internal Service Funds include the payment of claims, the cost of insurance premiums and administrative expenses.

Governmental Funds financial statements use the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they become both measurable and available. Revenues are considered to be *measurable* if the transaction amounts can be determined and are considered to be *available* if they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. With regard to this latter criterion, the government considers revenues to be available if they are collected within sixty days of the end of the fiscal period. Expenditures are generally recorded when a liability is incurred, as with accrual accounting. However, debt service principal and interest expenditures on general long-term debt, including lease liabilities, as well as expenditures related to compensated absences and claims and judgments are recorded when due. General capital asset acquisitions, including entering into contracts giving the county the right to use leased assets, are reported as expenditures in governmental funds. Issuance of long-term debt and financing through leases are reported as other financial sources.

Property and franchise taxes, licenses and interest associated with the current fiscal year are all considered to be susceptible to accrual and so have been recorded as revenue of the period. Sales taxes collected and held by the state at year-end on behalf of the county are also recorded as revenue. Entitlements and shared revenue are recorded either at the time of receipt or earlier if the accrual criteria are met. Operating grants are recorded as revenue when the qualifying expenditures have been made and all other grant requirements have been met. All other revenue items are considered to be measurable and available only when cash is received by the government.

The county reports the following five major funds, all of which are Governmental Funds:

- The *General Fund* is the primary operating fund. It accounts for all financial resources of the general government except those accounted for in another fund. The principal sources of General Fund revenues are property taxes, charges for services and fines and forfeitures. General Fund expenditures provide services involving public safety, health and social programs, culture and recreation, conservation and capital outlay, in addition to funding general government and judicial administration.
- The *Road and Bridge Fund* was created and is defined under Article 8, Section 9(c) of the *Texas Constitution*, which authorizes an ad valorem tax of \$0.15 per \$100.00 valuation to be levied and collected for the maintenance of public roads. Additionally, Chapter 256 of the *Texas Transportation Code* states these funds are to be used only for public road work or bridge construction, and only by order of the Commissioners Court.
- The *American Rescue Plan Stimulus Fund* is used to account for the American Rescue Plan Act 2021 stimulus funding received from the U.S. Government. This funding is to be used to support the public health responses to the coronavirus pandemic, address the negative economic effects caused by

COVID-19, including government services through revenue loss funding, provide funding for public safety and investing in storm water infrastructure.

- The *Grant Fund* is used to aggregate grant funding awarded by the federal and state governments and by private foundations.
- The *Debt Service Fund* is used to account for the accumulation of resources to retire the principal of, and to pay the interest costs and paying-agent fees associated with, the county's long-term debt.

The county reports fifty-six other Governmental Funds as nonmajor funds in the *Special Revenue* and *Capital Projects* fund types.

The county reports, as Proprietary Funds, four *Internal Service Funds*, three of which account for personnel-related insurance (health, workers' compensation and unemployment), and the fourth of which accounts for the insuring of real property and other tangible assets.

The county also reports, as Fiduciary Funds, one *OPEB Trust Fund* and thirteen *Custodial Funds*. A full listing and description of the county's fiduciary funds can be found in the combining and individual fund statements and schedules.

- The OPEB Trust Fund is used to account for the retiree life reserve plan, which is an irrevocable trust.
- The Custodial Funds are used to account for situations where the government's role is purely custodial, such as the receipt and remittance of fiduciary resources to individuals, private organizations or governments. The largest custodial funds are used to account for monies held in custody for county clerk and district clerk registry funds until a court order determines their disposition, as well as tax collections collected by the Tax Assessor-Collector for other entities until their distribution.

D. Assets, Deferred Outflows/Inflows of Resources, Liabilities and Net Position or Fund Balance

1. Deposits and investments

The county's cash and cash equivalents comprise cash on hand, demand deposits and short-term investments with original maturities of three months or less at the date of acquisition.

State statutes authorize investments in United States Treasury, agency and instrumentality obligations; certificates of deposit; repurchase agreements; brokers' acceptances; commercial paper; mutual funds; guaranteed investment contracts; and investment pools. Investments are stated at cost, amortized cost or fair value.

2. Receivables and payables

Intra-reporting entity receivables/payables

Certain activity between funds is representative of lending/borrowing arrangements. The current portions of such balances of intra-reporting entity loans outstanding at fiscal year-end are labeled "due to/from other funds"; the non-current portions are labeled "advances to/from other funds."

Ad valorem property tax receivables

The county sets its tax rates annually. The ad valorem property tax receivable is net of an allowance of 6% of the delinquent receivables outstanding at fiscal year-end for estimated uncollectible accounts. The allowance for interest and penalties depends on the age of the receivables and varies from 6% to 100%.

Ad valorem property tax value is assessed at 100% of appraised market value as required by the *Property Tax Code*.

Property taxes for the county are levied based on the taxable value on the lien date of January 1st prior to September 30th of the same year. They become due October 1st of that same year and delinquent after January 31st of the following year, with the exception of homeowners over 65, disabled persons, disabled vets and surviving spouses of disabled vets who have the option of making quarterly tax payments. Disaster-affected customers have also been allowed to make quarterly payments. Receivables and revenues for prior-year levies delinquent at year end and outstanding 60 days after year end are reflected on the government-wide statements based on the full accrual method of accounting and under the modified accrual method in the fund statements.

3. Inventories and prepaid items

All inventories are valued at average cost using the “first-in/first-out” method. Inventories of Governmental Funds are recorded as expenditures when consumed rather than when purchased.

Under the consumption method, the county records certain payments to vendors that are reflective of costs applicable to future accounting periods as prepaid items in both government-wide and fund financial statements.

4. Capital assets

The county considers an asset to be a *capital asset* if it has: 1) an initial cost that exceeds a specified threshold, and 2) an *estimated useful life* that is longer than one year. Capital assets may include land, construction in progress, buildings and improvements, improvements other than buildings, machinery and equipment and right-to-use assets through leases and subscriptions. Capital assets may also include *infrastructure* – public-domain, long-lived, immovable assets such as roads, bridges, park trails, the Galveston seawall, dams and levees. With the exception of the right-to-use assets, the county capitalization thresholds are \$5,000 for non-infrastructure capital assets and \$100,000 for infrastructure capital assets.

Capital assets are reported in the government-wide financial statements. With the exception of the right-to-use lease assets (the measurement of which is discussed in note III F. below), they are recorded:

- at historical cost or estimated historical cost, if purchased or constructed; or
- at acquisition cost, which is the price that would be paid to acquire an asset with equivalent service potential at the donation date, if donated.

The costs of normal maintenance and repairs that do not add to asset values or materially extend asset lives are not capitalized. Interest expense incurred on borrowings during the construction of capital assets is not capitalized.

The county's depreciable/amortizable capital assets, including the right-to-use leased land, buildings and equipment, are depreciated/amortized, using the *straight-line method* and assuming no *salvage value*, over the following estimated useful lives. More detail regarding capital assets can be found in note III E.

Asset Type	Years
Right-to-use leased land	10
Dams and levees	60
Bridges	50
Concrete and limestone streets; park trails and pathways; Galveston Seawall	30
Asphalt streets; improvements other than buildings	20
Buildings and improvements	40
Right-to-use buildings	2 to 6
Building components	10 to 40
Portable buildings	10
General and heavy equipment	13
Furniture and fixtures	7
Technological equipment; intangible assets	5
Right-to-use leased equipment	2
Vehicles	5

5. Deferred outflows and inflows of resources

Deferred outflows and inflows of resources are reported as described below.

In addition to assets, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represent a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The county has the following two items that qualify for reporting in this category:

- **Deferred charge on refunding** – Reported in the government-wide Statement of Net Position, this deferred charge on refunding results from the difference between the carrying value of the refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- **Deferred outflows of resources for pension/OPEB** – Reported in the government-wide Statement of Net Position, this deferred outflow results from pension plan and OPEB (Other Post-Employment Benefits) contributions made after the measurement date of the net pension and OPEB liability, and from the results of differences between projected and actual earnings and changes in assumptions. The deferred outflows of resources related to pensions and OPEB resulting from county contributions made subsequent to the measurement date will be recognized as a reduction of the net pension and OPEB liability in the next fiscal year. The difference will be amortized over the expected remaining service life, which is currently five years, of both active and inactive employees who do, or will, receive pensions and OPEB through the plan.

In addition to liabilities, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represent an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The county has the following types of items that qualify for reporting in this category:

- **Deferred inflows of resources for unavailable revenues** – Reported only in the governmental funds Balance Sheet, these unavailable revenues arise under the modified accrual basis of accounting from 1) property taxes, 2) intergovernmental revenue and 3) unpaid charges for services, court fees and fines. The amounts are deferred and recognized as an inflow of resources in the periods in which the amounts become available.
- **Leases** – Reported in the government-wide Statement of Net Position, the county reports deferred inflows related to leases where the county is a lessor. In addition, the deferred inflows of resources related to the leases are recognized as an inflow of resources (revenue) on the straight-line method over the term of the lease in the governmental funds Balance Sheet.
- **Deferred inflows of resources for pension/OPEB** – Reported in the government-wide Statement of Net Position, the county reports deferred inflows related to pension and OPEB. The amounts result primarily from differences between the expected and actual actuarial experience and the difference between projected and actual earnings. The amounts are amortized over a closed five-year period.

6. Leases

Lessee

Galveston County is a lessee for noncancelable leases of land, buildings and equipment and recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements.

At the commencement of a lease, the county initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Right-to-use leased assets are amortized over the shorter of the lease term or useful life of the underlying asset using the straight-line method. The current amortization period varies from four to six years.

Key estimates and judgments related to leases include how the county determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term and (3) lease payments.

- The county uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the county generally uses its estimated incremental borrowing rate as the rate for leases.
- The lease term includes the noncancelable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the county is reasonably certain to exercise.

The county monitors changes in circumstances that would require a remeasurement of any lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets, and lease liabilities are reported with long-term debt on the statement of net position.

Lessor

Galveston County is a lessor for several noncancelable leases of land and buildings and recognizes a deferred inflow of the resources in the government-wide and governmental fund financial statements.

At the commencement of a lease, the county initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the county determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term and (3) lease receipts.

- The county uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancelable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The county monitors changes in circumstances that would require remeasurement of any lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

7. Subscription-Based Information Technology Arrangements

The county is a participant in noncancelable subscription-based IT arrangements (SBITAs) and recognizes a liability and an intangible right-to-use asset in the government-wide financial statements.

At the commencement of a SBITA, the county initially measures the liability at the present value of payments expected to be made during the agreement term. Subsequently, the liability is reduced by the principal portion of payments made. The asset is initially measured as the initial amount of the liability, adjusted for payments made at or before the commencement date, plus certain initial direct costs. The asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to SBITAs include how the county determines (1) the discount rate it uses to discount the expected payments to present value, (2) agreement term and (3) agreed upon payments.

- The county uses the interest rate charged by the vendor as the discount rate. When the interest rate charged by the vendor is not provided, the county generally uses its estimated incremental borrowing rate as the discount rate.
- The agreement term includes the noncancelable period of the subscription arrangement.
- The agreed upon payments included in the measurement of the liability are composed of fixed payments and purchase option price that the county is reasonably certain to exercise.

The county monitors changes in circumstances that would require a remeasurement of its subscription arrangement and will remeasure the asset and liability if certain changes occur that are expected to significantly affect the amount of the liability.

These right to use assets are reported with other capital assets and liabilities are reported with long-term debt on the statement of net position.

8. Compensated absences

The county permits employees to accumulate earned but unused vacation and sick leave up to specified limits, in accordance with policy adopted by the Commissioners Court. A liability for these amounts is accrued when incurred in the government-wide financial statements but is reported in Governmental Funds only if it has matured – for example, as a result of employee resignations and retirements.

Vacation Leave

An employee accrues vacation leave beginning on the six-month anniversary of date of employment, at a specified number of hours per year which differs with tenure, until, at twenty years of service, two hundred hours (five weeks) of vacation leave are awarded each year. An employee may accumulate up to 150% of the annual vacation accrual; any excess is forfeited at the next anniversary date. Half-time employees accrue vacation leave at one-half the number of hours awarded to full-time employees. Presently, upon termination, employees hired before October 1, 2011, are paid for earned but unused vacation leave up to a maximum of 300 hours, while employees hired on or after October 1, 2011, are paid for earned but unused vacation leave up to a maximum of 120 hours.

Sick Leave

An employee begins to accrue sick leave on the six-month anniversary of the date of employment, at a specified number of hours per year, to a maximum of 720 hours; any excess is forfeited at the next anniversary date. Half-time employees accrue sick leave at one-half the number of hours awarded to full-time employees. If, at termination, employees: 1) qualify to retire (per criteria of the Texas County and District Retirement System), and 2) were hired before October 1, 2011, they are paid for one-half of their accumulated sick-leave balances, presently to a maximum of 360 hours. Employees hired on or after October 1, 2011, receive no compensation at termination for accumulated sick-leave balances.

At September 30, 2024, the total liability for compensated absences was \$7,078,804, of which \$10,780 was recorded in, and payable from, current financial resources of the fund in which the liability was incurred. If current financial resources in that fund are insufficient, or if such treatment is prohibited by grant provisions, the liability is recorded in the General Fund.

9. Pensions

The county reports a liability for pension obligations and related deferred inflows and outflows of resources in accordance with Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement No. 27*, and Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an Amendment of GASB Statement 68*. Changes in the net pension liability from year to year will be recognized as pension expense on the government-wide Statement of Activities or reported as deferred inflows or outflows of resources on the Statement of Net Position, depending on the nature of the change. Transactions giving rise to deferred inflows and outflows of resources are not entirely recognized in the Statement of Activities in the period in which they arise but are instead amortized over multiple years.

10. Other post-employment benefits (OPEB)

Retiree Life Reserve (RLR): For purposes of measuring the total OPEB liability, OPEB related deferred outflows and inflows of resources, and OPEB expense, benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. To meet long-term funding needs, contributions

are actuarially determined as a percentage of payroll. Information regarding the county's net OPEB asset is obtained from a report prepared by a consulting actuary, Gabriel Roeder Smith & Company.

Retiree Health Plan (RHP): For purposes of measuring the total OPEB liability, OPEB related deferred outflows and inflows of resources, and OPEB expense, benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Contributions are not required but are measured as payments by the county for benefits due and payable that are not reimbursed by plan assets. Information regarding the county's total OPEB liability is obtained from a report prepared by a consulting actuary, Gabriel Roeder Smith & Company.

11. Long-term obligations

In the government-wide statements, long-term debt and other long-term obligations are reported as liabilities in the Governmental Activities column in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective-interest method. Bonds payable are reported net of applicable bond premium or discount.

In the Governmental Funds statements, bond premiums, discounts and issuance costs are recognized in the current period. The face amount of debt issued, and related premiums, are reported as other financing sources, while related discounts are reported as other financing uses. Issuance costs, whether withheld from gross proceeds or separately disbursed, are reported as current-period expenditures.

12. Unemployment and workers' compensation benefits

The county provides unemployment benefits through the Texas Association of Counties ("TAC"), funding premiums, determined periodically by TAC, during the processing of each biweekly county payroll. The county provides workers' compensation benefits through a third-party administrator which pays claims as they become due. Both of these benefits are budgeted and paid from current resources.

13. Comparative data/reclassifications

Comparative amounts for the prior year have been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the financial position and operations of various funds. Certain amounts presented in the prior-year data have been reclassified in order to be consistent with the current year's presentation.

14. Equity

Fund Balance

In the fund statements, Governmental Funds may report fund balance in as many as five classifications.

- *Nonspendable* fund balance is either not spendable in its present form (e.g., inventory and the long-term portion of notes receivable) or is legally required to be maintained intact (e.g., the corpus of a permanent fund).

- Constraints on the use of *restricted* fund balance are imposed externally (e.g., by creditors, grantors, constitutional provision and enabling legislation).
- The use of *committed* fund balance is restricted via formal action of the government's highest level of decision-making authority - in the county's case, by resolution of its Commissioners Court. A like type of action would be required if the county later desired to modify or rescind the commitment.
- Fund balance amounts classified as *assigned* are constrained by the government's intent to use them for specific purposes, but they are neither restricted nor committed. Authority to assign fund balance rests with Commissioners Court, which does so in adopting the county's annual budget.
- Last, and least restrictive, *unassigned* fund balance is the residual classification for the General Fund for amounts not restricted, committed or assigned within it. In other funds, this classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

At September 30, 2024, the county reports the following classifications of amounts in the fund balances of its Governmental Funds:

	<u>General</u>	<u>Road and Bridge</u>	<u>American Rescue Plan Stimulus</u>	<u>Grant</u>	<u>Debt Service</u>	<u>Total Nonmajor Govern- mental Funds</u>	<u>Total Govern- mental Funds</u>

15. Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make assumptions resulting in estimates that may affect:

- the reported amounts of assets and liabilities;
- the disclosures of contingent assets and liabilities; and
- the reported amounts of revenues and expenditures/expenses.

Actual results could differ from such estimates.

16. Indirect expense allocation

Per county policy, indirect expenses are not allocated to the various functions in the government-wide Statement of Activities.

17. Restricted, committed and assigned resources

Per county policy, when both restricted and unrestricted resources are available to fund an expenditure/expense, the restricted resources are applied first. Within unrestricted resources, when committed, assigned and/or unassigned resources are available to fund an expenditure/expense, any committed resources are applied first, followed by the assigned resources and then lastly by the unassigned resources.

18. Implementation of new standards

There were no new pronouncements of the Governmental Accounting Standards Board ("GASB") which affected the county's reporting for fiscal year ended September 30, 2024.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

For management control, annual budgets are adopted on a basis consistent with generally accepted accounting principles using the modified-accrual basis of accounting for certain Governmental Funds, including the General Fund, most Special Revenue Funds including the Grant Fund and the Debt Service Fund.

All of the Capital Projects Funds adopt project-length budgets.

Effective budgetary control of those funds that do not adopt an annual budget is achieved by the restrictions imposed by bond orders, grantor covenants, construction contracts and statute.

Some Special Revenue Funds either do not issue budgets or issue budgets that are not adopted through, and are not under the oversight of, Commissioners Court. They include:

Constable Pct 3 Forfeitures ¹	Probate Court Contributions ³
District Attorney Check Collection Fees ¹	Sheriff's Commissary ⁴
District Attorney Forfeitures After 10/89	Sheriff's Forfeitures Post-10/89 ¹
Election Services Contract ²	CCP Chapter 18 Forfeitures ¹
Election Code Chapter 19 Fund ⁴	SO Special Investigations ¹
Law Enforcement Continued Education ⁴	Tax Assessor-Collector Special Inventory Tax Escrow ⁴

¹ "Receive and File" Commissioners Court agenda items only.

² Under the control of the Elections Services Officer.

³ Under the control of the Probate Court Judge.

⁴ Governed by specific statutes; the county records and reports on their financial activity through its accounting system.

Department heads submit annual budget requests during the third quarter of the fiscal year. The budget requested may not exceed the total of the beginning fund balance added to the revenue estimated by the County Auditor for the coming fiscal year. The county budget office reviews budget requests and meets to discuss them with department heads in Commissioners Court workshops. In late summer, a proposed budget is presented to the Commissioners Court; public hearings are held, at which time the

Commissioners Court may change the proposed budget. The final budget is adopted in late August or early September by a majority vote of the Commissioners Court at a regularly scheduled meeting. Once the budget is approved, an order is adopted to levy the taxes necessary to collect the budgeted tax revenues. The County Auditor opens the various appropriation accounts and administers the budget during the year.

Legal budgetary control (i.e., the degree of detail at which expenditures may not legally exceed appropriations) rests at the department level. Within the departmental budget, expenditures are presented by line items (“object codes”) which are grouped into “major classes” such as Personal Services, Supplies, Other Services and Charges, Capital Outlay and Debt Service.

Encumbrance accounting is utilized in Governmental Funds to the extent necessary to assure budgetary control and accountability and to facilitate effective cash planning. Encumbrances are claims against the budget that are created through the issuance of purchase orders and the execution of contracts. Encumbrances outstanding at year-end are reported as restricted or assigned fund balance, as appropriate, and do not constitute expenditures or liabilities because those dollar amounts will be re-appropriated during the subsequent year.

At September 30, 2024, the amount of encumbrances expected to be honored in the following year upon performance by the vendor are as follows:

Major Funds:	Amount
General Fund	\$ 1,893,914
Road & Bridge Fund	16,298
American Rescue Plan Stimulus Fund	14,268,386
Grant Fund	3,816,112
Nonmajor Funds	717,065
Total Encumbrances	<u><u>\$ 20,711,774</u></u>

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Policies and Practices

The Commissioners Court is responsible for the selection of county depositories and safe-keeping custodians and for the establishment of the county’s investment policy, in accordance with state law.

The county’s main depository is Prosperity Bank of Galveston, with the following four “participating banks” as sub-depositories: Bank of America, J.P. Morgan Chase, Moody National Bank of Galveston and Texas First Bank (including branches in Dickinson, Galveston, Hitchcock, Santa Fe and Texas City). The county’s depository contracts with these institutions ensure the protection of the county’s deposits through the Federal Deposit Insurance Corporation (the “FDIC”) and through qualified securities pledged by the institutions holding the deposits. The depository contracts are effective for the two-year period that began October 1, 2023, expiring September 30, 2025.

Pledged securities must meet the criteria of the county's depository contracts and applicable state law. As of September 30, 2024, custodians are the Federal Home Loan of Dallas in Irving, Texas and Prosperity Bank of El Campo, Texas.

The depository is contractually required to maintain collateral of at least 110% of the amount of cash on deposit. Pledged securities must consist of:

- direct obligations of the United States government and/or
- direct obligations of a United States governmental agency or instrumentality, guaranteed by the full faith and credit of the United States government, except derivative securities.

Deposits

Deposit custodial credit risk is the risk that, in the event of the financial failure of a depository, the county will not be able to recover deposits or collateral securities. The county would be exposed to this kind of risk were its deposits not covered by depository insurance and were they uncollateralized, collateralized with securities held by the pledging financial institution or collateralized with securities held by the pledging financial institution's trust department or agent but not in the county's name. The county's deposits at September 30, 2024, were secured by depository insurance or by collateral held by a third-party custodian in the county's name, and thus were not exposed to custodial credit risk.

In addition to county deposits, various officials are responsible for cash which is not the property of the county, but the accounting for and protection of which the county is responsible. These funds may be seized for a court case, unclaimed property, inmate accounts and legal judgments awarded by a court to minors and other persons, cash bonds and other accounts where the money does not belong to the county. At September 30, 2024, the county's demand deposits were \$63,184,073 and the carrying value of custodial demand deposits maintained by various officials totaled \$21,628,120 .

Investments

The Commissioners Court controls the county's investment portfolio in accordance with state statute and the county's formal investment policy. Applicable statutes include:

- *Texas Government Code*, Chapter 2256, "Public Funds Investment," Subchapter A, "Authorized Investments for Governmental Entities"; and
- *Texas Local Government Code*, Subchapter E, "Depository Accounts," §116.112, "Investment of Funds."

The county's formal investment policy limits portfolio content to United States Treasury bills, strips and notes; United States government agency securities and instrumentalities; certificates of deposit at approved depository banks; repurchase agreements; money-market investment accounts; negotiable-order-of-withdrawal ("NOW") accounts; and local government investment pools.

The county participates in two Local Government Investment Pools: Texas Class and Texas Range (which is split between Texas Daily and Texas Term). These are overseen by a governing board consisting of individuals elected from participating government entities in the pool. The fair value of the county's position in the pool is the same as the value of the pool shares.

County-owned investments in local government investment pools at September 30, 2024 held a fair value total of \$145,183,940. The county also holds investments in custodial accounts handled through the

county and district clerks, who upon court order, invest monies for minors and other persons in those individuals' names. Such custodial investments at September 30, 2024, consist of certificates of deposit with original maturities of four months or more at the date of acquisition. The fair value of these custodial accounts totaled \$3,581,528. The investments are presented at amortized cost in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

Credit Risk

State law and the county's investment policy limit investment in all categories to those most highly rated by nationally recognized statistical rating organizations.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates may adversely affect the value of investments. The county's investment policy limits the maturities of investments and encourages the holding of investments to maturity. In accordance with its investment policy, the county reduces its exposure to declines in fair value by managing the weighted-average maturities of its operating funds' investment portfolio. Unless matched to a specific cash flow or specifically authorized by the Commissioners Court, the county will not directly invest in securities maturing more than thirty-six months from the date of purchase.

The county recognizes investment risk can result from changes in interest rates, leading to changes in the fair values of the underlying instruments. Investment officers are expected to display prudence, discretion and intelligence in the selection of securities to minimize such risk. County investments are selected so as to ensure the preservation of capital in the overall portfolio.

Concentration of Credit Risk

The county's investment policy requires the investment portfolio to be diversified with regard to investment instruments, maturities and financial institutions to reduce the risk of loss resulting from the

over-concentration of assets in specific classes of holdings, for specific terms and with specific issuers. However, the county does not limit the amounts it may place in the investments of any one issuer.

At September 30, 2024, the composition of the county's investment portfolio was as follows:

Investment Breakout by Type at September 30, 2024				
Investment Type	Fair Value	Percentage Of Total Portfolio	Weighted Average to Maturity in Days ("WAM")	Rating
Local Government Investment Pools -				
Texas Class	\$ 68,158,638	46.95%	101.00	AAAm
TexasDaily	57,025,302	39.28%	37.00	AAAmmf

Total Investments	<u>\$ 145,183,940</u>	<u>100.00%</u>	<u>83.89</u>	

B. Receivables

Amounts other than leases receivables are aggregated into a single receivable (net of allowance for doubtful accounts) line. At September 30, 2024, these receivables, and related allowances for uncollectible accounts, of the government's individual major funds, and of its nonmajor Governmental Funds and Internal Service and Fiduciary Funds in the aggregate, are as follows:

	Taxes	Accounts and Other	Total Gross Receivables	Less Allowance for Uncollectibles	Total 2024
Governmental Funds:					
Major Funds:					
General Fund	\$ 11,663,502	\$ 11,829,546	\$ 23,493,048	\$ (699,810)	\$ 22,793,238

Fiduciary Funds	-	10,495	10,495	-	10,495
Total Net Receivables	<u>\$ 14,532,224</u>	<u>\$ 23,096,132</u>	<u>\$ 37,628,356</u>	<u>\$ (871,933)</u>	<u>\$ 36,756,423</u>

C. Lease Receivable

Lease receivables are reported in the Governmental Funds for assets in which the county is a lessor. The detail of the lease receivable amount as of September 30, 2024 is provided in Note III. F. *Lessor* below.

D. Inter-fund Receivables, Payables and Transfers

Amounts due to/from funds of the county at September 30, 2024, are as follows:

Payable Reported by:	General Fund	Total 2024
Grant Fund	<u>\$ 12,738,663</u>	<u>\$ 12,738,663</u>
Total	<u>\$ 12,738,663</u>	<u>\$ 12,738,663</u>

Payables from the various funds exist to offset negative cash balances at fiscal year-end which result from the timing differences between when expenditures are made and when reimbursement is received from third parties, including grantor agencies.

Inter-fund balances in the fund financial statements will be liquidated in the subsequent fiscal year. Balances between individual Governmental Funds and between Governmental Funds and Internal Service Funds are eliminated in the government-wide financial statements.

Transfers among the Governmental and Internal Service Funds for the year ended September 30, 2024, are as follows:

	Transfers In						Total 2024
	General Fund	Road and Bridge	Grant Fund	Debt Service Fund	Nonmajor Govern- mental Funds	Internal Service Funds	
Transfers Out							
General Fund	\$ -	\$ 104,375	\$ 6,454,961	\$ 300	\$ 3,396,502	\$ 2,150,788	\$12,106,926
American Rescue Plan Stimulus	2,531,979	-	161,326	-	88,090	-	2,781,395
Internal Service Funds	<u>136,305</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>136,305</u>
Total Transfers Out	<u>\$ 2,668,284</u>	<u>\$ 104,375</u>	<u>\$ 6,616,287</u>	<u>\$ 300</u>	<u>\$ 3,484,592</u>	<u>\$ 2,150,788</u>	<u>\$15,024,626</u>

During the year, transfers are used to: 1) partially fund operations of Internal Service Funds and Special Revenue Funds and 2) finance activity for which the government must account in specific funds, in accordance with budgetary authorization – for example, subsidies, grant matches and funding of state-mandated programs. The total amount of grant matches for the current fiscal year is \$6,454,961.

Further, during the year ended September 30, 2024, the county made several one-time transfers. The largest of those are as follows:

- A transfer from the General Fund to the Road and Bridge Fund in the amount of \$104,375 for vehicles and equipment budgeted for, and encumbered, in FY 2023, but not received until FY 2024.
- Transfers from the General Fund to the County Building Projects Fund in the amount of 1) \$351,565 to assist in funding of a new Road & Bridge facility and 2) \$2,608,855 to fund the jail control retrofit update.
- Transfers from the American Rescue Plan Stimulus fund to the General Fund to allocate interest earnings in the amounts of 1) \$1,043,505 to fund the construction and furnishings of the behavior health observation unit, 2) \$1,124,274 to fund an ERP upgrade and 3) \$364,200 to fund cybersecurity expenditures.
- A transfer from the General Fund to the Self-Insurance Fund in the amount of \$1,998,788 for several large medical claims paid (12 claims totaling \$2.81M) and prescription drug claims larger than expected (\$706K).

H. Long-term Debt

General Obligation Debt

General obligation bonds are issued to provide funding for long-term capital improvements. In addition, they are issued to refund outstanding general obligation bonds when market conditions enable the county to achieve significant reductions in its debt service payments. Such bonds are direct obligations of the county, and the full faith and credit of the county are pledged as security. The county is required to submit to public referendum for authority to issue general obligation bonds. The remainder of the long-term debt is leases payable.

Bonded Debt -

The county issues bonded debt:

- to provide funds for the acquisition and/or construction of capital assets and
- to refund existing debt at more favorable interest rates and/or to improve cash flow.

The debt is a direct obligation and pledges the full faith and credit of the county. Bonded debt currently outstanding and presented in the financial statements consists only of general-obligation bonds issued after voter approval at general election, although in the past the county has also issued certificates of obligation at the majority will of Commissioners Court, as allowed by the *Certificate of Obligations Act*.

Per requirements of its bond indentures, the county accumulates resources to pay principal and interest from a debt service fund used solely for that purpose. Bond indentures also prescribe various other restrictions related to the obligations, with which the county believes it is in compliance.

Generally, the county's debt-service payments are funded by ad-valorem tax revenues. An exception to this funding norm is the case of the bonds which the county issued in fiscal year 2007 to provide monies to expand a segment of the state highway system located in the county. State subsidies, predicated on vehicular usage of the road, are expected to reimburse the county for a large portion of the related debt service. The original bonds issued were Pass-Through Toll Revenue and Limited Tax Bonds Series 2007;

these were partially advance-refunded in March 2012 by the issuance of \$40,910,000 of Pass-Through Toll Revenue and Limited Tax Refunding Bonds Series 2012.

Although funded primarily by tax revenues, interest on the debt service on one bond series is partially subsidized by the federal government through the Build America Bonds (“BABs”) Program. In September 2009 the county issued approximately \$129.2 million of BABs to finance facilities, road, and flood control capital projects. At the time of issuance, the county expected to receive semiannual subsidies equal to the nominal 35% of the interest it pays on the bonds. However, due to continuing federal budget reductions first triggered on March 1, 2013, this 35% rebate was decreased to 31.96% of the county’s August 1, 2013 BABs interest payments, while the actual rebate percentage has continued to increase slightly, equaling 33.005% in the current fiscal year.

The rebate percentage for future years’ interest payments is not yet known. In the fiscal year ended September 30, 2024, the county received \$356,989 in such BABs subsidies.

Should the county default on its outstanding bonds, any registered owner of the certificates is entitled to seek a writ of mandamus from a court of proper jurisdiction requiring specific performance from the county.

The county did not issue any new or refunding debt in the fiscal year ended September 30, 2024. The principal of general-obligation bonded debt currently outstanding is as follows:

Purpose	Interest Rates	Total	Amount of Total That Is:	
			Capital-Related	Non-Capital Related
Governmental Activities	3.0% - 5.905%	\$ 81,077,235	\$ 34,934,163	\$ 46,143,072

A compensated absences payable of \$10,780 is reflected in the Governmental Funds Balance Sheet. The payment was due and payable by September 30, 2024. Liabilities for compensated absences are generally liquidated by the non-grant funds that bear the related employees' payroll costs prior to their termination, and by the General Fund in the case of grants which do not pay for benefits or to the extent the other funds lack sufficient monies.

I. Deferred Inflows of Resources

Governmental Funds report *deferred inflows* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period.

Unavailable Revenue –

At September 30, 2024, the various components of unavailable revenues reported in the Governmental Funds were as follows:

IV. OTHER INFORMATION

A. Risk Management

The government is exposed to various risks of loss related to errors, omissions and torts; employee injuries; theft of, damage to and destruction of assets; and natural disasters. The county strives to identify, evaluate and manage risk in order to minimize liability exposure and accidental damage to, and loss of, human resources and property. Claim settlements in the last three years have not exceeded coverage.

The county accounts for various risk-management transactions in the Self-Insurance Reserve Fund. These transactions include the purchase of insurance coverage for damage or loss related to property, professional liability (i.e., public officials' bonds), crime and fidelity. The county self-insures for general and vehicular liability, and for liability resulting from certain claims for property damage. Non-litigated claims are expensed on a "pay-as-you-go" basis. Potential liability arising from the operation of a motorized vehicle is evaluated in accordance with the Texas Tort Claims Act. The legal department handles claims involving litigation. The county:

- Self-insures for vehicular damage claims.
- Purchases “all other perils” insurance for its facilities, currently for \$250,000,000 in coverage, with an annual premium of \$649,661 and a deductible of \$1,000,000.
- Purchases windstorm and hail insurance for fifty-nine properties. The insured value is \$131,180,000; the annual premium for the most recent policy year was \$1,665,672, and the deductible is 5% (\$1,000 min.) of the insured value of the building(s) damaged.
- Purchases flood insurance for fifty-three properties with a total insured value of \$31,279,000, for an annual premium of \$272,880, and with deductibles of \$5,000 per building and (if included) \$5,000 contents per building.
- Purchases employee crime and fidelity insurance with a limit of \$1,000,000, an annual premium of \$8,144 and a deductible of \$150,000.

The county self-insures for group health medical and prescription and workers’ compensation insurance claims. As of January 1, 2021, the county participates in fully-funded dental and vision plans. Activity for the various insurances is accounted for in the Employee Benefits and Workers’ Compensation Internal Service Funds, respectively. Various county departments participate in these funds’ expenses based upon estimates of amounts needed to pay prior and current year claims. The claims liabilities in the Employee Benefits and Workers’ Compensation Funds at September 30, 2024, are reported in compliance with GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. GASB Statement No. 62 requires an entity report a liability for claims of which it becomes aware after the date of the financial statements but before the date of issuance of those financial statements if it is probable that such liability had been incurred by the earlier date and the amount can be reasonably estimated.

The county’s self-insurance coverage for employee health claims is limited to \$325,000 per employee and covered dependent, to a maximum of \$17,281,316 in aggregate claims. A stop-loss policy pays claims in excess of the individual \$325,000 limit.

The county’s self-insurance coverage for workers’ compensation claims provides medical and indemnification benefits for job-related injuries, as is required by law.

The GASB Statement No. 62 estimate of liability is based on county-specific experience of claims incurred but not reported (“IBNR”). Because the county accrues any known claims that have been incurred but not yet paid in the current fiscal year, the incurred claims amount will be the same as the claim payments. Liability activity during the past two fiscal years is as follows:

	Year Ended 09/30/2024	Year Ended 09/30/2023
Unpaid Claims, Beginning of Fiscal Year	\$ 1,330,645	\$ 1,330,645
Incurred (including IBNR) Claims	16,603,644	15,615,450
Claim Payments	<u>(16,603,644)</u>	<u>(15,615,450)</u>
Unpaid Claims, End of Fiscal Year	<u>\$ 1,330,645</u>	<u>\$ 1,330,645</u>

B. Defeasance of Debt

The county on occasion issues refunding bonds to defease outstanding debt, in order to take advantage of more favorable interest rates, to improve cash flow, etc. Proceeds of the new debt issuances, sufficient

along with the investment earnings thereon to provide for all future debt-service payments for the defeased debt, are placed into irrevocable trusts. In accordance with generally accepted accounting principles, neither the assets in trust nor the liability for the defeased debt are included in the county's financial statements. At September 30, 2024, the county has no outstanding debt considered defeased, because all advance-refunded maturities have been called.

C. Arbitrage Compliance

Per Section 148 of the *Internal Revenue Code of 1986* as amended (the “Code”), the county must meet certain criteria with regard to interest earnings on its proceeds from the issuance of tax-exempt debt in order for the interest paid on those obligations to be tax-exempt income to the debt holders. Related United States Treasury regulations promulgated under that same *Code* section generally provide that the initial determination of the taxable or tax-exempt status of an obligation is made as of the date such obligation is issued, based on reasonable expectations regarding the use of the resulting proceeds.

Long-term debt that does not initially meet, and continue to meet, the minimum criteria of Section 148 of the *Code* and the related Treasury regulations, and particularly the requirement to rebate certain *arbitrage profits* to the federal government, is considered “arbitrage bonds” and forfeits its tax-exempt status. The county’s obligation to calculate and, if necessary, make rebate payments continues as long as proceeds of debt remain unexpended.

Arbitrage profits result when the interest rate earned on invested debt proceeds is materially greater than that paid to holders of that debt, as calculated beginning on the third anniversary of the debt’s issuance. Accordingly, any proceeds unexpended more than three years after debt issuance are subject to yield restriction. A yield restriction may be satisfied by making yield-reduction payments pursuant to Treasury Regulation § 1.148-5(c).

The county presently:

- has unexpended proceeds from certain debt issues, the yield of which is restricted;
- is in compliance with such restrictions; and
- does not anticipate associated non-compliance issues.

The county exercises reasonable diligence to apply any remaining unexpended debt proceeds to qualifying projects. The county contracts with a compliance specialist to perform annual arbitrage calculations required under Section 148(f) of the *Code*. The most recent calculations were made through December 31, 2023, in which it was opined the county has no filing requirements or arbitrage rebate liability as of that date on any unexpended debt proceeds.

D. Contingent Liabilities

Amounts received through grants are subject to audit and adjustment by grantor agencies. Any disallowed claims may constitute a liability of the applicable funds. The expenditures disallowed by the grantor cannot be determined currently, although the county expects any amounts to be immaterial.

The county becomes party to litigation and claims in the ordinary course of business. Although the outcome of these matters, and of other such actions in which the county is presently or may become involved, are not determinable, it is the opinion of county counsel they will not materially adversely affect the financial condition of the county.

E. Deferred Compensation Plan

In lieu of participation in Social Security, the county provides eligible employees a package of disability-insurance, survivorship and deferred-compensation benefits (“the Alternate Plan”). The county pays the entire cost of the disability-insurance and survivorship benefits. It contributes to the deferred-compensation benefit, and employees fund the remainder per provisions of Section 457 of the *Internal Revenue Code of 1986* as amended, through mandatory tax-deferred payroll deductions.

In accordance with federal tax law, the Alternate Plan trust arrangement ensures the protection of employee deferred-compensation accounts until distribution. Both the county and employee contributions are forwarded monthly to selected third-party administrators who invest and disburse funds in accordance with Alternate Plan provisions.

Employees may not make optional deferred-compensation contributions to the Alternate Plan in addition to the mandatory payroll deductions, but they may do so into one or more other investment vehicles offered by the county.

Restricted deferred-compensation assets in the custody of third-party administrators at September 30, 2024, consisted of the following:

	<u>2024</u>	<u>2023</u>
American United Life Accounts	\$ 129,810,348	\$ 122,856,319
Lincoln National Account	410,793	410,792

Total	<u>\$ 137,751,711</u>	<u>\$ 129,648,402</u>

F. Employee Retirement System and Pension Plan

Plan Description

The county provides retirement, disability and death benefits for full-time employees through an agent, multiple-employer, defined-benefit plan. This plan is administered by the state-wide, public-employee Texas County and District Retirement System (“TCDRS”). TCDRS is governed by the TCDRS Board of Trustees and administers the pension plans of approximately 870 counties and districts. It issues in the aggregate, on a calendar-year basis, an annual comprehensive financial report which is available upon request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, TX 78768-2034.

The TCDRS plan provisions are adopted by the participating employers’ governing bodies, subject to the state’s *TCDRS Act* (the “Act”).

Employees qualify to retire:

- upon reaching sixty years of age and possessing a minimum of eight years of service credit; or
- at any age after accumulating thirty years of service credit; or
- after the sum of their years of age and their years of service credit totals seventy-five or more.

Plan Benefits

Employees are vested after eight years of service but must leave their accumulated contributions in the plan in order to receive any future employer-contributed benefits. Members who withdraw their personal contributions in a lump sum are not entitled to any employer-contributed amounts.

Benefit amounts are based upon the sum of the employee's deposits to the plan, the interest earned thereon, and employer-financed monetary credits. The amount of these monetary credits is set by the participating employers' governing bodies within the actuarial constraints imposed by the *Act* so that the eventual benefits can be expected to be adequately financed by the employer's commitment to contribute.

Upon disability, retirement or death, benefits are calculated by converting the sum of the employee's deposits to the plan, the interest earned thereon, and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the *Act*.

Funding Policy

The county has elected to follow the variable-rate plan provisions of the *Act*. The employer contribution rate is actuarially determined each year as a percentage of employee earnings, subject to plan changes adopted by the employer's governing body within the constraints imposed by the *Act*. The employee contribution rate is a percentage of employee earnings subject to adjustment by the governing body within the constraints of the *Act*. Funding is provided by monthly contributions from the employer with biweekly payroll deductions from the employee and the interest earned thereon.

For the fiscal year ended September 30, 2024, the nominal employer contribution rate was 7.5%. However, due to forfeitures from separating, non-vested employees, the actual percentage rate paid by the county was 11.91%. The employee contribution rate for the period was 7%. If a plan suffers an adverse experience, provisions of the *Act* allow the employer to contribute for twenty-five years at a fixed, increased rate determined actuarially by TCDRS, or to reduce the benefits earned in the future.

Actuarial Assumptions

Updated mortality assumptions were adopted in the actuarial valuation of December 31, 2023. All other actuarial assumptions that determined the total pension liability as of December 31, 2023, were based on the results of an actuarial experience study for the period January 1, 2017, through December 31, 2020, except where Governmental Accounting Standards Board Statement No. 68 required otherwise.

The following are the key assumptions and methods applied to this measurement period:

Cost-of-Living Adjustments	Cost-of-living Adjustments for Galveston County are not considered to be substantively automatic under GASB 68. Therefore, no assumption for future cost-of-living adjustments is included in either the GASB calculations or the funding valuation.
Turnover	New employees are assumed to replace any terminated members and have similar entry ages.

⁽¹⁾ Individual entry age normal cost method, as required by GASB Statement No. 68, used for GASB calculations.

Note that the replacement life entry age cost method is used for funding actual valuation, which differs from the GASB-required approach in that it assumes that the current benefit provisions always applied.

Discount Rate

The discount rate for the total pension liability was 7.6%, unchanged from the previous year. The cash flows used to project this discount rate assumed plan members and the employer contributed at the statutorily required rates. Based on that assumption, the pension plan's fiduciary net position was projected to be sufficient to make all future benefit payments. The long-term expected rate of return on pension-plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The assumed long-term investment return of 7.5% is net after investment and administrative expenses. It is assumed returns will equal the nominal rate of 7.5% for calculating the actuarial accrued liability and the normal cost contribution rate for the retirement plan of the county.

Best estimates of geometric real rates of return for each major asset class included in the TCDRS target asset allocation as of December 31, 2023, are summarized below:

G. Other Post-Employment Benefits (“OPEB”)

The county contributes to two other post-employment benefit (“OPEB”) plans: (1) the Retiree Life Reserve Plan (“RLR”), a single-employer plan administered by Standard Insurance Company, and (2) the Retiree Health Plan (“RHP”), a single-employer, defined-benefit OPEB plan for which no advance funding is provided.

As of the fiscal year ended September 30, 2024, the two plans had the following balances reported in the government-wide financial statements:

	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability / (Asset)	Net Deferred Outflow of Resources	Net Deferred Inflow of Resources	OPEB Expense / (Income)
RLR	\$ 7,739,266	\$ 16,126,497	\$ (8,387,231)	\$ 980,497	\$ 3,484,095	\$ 502,280

Retiree Life Reserve

Plan Description

The county voluntarily participates in a single-employer OPEB plan administered by Standard Insurance Company. The plan is a life insurance plan known as the Retiree Life Reserve. This benefit is a part of The Alternate Plan for Galveston County employees which includes a package of benefits in lieu of Social Security. The Alternate Plan is reviewed annually by Commissioners Court with the approved benefits and contribution rates becoming effective January 1st of each calendar year. Payments from this fund are life insurance benefits and are paid in a lump sum payment to the designated beneficiaries upon the receipt of an approved application for payment. The RLR includes coverage for retired members who have met the plan’s requirements. Because assets are set aside in a qualifying trust, the plan qualifies as an OPEB Trust in accordance with paragraph 4 of GASB Statement No. 74.

Although no comprehensive, stand-alone OPEB plan financial report is produced and available for the public, regular reports which present relevant data are issued by the third-party administrator for the county’s retiree life reserve retiree benefits.

Plan Benefits

The RLR provides a paid-up life insurance policy to county employees who retire under one of the following provisions:

- At any age, with thirty or more years of service;
- At age sixty or greater, with eight or more years of service or
- When the sum of one's age and years of service equals 75 or greater

For those employees working 2,080 hours per year, the benefit is \$50,000 and for those employees working at least 1,040, but less than 2,080 hours per year the benefit is \$25,000.

The number of employees currently covered by the benefit terms is as follows:

Inactive Plan Members or Beneficiaries Currently Receiving Benefits	-
Inactive Plan Members Entitled to But Not Yet Receiving Benefits	-
Active Plan Members	<u>1,173</u>
Total Plan Members	<u>1,173</u>

The employees contribute to the RLR at a rate greater than determined by an annual actuarial valuation. The actual contribution rate was 1.15% for fiscal year 2024 and 1.50% for fiscal year 2023. The actuarially determined contribution rate was 0.925% for both fiscal years, 2024 and 2023, all of which was for retirees only portion for each year, as a percentage of annual covered payroll. The rate is equal to the normal cost as a function of covered payroll, rounded up to the next 0.25%. The funding policy for the RLR program is to prefund retiree life insurance during employees' entire careers. The county's contributions to the RLR for the years ended September 30, 2024 and 2023 were \$722,333 and \$718,626 respectively, representing contributions for both active and retiree coverage, which equaled the required contributions each year.

Net OPEB Liability/(Asset)

The county's net OPEB asset of (\$8,387,231) was measured as of December 31, 2023 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs

The net OPEB asset in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions:

Actuarial Cost Method	Individual Entry-Age Normal
Discount Rate	3.00%, as of December 31, 2023
Inflation	2.50%
Salary Increases	0.40% to 5.25%, not including wage inflation of 3.00%

Salary increases were based on a service-related table. For healthy retirees, the Pub-2010 General Retirees Tables for males and females are used with male rates multiplied by 135% and female rates multiplied by 120%. Those rates are projected on a fully generational basis based on 100% of the ultimate rates of mortality improvement scale MP-2021. The actuarial assumptions used in the December 31, 2023 valuation were based on the results of an actuarial experience study for the four-year period ending December 31, 2020, as conducted for TCDRS.

Discount Rate

A single discount rate of 3.00% was used to measure the total OPEB liability as of December 31, 2023. This single discount rate was based on the expected rate of return on plan investments of 3.00% and a municipal bond rate of 3.77% (based on Fidelity Index's "20-Year Municipal GO AA Index" as of December 31, 2023). Based on the stated assumptions and the employer's funding policy, the plan's Fiduciary Net Position and the future contributions are sufficient to finance the future benefit payments. The long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Investments

Assets for the RLR plan are 100% invested in Standard Insurance Company's Guaranteed Long-Term Fund, an interest-bearing account with the goal of principal conservation. Assets for the RLR plan are invested as part of Standard Insurance Company's general assets. All participants in the long-term fund earn the same interest rate, which is a weighted average of the interest rates of all plan assets. Interest is accrued daily and compounded quarterly. The long-term expected future rate of return, including inflation, is 3.00% which is comprised of a real rate of return equal to 0.50% plus inflation of 2.50%.

OPEB Expense and Deferred Outflows of Resources Related to OPEB

For the year ended September 30, 2024, the county recognized OPEB expense of \$502,280. There were no changes of benefit terms that affected measurement of the net OPEB during the measurement period. The county reported deferred outflows and inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience, liability	\$ 4,645	\$ 1,526,865

Other Post-Employment Benefits ("OPEB") - Retiree Health Plan

Plan Description

The county offers retired employees health insurance benefits through a single-employer, defined-benefit OPEB plan, known as the Retiree Health Plan (RHP). The plan offers life, major medical, prescription drug, dental and vision insurance. The Commissioners Court has the authority to establish and amend the benefit terms and financing arrangements as stated in Texas Local Government Code §157.101. The county reviews the plan annually with the approved benefits and contribution rates becoming effective January 1st of each calendar year. No assets are accumulated in a trust that meets the criteria in paragraph 4 of the GASB Statement No. 75.

Plan activity is recorded in the Employee Benefits Internal Service Fund. Plan-member and employer contributions are recorded in the period in which the contributions are due, and benefits and refunds are recognized when due and payable. No comprehensive, stand-alone OPEB plan financial report is produced and available for the public, although the regular reports issued by the third-party administrator for the county's health plan present such data about retiree benefits discretely from that presented for active employees of the county.

Plan Benefits and Contributions

Employees may retire from the county when they meet any of the following eligibility criteria of the Texas County and District Retirement System (TCDRS):

- At any age, with thirty or more years of service;
- At age sixty or greater, with eight or more years of service or
- When the sum of one's age and years of service equals 75 or greater

Retirees not Medicare-eligible may participate in one of the three options for major medical coverage available to active employees: the Base Plan, the Buy-Up Plan or the High Deductible Health Plan. The premiums, whether for coverage for the retiree only or for the retiree and dependent(s), are the same as those for active employees. The county subsidizes part of the cost of this benefit.

When retirees become Medicare-eligible, the county converts their major medical coverage to Medicare-supplement coverage, with the county's insurance becoming secondary. The premium paid by the retiree is based on whether coverage is for the retiree only or retiree and dependent(s). The county subsidizes part of the costs of this benefit. Retirees are responsible for their portions of the premiums for Medicare Parts A and B. The premium for major medical coverage for the surviving spouse of a retiree is the same as the "retiree only" premium. Medicare-eligible retirees participate in a fully-funded, rather than self-funded, plan in which the retiree and county contribute a set amount monthly. Actual claims are covered by the third-party insurance provider.

The number of employees currently covered by the benefit terms is as follows:

Inactive Plan Members or Beneficiaries Currently Receiving Benefits	508
Inactive Plan Members Entitled to But Not Yet Receiving Benefits	-
Active Plan Members	<u>1,173</u>
Total Plan Members	<u><u>1,681</u></u>

The county's contributions to the RHP for the years ended September 30, 2024 and 2023 were \$3,063,448 and \$3,475,182, respectively.

Actuarial Methods and Assumptions

Actuarial valuations involve estimates based upon reported amounts and assumptions about the probability of events for many years ahead. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made for the future. The required schedule of funding progress immediately following the notes to the financial statements presents multi-year trend information showing how the actuarial value of plan assets is increasing, decreasing or remaining constant over time relative to the actuarial accrued liability for benefits. Calculations are based on the types of benefits provided under the terms of the substantive plan in effect at each valuation and on the pattern of sharing of costs between the employer and plan members to that point.

Actuarial calculations reflect a long-term perspective. Consistent with that perspective, the actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in the actuarial value of plan assets and accrued liabilities.

The valuation required the county and actuary to make certain assumptions regarding items such as rates of employee turnover, retirement and mortality, as well as economic assumptions regarding trends of health-care costs and interest rates.

Significant methods and assumptions used for the RHP were as follows:

Valuation Date	December 31, 2023
Actuarial Cost Method	Individual Entry-Age Normal
Discount Rate	3.77%, as of December 31, 2023
Inflation	2.50%
Salary Increases	0.40% to 5.25%, not including wage inflation of 3.00%
Demographic Assumptions	Based on the experience study covering the four-year period ending December 31, 2020 as conducted for TCDRS
Mortality	For healthy retirees, the Pub-2010 General Retirees Tables for males and females are used with male rates multiplied by 135% and female rates multiplied by 120%. Those rates are projected on a fully generational basis based on 100% of the ultimate rates of mortality improvement scale MP-2021.
Health Care Trend Rates	Pre-65: Initial rate of 7.20% declining to an ultimate rate of 4.25% after 15 years; Post-65: Initial rate of 5.10% declining to an ultimate rate of 4.25% after 9 years.
Participation Rates	85% for members who retire before age 65; 90% for members who retire after age 65
Discount Rate Note	The discount rate changed from 4.05% as of December 31, 2022 to 3.77% as of December 31, 2023. Additionally, the health care trend rates were updated to reflect the plan's anticipated experience.

Projections of health benefits are based on the plan as understood by the county and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the county and its employees to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

Discount Rate

For plans that do not have formal assets, the discount rate should equal the tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date. A single discount rate of 3.77% was used to measure the total OPEB liability. The source of the municipal bond rate was fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of December 31, 2023. The discount rate was 4.05% as of the prior measurement date.

Changes in the Total OPEB Liability

The county's total OPEB liability of \$96,391,772 was measured and determined by an actuarial valuation as of December 31, 2023. The schedule of changes in total OPEB liability for the fiscal year ended September 30, 2024 is reported below.

	Total OPEB Liability
Beginning balance, 12/31/2022	\$ 97,875,874
Changes for the year:

Net changes	(1,484,102)
Ending balance, 12/31/2023	\$ 96,391,772

Changes in assumptions and other inputs reflect a change in the discount rate from 4.05% to 3.77% as of December 31, 2023. In prior years, the OPEB liability has been typically liquidated by the General Fund.

Discount Rate Sensitivity Analysis

The following schedule presents the total OPEB liability, calculated using a single discount rate of 3.77%, as well as the impact on the total OPEB liability if the discount rate was 1% less than, and 1% greater than, the discount rate used:

OPEB Expense and Deferred Outflows of Resources Related to OPEB

For the year ended September 30, 2024, the county recognized OPEB expense of \$4,916,020. At September 30, 2024, the county reported deferred outflows and inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 566,421	\$ 22,177,963
Changes in assumptions	22,678,292	30,357,686

Deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date, in the amount of \$1,699,461, are due to benefit payments the county paid with its own assets and will be recognized as a reduction of the total OPEB liability for the year ending September 30, 2025. Other amounts of the reported as deferred outflows/(inflows) of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ending September 30</u>	<u>Net Deferred Outflows/(Inflows)</u>

H. Claims and Judgments

The county is defending eight civil rights cases. The first one involves an alleged violation of the 4th and 14th Amendments. Claims include denial of due process, unlawful search, seizure and detention, denied medical care and excessive force. The potential for damages and liability findings are extremely remote. A recent jury trial resulted in a complete dismissal of the county, though that result may still be subject to appeal.

The second civil rights case involves an alleged wrongful death claim and violation of the 4th, 8th and 14th Amendments. An inmate collapsed suddenly while in custody due to medical issues. Medical response was timely but the inmate died. The Court granted the county's motion to dismiss in November of 2022. The 5th Circuit Court of Appeals affirmed the dismissal February 28, 2024. State law claims are expected to be remanded to the 10th District Court, where the county anticipates filing a second motion to dismiss the state law claims based on the final results of the federal claims.

The third civil case the county is facing is a voting rights case arising from the redistricting of the Commissioners' precincts based on the 2020 census, alleging violations of the 14th Amendment and

Section 2 of the Voting Rights Act. There are three sets of Plaintiffs consolidated into a single case number, including the Department of Justice, NAACP and LULAC, among others. The county lost at trial, but attorney's fees were not awarded, pending appeal. The 5th Circuit Court of Appeals reversed the trial results, but remanded for the trial court to determine whether there was intentional discrimination, where the case remains pending. If the county is found to have discriminated intentionally, the county may be exposed to an award of attorney's fees as high as \$5-\$10 million, in which another appeal would be filed on the grounds that there can be no intentional discrimination without a discriminatory effect.

The fourth civil case is a wrongful death claim arising from excessive force in the jail. To date, there has not been a specific dollar amount claimed, nor is there a specific legal basis articulated for liability beyond generalized allegations of "negligence" which is not actionable in this situation. Early reports from the Sheriff's Office do not indicate grounds for county liability at this time.

The fifth civil case involves alleged excessive force and failure to provide medical care in the jail, resulting in bodily injury. No lawsuit has been filed and early indications are that the claimant's injuries are the result of self-harm. The county is insured for this claim through TAC and faces only the deductible of \$50,000.

The sixth civil case is a §1983 case in which the plaintiff alleges violations of the 4th, 8th and 14th Amendments for claims arising from an alleged motor vehicle stop. No demand has been made, and there were no notable physical injuries to the claimant, but damages and attorney's fees combined could potentially exceed \$50,000.

The seventh civil case is a §1983 case in which the plaintiff alleges violations of the 4th and 14th Amendments for claims arising from an alleged motor vehicle stop and alleged wrongful arrest. No demand has been made, and the claimant has no notable injuries or damages, but damages and attorney's fees combined could potentially exceed \$50,000.

The eighth civil case is a pro se §1983 case which has not been properly served, but does not contain intelligible or legally viable causes of action. Allegations are complaints about transportation by a deputy. The case does not appear likely to result in liability against the county and actions to seek dismissal on motions, if the case is properly served, will occur.

For all claims insured through TAC, any damages in excess of \$3,000,000 annually in the aggregate and per claim would be absorbed by the county.

In addition to the suits above, the county is also defending an employment case and one material motor vehicle claim.

In the employment case, the plaintiff alleges claims of discrimination on the basis of race based on work duties assigned. This is the second case filed by this plaintiff after dismissal was obtained by the first. The county intends to seek dismissal of this case as well, based on the same grounds as the first.

The material motor vehicle claim is related to a motor vehicle accident with a Mosquito Control employee, resulting in a collision. No lawsuit has been filed, but there are medical and property damage claims with a potential exposure over \$50,000. The county's exposure cannot exceed \$100,000 for all injuries or property damage.

Required Supplementary Information

The Required Supplementary Information subsection includes the budgetary comparison schedules for the County of Galveston's General Fund and major special revenue funds. It also includes trend data, including the schedule of funding progress and the schedule of employer contributions related to the pension trust funds of the County of Galveston. The notes to the required supplementary information are also included in this subsection.

Notes to the Required Supplementary Information
General Employees' Retirement Plan for the Employees of Galveston County, Texas
For the Fiscal Year Ended September 30, 2024

Valuation Date: Actuarially determined contribution rates are calculated each December 31, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method	Entry Age (level percentage of pay)
Amortization Method	Level percentage of payroll, closed
Remaining Amortization Period	16.1 years (based on contribution rate calculated in 12/31/2023 valuation)
Asset Valuation Method	5-year smoothed market
Inflation	2.50%
Salary Increases	Varies by age and service. 4.7% average over career including inflation.
Investment Rate of Return	7.50%, net of administrative and investment expenses, including inflation
Retirement Age	Members who are eligible for service retirement are assumed to commence receiving benefit payments based on age. The average age at service retirement for recent retirees is 61.
Mortality	135% of the PUB-2010 General Retirees Table for males and 120% of the PUB-2010 General Retirees Table for females, both projected with 100% of the MP-2021 Ultimate scale after 2010.
Changes in Assumptions and Methods Reflected in the Schedule of Employer Contributions*	2015: New inflation, mortality and other assumptions were reflected. 2017: New mortality assumptions were reflected. 2019: New inflation, mortality and other assumptions were reflected. 2022: New investment return and inflation assumptions were reflected.
Changes in Plan Provisions Reflected in the Schedule*	2015: No changes in plan provisions were reflected in the Schedule. 2016: No changes in plan provisions were reflected in the Schedule. 2017: New Annuity Purchase Rates were reflected for benefits earned after 2017. 2018: No changes in plan provisions were reflected in the Schedule. 2019: No changes in plan provisions were reflected in the Schedule. 2020: No changes in plan provisions were reflected in the Schedule. 2021: Employer contributions reflect that a 2% flat COLA was adopted. 2022: No changes in plan provisions were reflected in the Schedule. 2023: No changes in plan provisions were reflected in the Schedule.

**Only changes that affect the benefit amount and are effective 2015 and later are shown in the notes to schedule.*

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for specific revenue sources that are restricted, committed or assigned to expenditures for particular purposes.

COUNTY RECORDS MANAGEMENT AND PRESERVATION - On May 30, 1993, Chapter 203, §203.003-(6.) of the *Local Government Code* was amended by the Texas Legislature establishing a Records Management and Preservation Fund. Fees for this fund are authorized under §51.317, 118.052, 118.0546, and 118.0645 of the *Local Government Code* and Article 102.005(d), of the *Code of Criminal Procedure*. This fund is under the direction of Commissioners Court and the fees collected may only be used for the purpose of preserving county records and for county records' automation projects.

COUNTY CLERK RECORDS MANAGEMENT AND PRESERVATION - The County Clerk Records Management and Preservation Fund was established under Chapter 203, §203.003(5) of the *Local Government Code*. Fees collected by the County Clerk are deposited with the County Treasury into a fund known as the County Clerk Records Management and Preservation Fund. These fees are to be used for the specific purpose of County Clerk records management and automation projects.

ELECTION SERVICES CONTRACT - The Election Services Contract Fund was established pursuant to *Texas Election Code* Chapter 123 Subchapter B. The County of Galveston and the lessee enter into a lease agreement to use electronic voting equipment and other related supplies and administrative fees incurred in the election services under §31.100(b), *Texas Election Code*. Fees collected by the County Clerk for the county equipment are deposited with the County Treasury into the Election Services Contract Fund.

DISTRICT CLERK CHILD SUPPORT IV-D - The District Clerk Child Support IV-D Fund was created under the authority of *Texas Family Code* Chapter 231, §231.002. The Office of the Attorney General and Galveston County entered into an agreement to reimburse the County for processing child support payments sent to the County as part of the Cooperative Agreement for Title IV, Part-D of the Federal Social Security Act (IV-D) child support enforcement program. The purpose of this program is to provide the Galveston County child support registry with a mechanism for supporting and improving the IV-D child support case services provided by the county.

DISTRICT CLERK RECORDS MANAGEMENT - The District Clerk Records Management Fund was established under the authority of §51.317 of the *Government Code* as amended by House Bill 1905 passed by the 78th Legislature of the State of Texas. The fees collected by the District Clerk are deposited with the County Treasury into the District Clerk Records Management Fund. These fees are to be used for the specific purpose of District Clerk records management and automation projects.

ELECTION CODE CHAPTER 19 - Pursuant to *Election Code* §19.002, this revenue is paid by the secretary of state to the voter registrar and must be used to defray the cost of voter registration, and may be used to pay for any item or service designed to increase the number of registered voters in the state, maintain and report an accurate list of the number of registered voters or increase the efficiency of the voter registration office, including hiring temporary voter registration personnel. These monies may not be used to pay for the normal day to day operation of the office. They must be used within a two-year period or else lapse to the state for distribution to counties with limited technological resources to upgrade voter registration technology.

TAX ASSESSOR-COLLECTOR SPECIAL INVENTORY TAX ESCROW - Chapter 23.12 of the *Property Tax Code* states certain taxpayers of inventory held for sale in a trade or business must prepay their property taxes. The Tax Assessor-Collector Special Inventory Tax Escrow Fund accounts for any interest earned and any fines or penalties assessed for non-payment on these property taxes.

COUNTY AND DISTRICT COURT TECHNOLOGY – Under the *Code of Criminal Procedure* Chapter 102, §102.0169, a defendant convicted in a county court, statutory county court or district court shall pay a county and district court technology fee of \$4.00 as a cost of court. These fees are to be deposited into a fund known as the County and District Court Technology Fund which shall be under the direction of the Commissioners Court. The fund designated by this article must be used to finance the cost of continuing education and training for court judges or clerks regarding technological enhancements for their respective courts or the purchase and maintenance of technological enhancements for a county court, statutory county court or district court.

DONATIONS TO GALVESTON COUNTY - The Donations to Galveston County Fund was approved by the Galveston County Commissioners Court on February 2, 1995. The fund was created to account for all donations that are made to Galveston County.

DISTRICT ATTORNEY FORFEITURES AFTER 10/89 - Forfeitures after October 1989 collected by the District Attorney under *Code of Criminal Procedure* Chapter 59.06 regulations are accounted for in this fund. Forfeitures are used to defray expenses of the District Attorney's office.

DISTRICT ATTORNEY CHECK COLLECTION FEES - Fees collected in connection with processing checks issued or passed in violation of the *Code of Criminal Procedure* Chapter 102.007 are deposited in this fund and are used to defray expenses of the District Attorney's office. Forfeitures are used for law enforcement purposes.

COURTHOUSE SECURITY - The Courthouse Security Fund was created by Senate Bill 243 and became effective September 9, 1993, to finance security services for buildings housing a county court at law or a district court. The clerks of the respective courts collect fees and court costs as stated in Article 102.017 of the *Code of Criminal Procedure* and remit them to the County Treasury to be deposited into a fund known as the Courthouse Security Fund.

JUSTICE COURT BUILDING SECURITY - The Justice Court Building Security Fund was created under Chapter 102.017 of the *Code of Criminal Procedure* to finance security personnel, services and items related to buildings that house the operations of the justice courts. The clerks of the respective courts are to collect a \$4.00 security fee as a cost of court and remit them to the County Treasury. The County Treasury is to deposit one-fourth of the court cost into a fund known as the Justice Court Building Security Fund, with the remaining three-fourths being remitted into the Courthouse Security Fund. This fund is under the direction of the Commissioners Court.

APPELLATE JUDICIAL - The Appellate Judicial Fund was established as required under *Government Code* 22.2021 for use by any Commissioners Court in the First or Fourteenth Court of Appeals District. A court cost of not more than \$5.00 is collected for each civil suit filed in county court, county court at law, probate court or district court in the county and remitted to the County Treasury to deposit into this fund. The fees collected and deposited into the Appellate Judicial Fund are only to be used to defray costs and expenses incurred for the operation of the courts of appeals. The Commissioners Court shall administer this fund to maintain the system in cooperation with the chief justice of the courts of appeals.

CCP CHAPTER 18 FORFEITURES – Pursuant to the *Code of Criminal Procedure* §18.18, forfeitures collected as part of an investigation into illegal gambling. These funds are used to defray the expenditures of the Sheriff's office.

COURT FACILITY FEE – The Court Facility Fee Fund was established pursuant to Senate Bill 41 changes to *Local Government Code* §135.101, §135.102 and §135.152 regarding local consolidated civil filing fees, effective January 1, 2022. Money allocated to this fund may be used by a county only to fund the construction, renovation or improvement of facilities that house the courts or to pay the principal of, interest on and costs of issuance of bonds, including refunding bonds, issued for the construction, renovation or improvement to the facilities.

LAW LIBRARY - Under *Local Government Code* Chapter 323, §323.021-323.025, the Commissioners Court of a county may establish and maintain a law library at the county seat. A sum set by Commissioners Court, not to exceed \$35, shall be collected on each civil case filed in the county or District Court. The clerks of the respective court shall collect these fees and pay them to the County Treasury to be deposited into a separate fund known as the Law Library Fund. The Law Library Fund is under the direction of the Commissioners Court.

ALTERNATIVE DISPUTE RESOLUTION - The Alternative Dispute Resolution Fund, established under the authority of Chapter 152 of the *Civil Practice and Remedies*, was approved by the Galveston County Commissioners Court January 27, 1992. The program was created to address the needs of both the civil and family courts by providing financially-aided mediation to those families who cannot afford to pay. Funding for the program comes from an additional fee of \$10.00 collected on each civil case filed.

TRUANCY PREVENTION AND DIVERSION – Under *Local Government Code* Chapter 134, §134.103 and §134.156, a portion of court costs collected for persons convicted of nonjailable misdemeanor offenses shall be allocated to this fund for the purpose of financing expenses relating to the position of a juvenile justice manager and programs directly related to the duties of the juvenile justice manager.

JUSTICE COURT TECHNOLOGY - Subchapter A, Chapter 102, of the *Code of Criminal Procedure* was amended September 1, 2001, by adding Article 102.0173. This article allows Commissioners Court of a county to create a Justice Court Technology Fund and charge an additional court cost technology fee not to exceed \$4.00. The fund designated by this article may be used to finance the purchase of technological enhancements for a justice court. The Justice Court Technology Fund is under the direction of the Commissioners Court.

PROBATE COURT CONTRIBUTIONS - Effective September 1, 2001, *Government Code* Chapter 25, §25.00213 establishes a Contributions Fund under the direction of the Probate Court Judge in a county that collects additional fees under Chapter 51, §51.704 of the *Government Code*. Deposited into this fund is a state annual compensation of \$40,000 plus any excess state mandated fees. These state fees are pro-rated at year-end and returned to the counties. Expenditures for this fund are to be used for court-related purposes.

SUPPLEMENTAL COURT-INITIATED GUARDIANSHIP FEE - Pursuant to *Local Government Code* §118.067, this \$20.00 fee is collected for court-initiated guardianship proceedings and is paid by the persons filing both original and adverse probate actions. It is used to supplement, but not supplant, other monies used to pay guardian and attorney ad litem costs, and to pay for guardianship programs for indigent, incapacitated persons without family members suitable and willing to serve as guardians.

PRETRIAL INTERVENTION PROGRAM - This fund was created in accordance with *Texas Code of Criminal Procedures* Article 102.0121 to account for a fee to reimburse the county for expenses related to a defendant's participation in a pretrial intervention program offered by the county. The funds must be used for expenditures related to pretrial intervention programs.

COURT REPORTER SERVICES - The Court Reporter Services Fund accounts for the fees collected by the County and District Clerks pursuant to *Government Code* §51.601 to be used to defray the cost of court-reporting services.

SHERIFF'S COMMISSARY - This fund, created under *Local Government Code* Chapter 351, §351.0415, accounts for commissary operations. The commissary is controlled by the County Sheriff and is a means for inmates to purchase personal items. The proceeds from operations are used to address the social needs of county inmates.

SHERIFF FORFEITURES POST-10/89 - Funds collected in connection with drug forfeitures for the Sheriff's office after *Code of Criminal Procedure* Chapter 59.06 was passed in October 1989. Forfeitures are used to defray expenses of the Sheriff's office.

SO SPECIAL INVESTIGATIONS – The SO Special Investigations Fund is used to report special investigation activity in which there may be gains that will be set aside for the use of expenses of future investigations.

LAW ENFORCEMENT CONTINUED EDUCATION - The Law Enforcement Continued Education Fund consists of annual allocation of payments by the Comptroller of Public Accounts from the law enforcement agencies as directed by Senate Bill 1135, passed by the 74th Texas Legislature. These funds are for expenses related to the continued education of persons licensed under *Occupation Code*, Title 10, and Chapter 1701.157.

CONSTABLE PRECINCT 3 FORFEITURES – Pursuant to the *Code of Criminal Procedure* §59.06, forfeitures collected by the Precinct 3 Constable are accounted for in this fund. These funds are used to defray expenses of the constable.

EMERGENCY MANAGEMENT - The Emergency Management Fund was created in May 2003 by Commissioners Court in order to establish better control and accountability of the various Office of Emergency Management projects. This fund is funded by, and under the jurisdiction and control of, the Commissioners Court.

FARM-TO-MARKET LATERAL ROAD - Chapter 256, §256.005 of the *Texas Transportation Code*, states these funds are to be used only for construction and maintenance of farm-to-market and lateral roads within the county. This fund is under the jurisdiction and control of the Commissioners Court.

GALVESTON COUNTY ROAD DISTRICT #1 - The Galveston County Road District #1 was created under Article 3, §52 of the *Texas Constitution* to construct, maintain and operate macadamized, graveled or paved roads and turnpikes. The Road District #1 is a corporate body and a taxing entity and is authorized from time to time to issue bonds. Commissioners Court acts as the governing body.

FLOOD CONTROL - Chapter 256, §256.006 of the *Texas Transportation Code*, states these funds are to be used only for flood control purposes in the county. This fund is under the jurisdiction and control of the Commissioners Court.

MOSQUITO CONTROL DISTRICT - On November 7, 1953, in accordance with Chapter 344, §344.001 of the *Texas Health and Safety Code*, an election was held to create a Mosquito Control District and authorized the levy and collection of taxes of \$.15 per \$100 valuation for the purpose of eradicating mosquitoes in Galveston County. This fund is under the jurisdiction and control of the Commissioners Court.

GALVESTON COUNTY BEACH AND PARKS - Chapter 62 of the *Texas Natural Resource Code* authorizes the Commissioners Court to create a board to operate the Beach Parks program. This board administers through a staff an extensive County Beach Parks System for the citizens of Galveston County.

MUSEUM AND HISTORICAL COMMUNITY - The county, under the authority of *Local Government Code* §318, has set up a fund to provide maintenance to the Galveston County Museum collection. Funding is provided through periodic donations, the Galveston Historical Foundation and the Galveston County Community Service operational budget.

MAJOR GOVERNMENTAL FUNDS

DEBT SERVICE FUND – This fund is used to account for the accumulation of resources that are for the payment of principal and interest on Galveston County’s general long-term debt.

NONMAJOR
CAPITAL PROJECT FUNDS

UNLIMITED TAX ROAD BONDS SERIES 2017 – accounts for the cost of planned current and future major projects for the acquisition and construction of infrastructure, and related improvements, as well as traffic projects.

LIMITED TAX FLOOD CONTROL BONDS SERIES 2017 – This fund was created to account for proceeds of \$6,000,000 from a December 28, 2017 bond issuance to be used to establish, construct, extend, maintain or improve a seawall, breakwater, levee, floodway and/or drainway within the county.

LIMITED TAX COUNTY BUILDING BONDS SERIES 2017A – This fund was created to account for proceeds of \$9,000,000 from a December 28, 2017 bond issuance to be used to purchase, construct, reconstruct, improve and/or equip county buildings or rooms for the housing of offices, courts, records or equipment, or for the conducting of other public business.

COUNTY CAPITAL PROJECTS FUND - This fund was created in the fiscal year ended September 30, 2008, to account for various project-length county capital projects funded by resources other than bond proceeds.

CAPITAL REPLENISHMENT FUND - This fund was created in the fiscal year ended September 30, 2011. The Capital Replenishment Fund is funded by resources other than bond proceeds to accumulate reserves for major repairs of county owned facilities.

LIMITED TAX COUNTY BUILDING BONDS SERIES 2009B - This fund was created in fiscal year 2009 to account for the financial resources used to purchase, construct, reconstruct, improve and/or equip buildings or rooms for the housing of offices, courts, records or equipment and to pay for professional services rendered in connection with the projects.

COMBINATION TAX AND REVENUE CERTIFICATES OF OBLIGATION SERIES 2003C - Issued September 4, 2003 in the amount of \$40,890,000; proceeds used to purchase materials, supplies, equipment, machinery, buildings, land and rights-of-way for authorized needs and purposes and the construction of public works and to pay the costs associated with the issuance of the Certificates.

LIMITED TAX COUNTY BUILDING BONDS SERIES 2019 - This fund was created in fiscal year 2019 to account for proceeds of \$9,000,000 from a March 19, 2019 bond issuance to be used to purchase, construct, reconstruct, improve and/or equip buildings or rooms for the housing of offices, courts, records or equipment, or for the conducting of other public business.

COUNTY BUILDING PROJECTS – This fund was created to account for county building projects funded by resources other than bonds. This includes American Rescue Plan funding for revenue loss due to the COVID-19 pandemic.

LIMITED TAX CRIMINAL JUSTICE CENTER BONDS SERIES 2003A - Issued September 4, 2003 in the amount of \$57,245,000; proceeds used to build, improve and equip buildings, jails and court facilities and to pay the costs associated with the issuance of the bonds.

PARKS DEPARTMENT CAPITAL PROJECTS FUND - Fund created to account for the net proceeds from the sale of the Bayshore RV Park and Spillway Fishing Pier in fiscal year 2007 and for the reinvestment of those proceeds into other county park land and facilities. The park and fishing pier were originally developed using federal land and water conservation funds, requiring the county to expend the sale proceeds as per federal and state regulations relating to the conversion of park lands to private purposes.

ROAD BONDS SERIES 1987 - Issued for the purpose of constructing and improving county roads.

Original issue	\$ 6,300,000	Refunding Bonds
	<u>13,000,000</u>	Road Bonds
	<u>\$ 19,300,000</u>	

NOTE: The following funds (with the appropriate amounts given) were consolidated into Road Bond Fund, 1987:

Road Bond Series 1977	\$ 694,526
Road Bond Series 1978	3,056,306
Road Bond Series 1982	550,043
Road & Bridge Bond Series 1970	<u>314,000</u>
	<u>\$4,614,875</u>

UNLIMITED TAX ROAD BONDS SERIES 2003B - Issued September 4, 2003, in the amount of \$9,625,000 to be used to build and improve roads within the county and to pay the costs associated with the issuance of the bonds.

UNLIMITED TAX ROAD BONDS SERIES 2001 - Issued in March 2001 in the amount of \$26,151,372 as the initial installment of the total authorization of \$36,300,000 (\$35,000,000 for road and \$1,300,000 for the Grand Parkway) approved by the voters in November 2000. Proceeds used to build and improve roads within the county.

PASS-THROUGH TOLL REVENUE AND LIMITED TAX BONDS SERIES 2007 - Fund created in fiscal year 2007 to account for the financial resources used to design, develop, finance, construct, extend, expand and improve a non-toll project or facility for Farm-to-Market Road 646, a part of the state highway system located in the county.

UNLIMITED TAX ROAD BONDS SERIES 2009A - Fund created in fiscal year 2009 to account for the financial resources used to construct, purchase, maintain and/or operate macadamized, graveled and paved roads and turnpikes, and to pay for professional services rendered in connection with the aforementioned projects. These projects were funded by a dedicated bond issue.

UNLIMITED TAX ROAD BONDS SERIES 2019 - This fund was created to account for proceeds of \$24,000,000 from a March 19, 2019 bond issuance to be used to construct, purchase, maintain and/or operate macadamized, graveled and paved roads and turnpikes.

COUNTY ROAD AND BRIDGE PROJECTS - This fund was created in fiscal year 2005 to account for various county road and bridge projects. The fund is used to account for the road repair project on Texas City Seawall associated with the Grand Cay Harbor development.

LIMITED TAX FLOOD CONTROL BONDS SERIES 2009C - Issued in September 2009 in the amount of \$15,000,000 to be used to: 1) establish, construct, extend, maintain or improve a seawall, breakwater, levee, floodway and/or drainage; 2) pay for the professional services rendered in connection with the aforementioned projects; 3) pay the costs associated with the issuance of the Series 2009C Bonds; and 4) pay a portion of the interest on the Series 2009C Bonds.

CERTIFICATES OF OBLIGATION SERIES 2008 - Issued in March 2008 in the amount of \$7,000,000 to be used to pay all or part of the contractual obligations to be incurred for the construction of public works: 1) levee improvements and improvements to various pump stations; 2) improvements to the Texas City Dike and the Texas City Dike road; 3) improvements to various City of Texas City roads in the San Leon portion of the county; and 4) for the professional services rendered in connection with the above listed projects.

Proprietary Funds

PROPRIETARY FUNDS

Proprietary Funds comprise two fund subtypes: Enterprise Funds and Internal Service Funds.

Enterprise Funds

Enterprise Funds are used to report the same functions that would be presented as business-type activities in the government-wide financial statements. The county currently engages in no business-type activity and therefore maintains no Enterprise Funds.

Internal Service Funds

Internal Service Funds may be used to report any activity that provides goods or services to other funds, departments or agencies of the primary government or its component units, or to other governments, on a cost-reimbursement basis. The county maintains the following Internal Service Funds:

EMPLOYEE BENEFITS - The Employee Benefits Fund accounts for the administration of the health insurance benefits that are provided to current and former county employees. Primarily the county self-insures against these risks, but in instances it also pays premiums on insurance policies in order to obtain additional coverage.

WORKERS' COMPENSATION - The Workers' Compensation Fund was established for the purpose of paying Worker's Compensation claims.

UNEMPLOYMENT - The Unemployment Fund accounts for unemployment insurance.

SELF-INSURANCE RESERVE – The Self-Insurance Reserve Fund provides for general liability and casualty loss coverage.

Fiduciary Funds

FIDUCIARY FUNDS

Fiduciary Funds consist of:

Pension (and Other Employee Benefit) Trust Funds

Pension (and Other Employee Benefit) Trust Funds exist when the government takes place as the trustee for a designated pension fund. This might also include the case where the government takes charge of different employment-related funds that are created in this regard. The government is defined as a qualifying trust where the government is not considered as a beneficiary of the pension fund itself, but rather acts as a trustee in managing those funds in order to ensure that the funds are safe to be dispersed when needed by the rightful owner of those funds. The county currently participates in one Pension (and Other Employee Benefit) Trust Fund.

Investment Trust Funds

Investment Trust Funds are used to report the external portion of an investment pool that is mainly managed by the government. These funds exist when the government sponsors various different multi-government investment pools and accounts for the external portion of those particular assets. Investment Trust Funds are also used in cases where government invests their own money, as well as resources that have been received from other governments. The county does not participate in any Investment Trust Funds.

Private-Purpose Trust Funds

Private-Purpose Trust Funds results when a contributor, as well as a government, agrees that principal or income that is derived from trust assets should be directed towards the betterment of individuals, organizations, or other governments. As suggested by the name, Private-Purpose Trust Funds are reserved for a specific purpose only. As with other types of fiduciary funds, they cannot be used for any other purpose by the government. Private Purpose Trust funds can either be expendable or nonexpendable. Expendable Private Purpose Trust Fund implies that principal and earnings might be spent. On the other hand, as far as the nonexpendable private purpose trust fund is concerned, the principal must be maintained at all times. However, earnings from this principle might be expendable or non-expendable. The county does not participate in any Private-Purpose Trust Funds.

Custodial Funds

Custodial Funds are similar to Trust Funds but do not involve a formal trust arrangement. Custodial Funds are used to account for situations where the government's role is purely custodial, such as the receipt, temporary investment and remittance of fiduciary resources to individuals, private organizations and other governments. The county currently participates in thirteen Custodial Funds.

(1) Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the county. The percentage of overlapping debt applicable is estimated using the taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the county's boundaries and dividing it by the total assessed value of the overlapping government.

(2) Expenditures of the various taxing bodies within the territory of the county are paid out of ad valorem taxes levied by these taxing bodies on the properties within the county. These political taxing bodies are independent of the county and may borrow to finance their expenditures. The following statement of direct and estimated overlapping ad valorem tax bonds was developed from information contained in "Texas Municipal Reports" published by the Municipal Advisory Council of Texas; TMR#0084. Except for the amounts relating to the county, the county has not independently verified the accuracy or completeness of such information and no person should rely upon such information as being accurate and complete. Furthermore, certain entities listed above may have issued additional bonds since the date stated in the table and may have programs requiring the issuance of substantial amounts of additional bonds, the amount of which cannot be determined. The preceding table reflects the county's estimated share of overlapping gross debt of these various taxing bodies.

(3) 2024 Estimated County Population and Per Capita Direct and Overlapping Debt amounts are not rounded to thousands.

Constitutional Tax Limitations:

Bonds issued under the Texas general laws, in addition to the debt limit of 5 percent of assessed value of all taxable property, authorized the county to levy a tax for general fund, jury fund, road and bridge fund and permanent improvement fund purposes limited in the aggregate to \$0.80 per \$100 of assessed valuation (the "\$0.80 Tax Limitation"). The Constitution also authorizes the county to levy a separate tax, without legal limit as to rate, to pay debt service on county road bonds. In addition, the county is authorized to levy a special tax for the maintenance of public roads not to exceed \$0.15 per \$100 of assessed valuation provided a majority of the qualified property-tax-paying voters of the county voting at an election to be held for that purpose shall vote such tax. The receipts of such special tax are restricted and are not available to pay debt service on the Road Refunding Bonds. This special Road and Bridge Fund tax provides additional funds for road purposes that would otherwise be paid from taxes subject to the \$0.80 tax limitation.

The Texas Constitution authorizes the county to levy a separate tax, not to exceed \$0.30 per \$100 of the assessed valuation, for the construction and maintenance of farm-to-market roads and flood control. The county is further authorized to levy a tax, not to exceed \$0.50 per \$100 assessed valuation, to pay debt service on Seawall bonds.

The county is authorized under Article III, §52, of the Texas Constitution to issue bonds payable from ad valorem taxes for the construction of roads. There is no constitutional or statutory limit on bonds issued pursuant to such a constitutional provision. However, the amount of bonds which may be issued is limited to 25% of the assessed valuation of real property in the county.
