§

§

AGREEMENT FOR CONSULTING SERVICES

PARTIES

This Agreement for Consulting Services (the “Agreement”) is made and entered into by and between the County of Galveston, a political subdivision of the State of Texas, acting by and through its Galveston County Commissioners Court (the “County”), and **Associated Testing Laboratories, Inc.** (the “Consultant”), each of whom is a Party hereto and who are collectively referred to herein as the Parties.

RECITALS

The County conducted a Request for Qualifications, Number RFQ 25-079, entitled “Professional Services for Future Engineering Projects” (the “RFQ”), to procure professional services for the *Miles Road Drainage Improvements* project within the County (the “Project”), which is further described herein.

The Consultant timely submitted a statement of qualifications in the RFQ, and wishes to perform said services.

Now Therefore, for and in consideration of the covenants and agreements contained herein, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

CONTRACTUAL UNDERTAKINGS

SECTION I RETENTION OF CONSULTANT

The County, by and through this Agreement, retains the Consultant to perform professional services in connection with the Project, and the Consultant, by and through this Agreement, agrees to perform said professional services in connection with the Project.

This Agreement means this document (pages 1 through 9), the RFQ, which includes but is not limited to any addenda thereto, if any, the Consultant’s response in the RFQ (i.e., its’ statement of qualifications, certifications, affidavits, and vendor information), and all Exhibits affixed hereto, if any, all of which are incorporated herein for all purposes. Exhibits to be physically affixed, if any, shall be affixed following the signature/execution page of this Agreement. The RFQ, all addenda therein, if any, and Consultant’s response therein shall be retained in the Galveston County Purchasing Agent’s Office.

SECTION II

CHARACTER AND EXTENT OF SERVICES

The Consultant shall render professional services necessary for the development of the Project, limited to the following and performed in accordance with existing local, State and Federal regulations, as set out in the Scope of Services attached hereto as Exhibit "A".

The Scope of Services and Response attached hereto as Exhibit "A" is also made a part of this Agreement for all purposes. But, if any terms of Exhibit "A" conflicts with any existing State of Texas, Texas Department of Transportation, local, or Federal laws, rules or regulations, the State, Federal or local laws, rules or regulations shall control.

The character and extent of services outlined above shall be considered complete upon approval by County, acting by and through its County Engineer, of the various drawings, data and tasks outlined in Exhibit "A".

All Services provided by Consultant shall be of good quality and shall be performed in a professional manner. The standard of care for all professional and related Services performed or furnished by Consultant and the Response under this Agreement will be the care and skill ordinarily used by other competent consultants practicing under the same or similar circumstances and professional license. Consultant will re-perform any Services not meeting this standard without additional compensation. Consultant will perform its services as expeditiously as is prudent considering the ordinary professional skill and care of a competent consultant.

Additional services that may be required after approval of these documents by the County, or required by State or Federal regulations published in the State or Federal Register after the date of execution of this Agreement, shall not be considered as covered by the maximum amount payable under this Contract as provided in Section V. Compensation for such extra services shall be as provided in Section V except that the maximum amount payable shall be revised by agreement between County and Consultant.

SECTION III PERIOD OF SERVICES

This Agreement shall be effective upon execution by the County and by the Consultant, with the date of the Party signing last in time, and shall remain in force until satisfactory completion of all services described herein or termination under the provisions hereinafter provided in section VIII.

After execution of Agreement, Consultant shall submit a Project Time Schedule to the County Engineer, which shall be diligently followed during performance of services. It is understood by the County that the Consultant will make every effort to expedite completion of the Project.

SECTION IV COORDINATION WITH THE COUNTY

The Consultant agrees to perform the services diligently after authorization to proceed. The Consultant agrees to perform all other services diligently and within the agreed upon time schedule.

The Consultant shall hold periodic conferences with the County Engineer to the end that the Project, as perfected, shall have full benefit of the County's experience and knowledge of existing needs and facilities and be consistent with the County's current policies and construction standards. To implement this coordination, the County Engineer shall make available to the Consultant for use in the Project, all existing plans, maps, field notes, statistics, computations and other data in its possession relative to the Project. Consultant shall submit a monthly progress report of project status to the County Engineer and the County Engineer is the County's designated point of contact for this Agreement.

SECTION V THE CONSULTANT'S COMPENSATION

As set forth in Exhibit "A" attached hereto, the County shall compensate the Consultant for services performed under this Agreement per the compensation amounts shown in Exhibit "A" for design and construction phase services.

Notwithstanding the foregoing, the maximum amount payable under this Contract is **\$34,465.00** including expenses. The maximum amount payable may be revised in the event of changes in extent, complexity, or character of work requiring such revisions upon the prior mutual, written agreement by the County and the Consultant. No revisions in the maximum amount payable will be permitted unless previously authorized in writing by the County.

Payments to the Consultant for authorized services will be made by the County within 45 calendar days upon presentation of monthly statements by the Consultant to the County reflecting Consultant's performance of such services, unless disputed by the County. Additionally, the County agrees that it shall review the monthly statements and if disputing, shall notify the Consultant of the County's dispute no later than thirty (30) days after the County's receipt of the monthly statement. All remittances shall be mailed or delivered to Consultant's office. Consultant further agrees that all monthly statements shall detail its services under this Agreement and, if this Agreement is funded through Federal dollars, comply with applicable Federal requirements associated with costs.

SECTION VI OWNERSHIP OF DOCUMENTS

Original documents, plans, designs and survey notes ("Documents") belong to and remain the property of the County, in consideration of which it is mutually agreed that the County will use them solely in connection with the Project or as required by law, save with the express consent of the Consultant. The Consultant may retain copies of such Documents.

County contracts are subject to all legal requirements provided by county, state or federal statutes, rules and regulations.

Consultant acknowledges that Galveston County is a governmental entity which conducts its meetings in accordance with the Texas Open Meetings Act and whose certain records are available to the public under the Texas Public Information Act. In accordance with Title 5, Chapters 551 and 552 of the Texas Government Code, this Agreement is an open record under the Public Information Act and as such, will be discussed and voted upon in a public meeting. Any request made to either inspect or acquire a copy of this Agreement or the Documents produced as a result of this Agreement will not violate the terms of this Agreement.

SECTION VII DISPUTE RESOLUTION

If a dispute arises out of or relates to a breach of this Agreement, and if the dispute cannot be settled through negotiation, then the Consultant and the County agree to submit the dispute to mediation. In the event the Consultant or the County desires to mediate any dispute, it shall notify the other Party in writing of the dispute desired to be mediated. If the Parties are unable to resolve their differences within ten days of the receipt of such notice, such dispute shall be submitted for mediation in accordance with the procedures and rules of the American Arbitration Association (or any successor organization) then in effect. The deadline for submitting the dispute to mediation can be changed if the Parties mutually agree in writing to extend the time between receipt of notice and submission of mediation. The expenses of the mediator shall be shared 50 percent by the Consultant and 50 percent by the County. This requirement to seek mediation shall be a condition required before filing an action at law or in equity.

SECTION VIII TERMINATION

The County may terminate the Agreement with or without cause, or for convenience by giving to the Consultant at least thirty (30) calendar days' advance notice in writing. Upon receipt or delivery of such notice, the Consultant shall discontinue all services in connection with the performance of this Agreement and shall proceed to cancel promptly all existing orders and contracts insofar as such orders or contracts are chargeable to this Agreement. As soon as practicable after receipt of notice of termination, the Consultant shall submit a statement showing in detail, the services performed under this Agreement to the date of termination.

The County shall then pay the Consultant promptly for that portion of the prescribed charges which the services actually performed under this Agreement bear to the total services called for under the Agreement, less such payments on account of the charges as have been previously made. Copies of all completed or partially completed surveys, reports, designs, plans, specifications and all other documents prepared under this Agreement shall be delivered to the County Engineer when and if this agreement is terminated, but subject to the restrictions, as to their use, as set forth in Section VI.

SECTION IX INSURANCE

The Consultant shall obtain and maintain, throughout the term of the Agreement, insurance of the types and in the minimum amounts set forth below.

The Consultant shall, upon request by the County, furnish certificates of insurance to the County evidencing compliance with the insurance requirements herein. Certificates shall indicate name of the Consultant, name of insurance company, policy number, and terms and limits of coverage. The Consultant shall cause its insurance companies to provide the County with at least thirty (30) days' prior written notice of any reduction in the limit of liability by endorsement of the policy, cancellation or non-renewal of the insurance coverage required under this Agreement. The Consultant shall obtain such insurance from such companies having a Best's rating of B+/VII or better, licensed or approved to transact business in the state in which the Services shall be performed, Texas, and shall obtain such insurance of the following types and minimum limits.

a. Workers' Compensation insurance in accordance with the Laws of the State of Texas, or state of hire/location of Services, and Employer's Liability coverage with a limit of not less than \$500,000 each employee for Occupational Disease; \$500,000 policy limit for Occupational Disease; and Employer's Liability of \$500,000 each accident.

b. Commercial General Liability insurance including coverage for Products/Completed Operations, Blanket Contractual, Contractors' Protective Liability, Broad Form Property Damage, Personal Injury/Advertising Liability, and Bodily Injury and Property Damage with limits of not less than:

\$2,000,000	general aggregate limit
1,000,000	each occurrence, combined single limit
1,000,000	aggregate Products, combined single limit
1,000,000	aggregate Personal Injury/Advertising Liability
50,000	Fire Legal Liability
5,000	Premises Medical

c. Business Automobile Liability coverage applying to owned, non-owned and hired automobiles with limits not less than \$1,000,000 each occurrence combined single limit for Bodily Injury and Property Damage combined.

d. Umbrella Excess Liability insurance written as excess of Employer's Liability, with limits not less than \$1,000,000 each occurrence combined single limit.

e. Professional Liability insurance with limits not less than \$1,000,000 each claim/annual aggregate.

The County and the County's agents and employees shall be added as additional insureds to all coverages required above, except for those requirements in paragraphs "a" and "e". All policies written on behalf of the Consultant shall contain a waiver of subrogation in favor of the County and the County's agents and employees, with the exception of insurance required under paragraph "e". Additionally, the Contractor's commercial general liability insurance must provide any defense provided by the policy to Galveston County, its officials, employees, and agents.

SECTION X

VENUE AND CHOICE OF LAW

This Agreement shall be construed and enforced for all purposes pursuant to the laws of the State of Texas. Venue shall lie exclusively in a court of competent jurisdiction in Galveston County, Texas.

SECTION XI ADDRESS OF NOTICES AND COMMUNICATIONS

All notices and communications under this Agreement to be mailed or delivered to Consultant shall be to the following address:

Tiffany Price
Operations Manager
10450 Corporate Dr.
Sugar Land, Texas 77478

All notices and communications under this Agreement to be mailed or delivered to the County shall be to the following address:

Mark Henry, Galveston County Judge
Galveston County Courthouse
722 Moody, 2nd Floor
Galveston, Texas 77550

With a copy to:

Michael Shannon, PE, CFM,
Galveston County Engineer
722 Moody, 1st Floor
Galveston, Texas 77550

SECTION XII SECTION CAPTIONS

Each section under the contractual undertakings has been supplied with a caption to serve only as a guide to the contents. The caption does not control the meaning of any section or in any way determine its interpretation or application.

SECTION XIII SUCCESSORS AND ASSIGNS

The County and the Consultant each binds itself and its successors, and assigns to the other

Party of this Agreement and to the successors, and assigns of such other Party in respect to all provisions of this Agreement. Except as above, neither the County nor the Consultant shall assign, subcontract, or otherwise transfer their interest in this Agreement without the prior written consent of the other Party. Nothing herein shall be construed as creating any personal liability on the part of any officer or agent of any public body which may be a party thereto.

SECTION XIV ADDITIONAL TERMS

14.1 PROCUREMENT REQUIREMENTS

Consultant shall comply with all applicable local, State, and Federal laws, rules, regulations, orders, and ordinances. This includes, but is not limited to, that Consultant shall comply with the Galveston County Purchasing Policies & Procedures Manual approved by Order of the Commissioners Court on March 7, 2018, including without limitation, applicable provisions within Chapter Nine of said Manual as this contract is made pursuant to a federal award.

14.2 CONFLICT OF INTEREST

a. No member of the County's governing body, and no employee, officer, or agent of the County shall participate in the selection or in the award of administration of a subcontract supported by grant funds if a conflict of interest, real or apparent, would be involved. Such a conflict of interest would arise when: 1.) the employee, officer, or agent, 2.) any member of his or her immediate family, 3.) his or her partner, or 4.) any organization which employs, or is about to employ any of the above; has a financial or other interest in the firm or person selected to perform the subcontract.

b. In all cases not governed by Subsection (a) of this Section, no person specified in subsection (c) of this Section, who exercises any functions or responsibilities in connection with the planning and carrying out of the project, or who are in a position to participate in decision making process or gain inside information with regard to activities under this Agreement as Amended, may obtain a financial interest or benefit from the activity, or have an interest or benefit from the activity, or have any interest in any contract, subcontract, or agreement with respect thereto, or the proceeds thereunder, either for themselves or those with whom they have family or business ties during their tenure or for (1) year thereafter.

c. The conflict of interest provisions of Subsection (b) apply to any person who is an employee, agent, consultant, officer, elected official, or appointed official of the County or of the Contractor.

14.3 AUTHORITY TO BIND

Each Party represents and warrants for itself that the individual executing this Agreement on its behalf has the full power and authority to do so and to legally bind the Party to all the terms and provisions of this Agreement and that this Agreement constitutes the legal, valid, and binding agreement of each Party hereto.

14.4 IMMUNITY RETAINED

The County does not waive or relinquish any immunity or defense on behalf of itself, its trustees, officers, employees, and agents as a result of its execution of this Agreement and performance of the covenants contained herein. The County specifically reserves any claim it may have to sovereign, qualified, or official immunity as a defense to any action arising in conjunction with this Agreement.

14.5 NO THIRD PARTY BENEFICIARY

This Agreement inures only to the benefit of Galveston County and Contractor. This Agreement does not create, is not intended to create, and shall not be deemed or construed to create, any rights or benefits in third parties.

14.6 SEVERABILITY

If a provision contained in this Agreement is held invalid for any reason by a court of competent jurisdiction, the invalidity shall not affect other provisions of the Agreement that may be given effect without the invalid provision, and to this end the provisions of this Agreement are severable.

14.7 VALIDITY/ENFORCABILITY

If any current or future legal limitations affect the validity or enforceability of a provision of this Agreement, then the legal limitations are made a part of this Agreement and shall operate to amend this Agreement to the minimum extent necessary to bring this Agreement into conformity with the requirements of the limitation, and as so modified, this Agreement shall continue in full force and effect.

Execution Page follows this Page

The Rest of this Page is Intentionally Left Blank

This Agreement is hereby EXECUTED by the Parties hereto in triplicate (three (3)) counterparts, each of which shall constitute an original, to be effective upon full execution with the date of the Party signing last in time.

Reference: Proposal for Geotechnical Investigation
Miles Road Drainage Improvement Project
Galveston County, Texas

Dear Ms. Forrest:

Associated Testing Laboratories, Inc. (ATL) is pleased to submit a proposal for the above-referenced project. The scope of work entails a geotechnical investigation based on our understanding of the project scope provided by DCCM and in accordance with Galveston County Engineering Guidelines.

PROJECT DESCRIPTION

This project involves drainage improvements along Miles Road, extending from George Street to the dead end of the road in Galveston County. The total project length is approximately 2,220 feet.

The engineer's estimated probable project cost for these improvements is \$4,751,033 subject to revision based on the detailed impact study.

SCOPE OF WORK

Objective

The objective of the geotechnical investigation for the Miles Road Drainage Improvement Project is to evaluate the subsurface soil and groundwater conditions across the project site to provide the necessary engineering parameters for design and construction. The scope includes conducting soil borings, laboratory testing, and engineering analyses; the results will be used to develop recommendations for the design and construction of the project.

Field Exploration

Based on the available project information provided by DCCM, the following borings are proposed to be drilled along the project alignment:

Borings	No of Borings	Depth (ft)	Total Depth (Linear feet)
Miles Road Drainage Improvement Project (B-1 thru B-5)	5	20	100
Outfall Location (B-6)	1	25	25
Total Depth = 125 LF			

At this time, the invert depths are assumed to not exceed 10 feet, and the outfall location is assumed to not exceed 15 feet. Proposed Boring Locations are drawn to the approximate locations to perform soil borings to evaluate the subsurface soil and groundwater conditions. ATL assumes all borings will be drilled within Galveston County Right of Way.

The number and locations of borings are intended to provide general subsurface characterization for design; however, subsurface conditions may vary between exploration locations.

The field investigation will follow *Standard Practice for Soil Investigation and Sampling by Auger Borings* [ASTM D 1452]. ATL plans to drill the soil borings using a truck-mounted drill rig. The test bores will be drilled using dry auger methods until groundwater is encountered and observed or caving soils occur. When groundwater is encountered, the level will be allowed to stabilize for approximately 15 minutes and continue drilling to the termination depth.

The soil boring will be logged and sampled by an experienced geotechnical engineering technician. All boring soil samples will be obtained continuously to the termination depths. Undisturbed samples of cohesive soils will be obtained using 3-inch diameter seamless Shelby tubes pushed to 2-foot increments. The extruded samples will be wrapped in protective foil and transported to our laboratory. The field shear strengths of the clays will be measured in the field with a hand penetrometer or torvane.

Standard Penetration Tests (SPT) will be conducted in low-cohesion silts and sands, and driving resistance will be recorded during testing. The collected samples will be placed in sealed bags and transported to our laboratory for analysis.

The borings will be drilled dry, and the depth at which groundwater is encountered (if any) will be recorded. Depth to groundwater will be important for the design and construction of this project. Drilling will be suspended for 15 minutes to facilitate water level observation in the boring. After recording the water level, drilling will be resumed with wet rotary. The boreholes will be grouted with cement-bentonite slurry with a tremie pipe.

Laboratory Testing

Laboratory tests will be assigned corresponding to the types of soils encountered to classify the soils' physical and index properties, moisture contents, unconfined compressive strength (UC), unconsolidated undrained compressive strength (UU), Atterberg limits, percent finer than No. 200

sieve, and total unit weight tests.

All laboratory tests will be performed in accordance with appropriate ASTM standards.

Engineering Analyses and Reporting

The field and laboratory data will be summarized in an engineering report. Analyses of data will be presented, and recommendations made in accordance with Galveston County Guidelines. The following geotechnical information and recommendations will be provided:

- Boring logs & boring log profiles with generalized soil stratigraphy and groundwater levels.
- Site preparation and grading
- Discussion of subsurface soils and stratigraphy and groundwater information
- Recommendations regarding bedding and backfill for utility construction.
- Loads on buried pipes, including dead and live loads (vehicle loads).
- Recommendations regarding paving, including thickness, subgrade preparation and stabilization, pavement construction
- Excavation and trench construction and safety requirements.
- Dewatering considerations and recommendations.
- Construction considerations

An electronic PDF copy of the draft preliminary geotechnical report will be submitted. Once we have received the review comments, a final preliminary report addressing the review comments will be issued.

The geotechnical report will be based on the subsurface conditions encountered at the specific exploration locations and depths. Conditions may vary between borings. The conclusions and recommendations will be limited by the quantity of exploration performed. Our firm is not responsible for any unknown subsurface variabilities that may exist.

COST ESTIMATE

Based on the scope of geotechnical work outlined above, we estimate the following costs:

Geotechnical Investigation for	Estimated Fee
Miles Road Drainage Improvement Project	\$34,465.00

This estimate assumes that: (i) underground utilities at proposed boring locations will be cleared by Texas 811 Call Service and/or private property maintenance personnel; (ii) the sites will be accessible to our truck-mounted drill rig equipment; (iii) permission/permit to access the site(s) if needed, will be arranged by others at no cost to ATL. ATL is not responsible for any utility conflicts encountered.

Prior to commencing geotechnical drilling, ATL will coordinate with Texas 811 Call Service to obtain the necessary utility clearances. However, our firm shall not be held responsible and or liable for any utility conflicts encountered in the field.

This cost estimate does not include review or approval of reports by external agencies such as TxDOT, Harris County Flood Control District, or UPRR. This cost estimate does not include any recommendations for railroad crossings or HCFCF channels.

The traffic control estimate is for basic traffic control measures and does not include a crash truck or one-lane closure. Project coordination meetings will be as needed.

If design modifications occur, if additional agency requirements are identified, or if subsurface conditions differ from those anticipated, additional exploration and analysis may be required. Such services are not included in this proposal and will be provided under a separate authorization.

TIME SCHEDULES

Upon written notice, ATL will begin the geotechnical investigation. We estimate that the fieldwork can be started immediately after authorization is received.

The field staking and utility clearance will take approximately one week, the field investigation will require about one week (assuming no complications in site access, and weather permitting), and the regular laboratory testing will take approximately three to four weeks. The draft geotechnical report will be submitted approximately three to four weeks after laboratory testing is complete.

We appreciate the opportunity to submit this proposal and look forward to being of service to you on this project.

Thank you,
