For situational awareness. [@Schumann, Austin](#), would you reach out to Mary, as necessary, to begin creating the project worktags?

Warm regards,

Good morning, Sergio & Christie,

I hope you're doing well. At your convenience, please see attached 2025 Mobility & Drainage Bond Program - Original Project List per our discussion at yesterday's meeting. This sheet was originally shared to our office by the County Engineering department.

Thank you and have a great day!
Sincerely,

[May 2025 Bond Projects - Accounts.xlsx](#)
[Outlook-4r1m1rat.png](#)

Good afternoon, Austin,

I hope you're doing well. Attached is a workbook that includes a master list of the May 2025 bond projects that need a project worktag. The list includes the fund and budget for each project.

In addition, there are separate sheets for each project that I hope will aid in determining correct spend categories for the associated costs.

As an example, below is from a separate sheet entitled, "Miles Drainage Improvements" that separates the project budget into categories based off service type (these amounts are the exact amounts that are/will be obligated under contract).

Please feel welcome to reach out with any concerns or questions or if you'd like to meet to discuss.

Thank you and have a great day!

Sincerely,

Project Number	Bond Category	Flood Projects [Cost Center: 296190]	City / District / County	Fund	Ledger Account	Spend Category	Initial Budget	Project Worktag

Subject: Department for Bond Road Projects

Good morning,

I just wanted to confirm, for the following new bond road projects, will Engineering be doing the invoicing/work for these projects, or will road and bridge department? This would change which cost center is used for these projects in WD. Thank you! Let me know if you need more information.

Sincerely,
