MEMORANDUM

To: Galveston County Commissioners' Court
From: Betsy Thomas, Grants Administration Manager
Court Date: April 14, 2025
RE: County Engineering
Hazard Mitigation Grant Program DR-4798 Grant Application
• Bacliff Drainage Project on Gordy, Reppert and Miles

BACKGROUND

Following a presidentially declared disaster, FEMA's Hazard Mitigation Grant Program provides funding to state, local, tribal, and territorial governments so they can develop hazard mitigation plans and rebuild in a way that reduces, or mitigates, future disaster losses in their communities.

On July 9, 2024, President Biden declared a nationwide emergency pursuant to Sec. 501(b) of Stafford Act in response to Hurricane Beryl in multiple Texas counties. The funding under this HMGP cycle is directly associated with DR-4798 disaster.

HMGP has a 75/25 mandatory grant match requirement and a 36-month period of performance.

SUMMARY

The Galveston County Bacliff Drainage Project proposes the design and construction of a modern underground stormwater drainage system along Gordy Road, Miles Road, and Reppert Street in Bacliff, Texas, to address chronic and severe localized flooding. These roadways currently lack adequate drainage infrastructure, resulting in repeated inundation of homes, streets, and critical infrastructure during heavy rainfall events.

The project will install approximately 2,500 linear feet of precast concrete box culverts and associated stormwater conveyance features to efficiently route runoff to Galveston Bay. Located within disadvantaged census tracts, the project area is home to hundreds of residents who face socioeconomic barriers and are disproportionately impacted by flood events. This mitigation effort is vital to protecting public safety, reducing damage to property, preserving access to essential services, including potable water and evacuation routes, and building long-term resilience for this vulnerable coastal community.

The project aligns with countywide hazard mitigation priorities and represents a sustainable, engineered solution to a longstanding flooding problem.

FINANCIAL SUMMARY

HMGP-4781 Grant Request	\$12,413,332.83
County Match (25%)	<u>\$4,137,777.61</u>
TOTAL	\$16,551,110.44

Note: Staff plans to explore other grant funds help meet the match requirement.

RECOMMENDATIONS

Professional Services requests the Court consider ratification of the submission of the HMGP-4781 for the Bacliff Drainage Project and authorize County Judge to sign all required documents.

Galveston County Bacliff Drainage Project – HMGP DR 4798 (Hurricane Beryl) / DR 4781 (Spring Storms/Derecho)

Project Scope:

The Galveston County Bacliff Drainage Project proposes the design and construction of a modern underground stormwater drainage system along Gordy Road, Miles Road, and Reppert Street in Bacliff, Texas, to address chronic and severe localized flooding. These roadways currently lack adequate drainage infrastructure, resulting in repeated inundation of homes, streets, and critical infrastructure during heavy rainfall events. The project will install approximately 2,500 linear feet of precast concrete box culverts and associated stormwater conveyance features to efficiently route runoff to Galveston Bay. Located within disadvantaged census tracts, the project area is home to hundreds of residents who face socioeconomic barriers and are disproportionately impacted by flood events. This mitigation effort is vital to protecting public safety, reducing damage to property, preserving access to essential services, including potable water and evacuation routes, and building long-term resilience for this vulnerable coastal community. The project aligns with countywide hazard mitigation priorities and represents a sustainable, engineered solution to a longstanding flooding problem.

Timeline:

The Galveston County Bacliff Drainage Project is structured to be completed within a 36-month period of performance, divided into two primary phases: Phase I – Engineering, Design, and Pre-Construction Activities and Phase II – Construction and Closeout.

Phase I (Approx. Months 1–20):

This phase will begin immediately upon grant award and will focus on all necessary pre-construction activities. Galveston County will procure a qualified engineering firm to conduct detailed hydrologic and hydraulic (H&H) studies, site surveys, and topographic analysis to support drainage system design. During this phase, the engineering team will develop construction-ready plans and specifications, identify permitting needs, and initiate environmental and historic preservation reviews. Land and easement acquisition, particularly along Reppert Street, will also be conducted as needed. The engineering team will also assess the feasibility of including all three corridors (Gordy, Miles, and Reppert) within the final construction scope based on available funding and site constraints.

Phase II (Approx. Months 20–36):

Following completion of design and permitting, Galveston County will competitively bid the construction contract and initiate implementation of the new drainage infrastructure. This will include the installation of underground storm sewer systems along Gordy Road and Miles Road, with construction on Reppert Street included following the acquisition of the parcel. Construction activities will be scheduled to minimize disruption to residents and road users, and all work will adhere to applicable local, state, and federal standards. Regular monitoring, contractor oversight, and quality control inspections will be conducted throughout. The final

Galveston County Bacliff Drainage Project – HMGP DR 4798 (Hurricane Beryl) / DR 4781
(Spring Storms/Derecho)

months will focus on project closeout, final inspections, and transition to long-term maintenance under Galveston County Public Works.

This phased timeline ensures deliberate planning, community engagement, and high-quality construction execution to deliver a resilient and effective flood mitigation solution for the Bacliff community.

ENVIRONMENTAL AND HISTORICAL PRESERVATION CHECKLIST

Please provide the following information as it appears on your application.

Disaster Declaration #: 4798

Name of Sub-Applicant Organization/Agency: Galveston County

Project Title: Galveston County Baccliff Drainage Project

MAINTENANCE ASSURANCE DESCRIPTION:

1. Identify any maintenance activities required to preserve the long-term mitigation effectiveness of the project. Below provide the annual cost of maintenance before mitigation and what the maintenance will include. Not needed if project is not tied to an existing capital improvement. (Either describe in 1,500 characters or less or attach a separate Word document).
2. Attach a maintenance schedule, estimated costs, and a signed maintenance commitment letter, if required, to the application submission. (See sample Maintenance letter on page 8 of this document).

Road Maintenance: Galveston County Road & Bridge (GCR&B) maintains county roads using a combination of preventative, preservation, and rehabilitation treatments, determined through annual inspections, condition assessments, and budget availability. Preventative measures include pothole patching and crack sealing. Preservation treatments, such as chip seals or rejuvenating agents, have not been applied to Miles, Reppert, or Gordy Roads. Rehabilitation efforts may involve full-depth reclamation with stabilization agents and pavement overlays or milling and overlay. Maintenance records are available starting in 2023 through the IWORQ tracking system (attached to app.).

Drainage Maintenance: Routine drainage maintenance includes grading roadside ditches to maintain proper flowlines, and adding, repairing, or replacing culverts for property access and outfall to Galveston Bay. Notable drainage improvements include outfall culvert upgrades on Reppert Street in 2004, regrading of Miles Road in 2015, Reppert Street in 2016, and Gordy Road in 2023.

ENVIRONMENTAL QUESTIONNAIRE

SECTION I – REGULATIONS

The Council on Environmental Quality (CEQ) has developed regulations to implement the National Environmental Policy Act (NEPA). These regulations, as set forth in Title 40, Code of Federal Regulations (CFR), Parts 1500-1508, require an investigation of the potential environmental impacts of a proposed federal action and an evaluation of alternatives as part of the environmental assessment process. The FEMA regulations that establish the agency-specific process for implementing NEPA are set forth in 44 CFR, Part 10. FEMA will assist in obtaining NEPA clearance.

Environmental data is required for project applications when submitting a project to the Texas Division of Emergency Management for the FEMA Hazard Mitigation Grant Program.

Please Note: Environmental review is typically the most time consuming aspect of project funding approval.

EXTRAORDINARY CIRCUMSTANCES (FEMA 44 CFR §10.8 (d)(3))

If Extraordinary Circumstances exist within an area affected by an action, such that an action that is categorically excluded from NEPA compliance may have a significant adverse environmental impact, an environmental assessment shall be prepared. Please answer "Yes" or "No" to the questions below:

YES NO

- ☐ ☒ Greater scope or size than normally experienced for a particular category of action;
- ☐ ☒ Actions with a high level of public controversy;
- ☐ ☒ Potential for degradation, even though slight, of already existing poor environmental conditions;
- ☐ ☒ Employment of unproven technology with the potential adverse effects or actions involving unique or unknown environmental risks;
- ☐ ☒ Presence of endangered or threatened species or their critical habitat, or archaeological cultural, historical or other protected resources;
- ☐ ☒ Presence of hazardous or toxic substances at levels which exceed Federal, State, or local regulations or standards requiring action or attention;
- ☐ ☒ Actions with the potential to affect special status areas adversely or other critical resources such as wetlands, coastal zones, wildlife refuge and wilderness areas, wild and scenic rivers, sole or principal drinking water aquifers;
- ☐ ☒ Potential for adverse effects on health or safety; and
- ☐ ☒ Potential to violate a Federal, State, local, or tribal law or requirement imposed for the protection of the environment.
- ☐ ☒ Potential for significant cumulative impact when the proposed action is combined with other past, present and reasonably foreseeable future actions, even though the impacts of the proposed action may not be significant by themselves.

SECTION III - ALTERNATIVES NARRATIVE

Alternative #1 – No Action Alternative - evaluates the consequences of taking no action and leaving conditions as they currently exist. Please describe the benefits of this action and the shortfalls or gaps associated with this action. *(Either describe in 1,500 characters or less or attach a separate Microsoft Word document)*

Choosing not to take any action would perpetuate existing risks and vulnerabilities. This approach would leave the project area susceptible to continued flooding threats, endangering residents, businesses, and infrastructure. Without mitigation measures, safety concerns would escalate, potentially leading to increased insurance claims, property loss, health hazards such as mold, and compromised access to emergency services during rain events. These factors would exacerbate the risks faced by residents of Bacliff. In summary, the new drainage system is the most effective solution to mitigate flooding in the project area. Its enhanced drainage capacity, cost-effectiveness compared to alternative projects, and significant role in protecting lives, properties, and community well-being make it the optimal choice for addressing the persistent flood-related challenges along Gordy Road, Reppert Street, and Miles Road in Galveston County, Texas.

ALTERNATIVE #2 - Proposed Action – this is the sub-applicant's proposed project. Explain why the proposed action is the preferred alternative. Identify how the preferred alternative would solve a problem, why the preferred alternative is the best solution and benefits the community, why and how the alternative is environmentally preferred and why the project is the economically preferred alternative. Also include the shortfalls or gaps associated with the proposed action. *(Either describe in 1,500 characters or less or attach a separate Microsoft Word document)*

The proposed project will implement a new stormwater drainage system to mitigate recurring flooding along Gordy Road, Reppert Street, and Miles Road in Bacliff, Galveston County, Texas. The project will reduce stormwater accumulation on streets and private properties by improving drainage infrastructure and conveying runoff to Galveston Bay.

This project will be carried out in two phases over a 36-month period of performance:

Phase I – Preliminary Engineering and Design (estimated 20 months)

Phase II – Construction and Implementation (estimated 16 months)

ALTERNATIVE #3 – Second Alternative - is the second alternative to the Proposed Project above and would also solve the problem. It would be a viable project that could be substituted in the event the proposed project is not chosen. Identify how this project would solve the problem, the community benefits and why it is an environmental and economical alternative. Also include the shortfalls or gaps associated with this action. *(Either describe in 3,500 characters or less or attach a separate Microsoft Word document.)*

One alternative considered involved acquiring approximately 245 properties within the flood-prone area. The goal was to maintain these lands as open space to preserve the natural functions of the floodplain. However, the projected costs of around \$39 million, the need for demolition, and the requirement for unanimous approval from property owners made this alternative less feasible compared to the proposed drainage system.

SECTION IV – PUBLIC NOTICE PROCEDURES

NEPA is a planning and disclosure process. Therefore both NEPA and EO 11988 require notification of the public

- A. when a project and its alternatives are initially being developed and scoped; and
- B. after the completion of the final draft environmental assessment, and before the signing of the Finding of No Significant Impacts (FONSI) and any action taken.

The requirements of (A), which is referred to as a NOTICE OF INTENT, can usually be met by one of the following:

1. Publishing at the beginning of a disaster FEMA's General Notice for a Presidential Declaration, which issues notification that funds will be provided under the Stafford Act to undertake projects.
2. Publishing a NOTICE OF INTENT in a local newspaper to undertake a project, providing the alternatives, and then giving the public 15 days to respond.
3. Holding one or more public meetings on the project to solicit public comments.

Exactly which of the above vehicles is used to meet the requirements of (A) will usually be determined by the scope of the proposed project, agency coordination, and previous notification and scoping work performed by the applicant. Any comments received during this phase of notification should be addressed in the Environmental Assessment (EA).

The requirements of (B), which is referred to as a FINAL NOTICE, can usually be met by the following:

1. Publishing a FINAL NOTICE in a local newspaper and giving the public 15 days to respond.
2. If no comments are received, the FONSI can be signed and the project can proceed.
3. If comments are received they can be addressed individually and/or in a rewrite of the EA.
4. If significant negative comments are received, the project should be put on hold until the issues are resolved.

An example of a Final Public Notice can be found on page 9.

Note: The above requirements are also to be applied to a project deemed to be a categorical exclusion (CATEX) from the preparation of an EA, but involves EO 11988 (floodplains) and/or EO 11990 (wetlands) and/or potentially or existing contentious issues.

SECTION V – PROJECT CONDITIONS AND CERTIFICATIONS

Indicate by checking each box below that you will adhere to these listed project conditions.

- ☒ If during implementation of the project, ground-disturbing activities occur and artifacts or human remains are uncovered, all work will cease and FEMA, TDEM, and the State Historic Preservation Officer (SHPO) will be notified.
- ☒ If deviations from the approved scope of work result in design changes, the need for additional ground disturbance, additional removal of vegetation, or will result in any other unanticipated changes to the physical environment, FEMA will be contacted and a re-evaluation under NEPA and other applicable environmental laws will be conducted.
- ☒ If wetlands or waters of the U.S. are encountered during implementation of the project, not previously identified during project review, all work will cease and FEMA will be notified.

VII. State Requirements for Grants

Subrecipient must comply with all other federal, state, and local laws and regulations applicable to this award including but not limited to the laws and the regulations promulgated in Texas Government Code, Chapter 783, Uniform Grant and Contract Management (UGMS) at:

<http://www.window.state.tx.us/procurement/catrad/ugms.pdf> and the most recent applicable version of the program State Administrative Plan (and all effective updates), available at: <https://tdem.texas.gov>. Subrecipient must, in addition to the assurances and certifications, comply and require each of its subcontractors employed in the completion of the project to comply with all applicable statutes, regulations, executive orders, Office of Management and Budget (OMB) circulars,

terms and conditions of this award and the approved application.

Grant funds must not be awarded to or expended by any entity which performs political polling. This prohibition does not apply to a poll conducted by an academic institution as part of the institution's academic mission that is not conducted for the benefit of a particular candidate or party.

Award funds may not be expended by a unit of local government unless the following limitations and reporting requirements are satisfied:

1. Texas General Appropriations Act, Art. IX, Parts 2 and 3, except there is no requirement for increased salaries for local government employees;
2. Texas Government Code Sections 556.004, 556.005, and 556.006, which prohibits using any money or vehicle to support the candidacy of any person for office, influencing positively or negatively the payment, loan, or gift to a person or political organization for a political purpose, and using grant funds to influence the passage or defeat of legislation including not assisting with the funding of a lobbyist, or using grant funds to pay dues to an organization with a registered lobbyist;
3. Texas Government Code Sections 2113.012 and 2113.101, which prohibits using grant funds to compensate any employee who uses alcoholic beverages on active duty and Subrecipient may not use grant funds to purchase an alcoholic beverage and may not pay or reimburse any travel expense for an alcoholic beverage;
4. Texas General Appropriations Act, Art. IX, Section 6.13, which requires Subrecipient to make every effort to attain key performance target levels associated with this grant, including performance milestones, milestone time frames, and related performance reporting requirements; and
5. General Appropriations Act, Art. IX, Sections 7.01 and 7.02, and Texas Government Code §2102.0091, which requires that this award may only be expended if Subrecipient timely completes and files its reports.

TDEM strongly encourages subrecipients to complete refresher training in federal procurement standards as variances from these standards account for the majority of funding de-obligation. TDEM will provide training or sources for subrecipients to attain training. Federal procurement training may be required of some recipients in advance of funding or as a condition of funding and/or if additional monitoring is deemed appropriate by TDEM.

VIII. Restrictions and General Conditions

DHS/FEMA grant funds must only be used for the purposes set forth in this award and must be consistent with the statutory authority for the grant. Award funds must not be used for matching funds for other federal grants/cooperative agreements, lobbying, or intervention in federal regulatory or adjudicatory proceedings. In addition, federal funds must not be used to sue the federal government or any other government entity.

1. Federal employees are prohibited from directly benefiting from any funds under this Grant.
2. In accordance with [2 C.F.R. §25.300](#), TDEM will not make a subaward unless the Subrecipient has obtained a unique entity identifier (UEI). A UEI is the identifier required for [System for Award Management \(SAM\)](#) registration to uniquely identify entities with which the federal government does business.
3. Subrecipient maintains that it has registered at [SAM.gov](#) or other federally established site for contractor registration and entered TDEM-required information. Subrecipient shall keep current, and then review and update the information at least annually. Subrecipient shall keep information current in the SAM database until the later of when it submits this grant's final financial report or receives final award payment. Subrecipient agrees that it must not make any subaward agreement or contract related to this award without first obtaining the vendor or subawardee's mandatory UEI. See [2 C.F.R. Part 25, Appendix A](#).
4. Subrecipient must report total compensation for each of the five most highly compensated executives for the preceding completed fiscal year if the following is applicable ([2 C.F.R. Subtitle A; Chapter 1, Part 170, Appendix A to Part 170](#)). See [FEMA Information Bulletin 350](#).
 - a. Subrecipient shall report whether Subrecipient received \$25 million or more in Federal procurement contracts or financial assistance subject to the Transparency Act per [2 C.F.R. §170.320](#).
 - b. Subrecipient shall report whether 80% or more of Subrecipient's annual gross revenues were from Federal procurement contracts or Federal financial assistance. If Subrecipient answers "yes" to both questions, Subrecipient shall report, along with subrecipient's UEI, the names and total compensation (see [17 C.F.R. §229.402\(c\)\(2\)](#)) for each of subrecipient's five most highly compensated executives for the preceding completed fiscal year.
 - c. Subrecipient shall report executive total compensation at [SAM.gov](#) or other federally established replacement site.

5. By signing this grant, Subrecipient certifies that, if required, Subrecipient has registered, entered the required information, and shall keep information in the System for Award Management (SAM) database current, and update the information at least annually until the subrecipient submits its final financial report, or receives final payment.
6. Subrecipient agrees that it shall not make any subaward agreement or contract without first obtaining the subawardee's mandatory UEI.
7. Subrecipient must comply with Federal Executive Orders [12549](#) and [12689](#), which provide protection against waste, fraud, and abuse by debarring or suspending those persons deemed irresponsible in their dealings with the Federal government
8. A completed direct deposit form from Subrecipient must be provided to TDEM, prior to receiving any funds under the provisions of this grant. The direct deposit form is currently available at <https://tdem.texas.gov>.
9. Subrecipient shall maintain property/inventory records which, at minimum, shall include a description of the property, a serial number or other identification number, the source of property, who holds title, the acquisition date, the cost of the property, the percentage of federal participation in the cost of the property, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property. Subrecipient shall develop and implement a control system to prevent loss, damage, or theft of property and Subrecipient shall investigate and document any loss, damage or theft of property funded under this grant.
10. DHS/FEMA and/or TDEM, through its authorized representatives, have the right at all reasonable times to make site visits to review project accomplishments and management control systems and to provide such technical assistance as may be required. If any site visit is made by DHS/FEMA or TDEM on the premises of Subrecipient or a contractor under this grant, Subrecipient must provide and must require its contractors to provide all reasonable facilities and assistance for the safety and convenience of the government representatives in the performance of their duties. All site visits and evaluations shall be performed in such a manner that will not unduly delay the work. A final physical site inspection for eligible scope of work and program compliance may be conducted after the subrecipient's Project Completion and Certification Report has been submitted.

IX. Procurement Contracting

Subrecipient shall comply with all applicable federal, state, and local laws and requirements, including but not limited to proper competitive solicitation processes where required, for any procurement which utilizes federal funds awarded under this

award in accordance with 2 C.F.R. 200. 317-327 and Appendix II to Part 200 (A-C) and (E-J).

1. All contracts executed using funds awarded under this award shall contain the contract provisions listed under [2 C.F.R. 200.327](#) and Appendix II (A), Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments.
2. For each of the following types of procurement, activities must follow the most restrictive of federal, state, or local procurement regulations:
 - a. Micro purchase
 - b. Small purchase
 - c. Sealed bid
 - d. Competitive proposal
 - e. Non-Competitive proposal (solely when the award of a contract is unfeasible under the other methods)
3. The State must approve the use of a noncompetitive procurement method. Federal regulations allow for noncompetitive procurements under certain circumstances, including when a non-state entity determines that immediate actions required to address the public exigency or emergency cannot be delayed by a competitive solicitation. Failure to follow eligible procurement methods will result in ineligible costs. Other types of agreements for services must have State approval prior to use or execution. A copy of the local procurement policy must be provided to the State before initial payment.
4. Contracts attributed as "cost-plus-percentage-of-cost" or "percentage-of-construction-cost" are explicitly prohibited by Federal procurement standards and are ineligible for DHS/FEMA grant.
5. Subrecipients must perform cost/price analysis for every procurement action in excess of the Simplified Acquisition Threshold.
6. Subrecipients must negotiate profit as a separate element where required.
7. Subrecipients must not make any award to any party which is debarred or suspended, or is otherwise excluded from participation in the Federal assistance programs ([Executive Order 12549, Debarment and Suspension](#)).
 - a. Subrecipient must maintain documentation validating review of debarment list of eligible contractors. Evidence of non-debarment for vendors must be documented through [SAM.gov](#) and http://www.window.state.tx.us/procurement/prog/vendor_performance/debarred/ and submitted for review. TDEM will not reimburse any expense for a

debarred vendor or a vendor or Subrecipient that does not have a valid [SAM.gov](https://sam.gov) registration.

8. Subrecipients must comply with rules related to underutilized businesses (small and minority businesses, women's enterprises and labor surplus firms) at [2 C.F.R §200.321](#).
9. Subrecipients must comply with the rules of recovered materials for procurements at [2 C.F.R §200.323](#).
10. Subrecipients must comply with the rules for domestic preferences for procurements at [2 C.F.R § 200.322](#).

X. Monitoring

Subrecipient will be monitored periodically by federal, state, or local entities, both programmatically and financially, to ensure that project goals, objectives, performance requirements, timelines, milestone completion, budget, and other program-related criteria are met.

- a. TDEM, or its authorized representative, reserves the right to perform periodic desk/office-based and/or on-site monitoring of subrecipient's compliance with this award and of the adequacy and timeliness of subrecipient's performance pursuant to this award.
- b. After each monitoring visit, if the monitoring visit reveals deficiencies in subrecipient's performance under this grant, a monitoring report will be provided to the subrecipient that includes requirements for the timely correction of such deficiencies by subrecipient. Failure by subrecipient to take action(s) specified in the monitoring report may be cause for suspension or termination of this award pursuant to the Changes, Amendments, Suspensions or Termination Section (XIII) herein.

XI. Audit

Subrecipients expending \$750,000 or more in total federal financial assistance in a fiscal year will be required to provide an audit made in accordance with OMB Uniform Guidance; Cost Principles, Audit, and Administrative Requirements for Federal Awards, Subpart F.

1. A copy of the Single Audit must be submitted to TDEM or your cognizant state agency within nine months of the end of the subrecipient's fiscal year. If not required to submit a single audit, a response to the request will suffice. Failing to follow the regulation can result in significant adverse consequences including any action listing in the Enforcement Section (XIV) of this agreement

Subrecipient must give DHS/FEMA, the Comptroller General of the United States, the Texas State Auditor, TDEM, or any of their duly authorized representatives access to and the right to conduct a financial or compliance audit of funds received, and performances rendered under this award. Subrecipient must permit TDEM or its authorized representative to audit subrecipient's records. Subrecipient must provide any documents, materials, or information necessary to facilitate such audit.

1. Subrecipient understands and agrees that it is liable to TDEM for any costs disallowed pursuant to any financial or compliance audit(s) of these funds. Subrecipient further understands and agrees that reimbursement to TDEM of such disallowed costs shall be paid by Subrecipient from funds that were not provided or otherwise made available to the subrecipient pursuant to this award or any other federal contract.
2. Subrecipient must take such action to facilitate the performance of such audit(s) conducted pursuant to this section as TDEM may require of Subrecipient. Subrecipient must ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through Subrecipient and the requirement to cooperate is included in any subcontract it awards.
3. Subrecipient understands that acceptance of funds under this award acts as acceptance of the authority of the State Auditor's Office to conduct an audit or investigation in connection with those funds. Subrecipient further agrees to cooperate fully with the State Auditor's Office's audit or investigation, including providing all records requested. Subrecipient must ensure that this clause concerning the State Auditor's Office's authority to audit funds and the requirement to cooperate fully with the State Auditor's Office is included in any subgrants or subcontracts it awards. Additionally, the State Auditor's Office shall at any time have access to and the rights to examine, audit, excerpt, and transcribe any pertinent books, documents, working papers, and records of Subrecipient relating to this award.

XII. Retention and Accessibility of Records

Subrecipient shall follow its own internal retention policy, or the State's retention policy, whichever is more restrictive. At a minimum, the subrecipient must maintain fiscal records and supporting documentation for all expenditures of this award's funds pursuant to the applicable [OMB 2 C.F.R. Subpart D – Post Federal Award Requirements, §200.334-338](#), and this agreement.

1. Subrecipient shall retain these records and any supporting documentation for a minimum of three (3) years from the later of the completion of this project's public objective, submission of the final expenditure report, or any litigation, dispute, or audit.

2. Records shall be retained for three (3) years after any real estate or equipment final disposition.
3. DHS/FEMA or TDEM may direct subrecipient to retain documents or to transfer certain records to DHS/FEMA custody when DHS/FEMA determines that the records possess long term retention value.

Subrecipient must give DHS/FEMA, the Comptroller General of the United States, the Texas State Auditor, TDEM, or any of its duly authorized representatives, access to and the right to examine all books, accounts, records, reports, files, other papers, things, or property belonging to or in use by subrecipient pertaining to this award including records concerning the past use of DHS/FEMA funds. Such rights to access shall continue as long as the records are retained by Subrecipient.

XIII. Changes, Amendments, Suspensions or Termination

TDEM may modify this agreement after an award has been made. Once notification has been made in writing, any subsequent request for funds indicates Subrecipient's acceptance of the changes to this subrecipient award. Any alteration, addition, or deletion to this agreement by subrecipient is not valid.

Any alterations, additions, or deletions to this agreement that are required by changes in federal and state laws, regulations, or policy are automatically incorporated into this agreement without written amendment to this award and shall become effective upon the date designated by such law or regulation. In the event DHS/FEMA or TDEM determines that changes are necessary to this agreement after an award has been made, including changes to the period of performance of the award, or terms and conditions, the certifying official shall be notified electronically of the changes in writing. Once notification has been made, any subsequent request for refunds will indicate subrecipients acceptance of the changes to this award.

1. In the event subrecipient fails to comply with any term of this grant or agreement, TDEM may, upon written notification to subrecipient, suspend this award, in whole or in part, withhold payments to Subrecipient, and prohibit Subrecipient from incurring additional obligations of this grant's funds.
2. TDEM has the right to terminate this award, in whole or in part, at any time before the end of the Performance Period, if TDEM determines that subrecipient has failed to comply with any terms of this grant. TDEM shall provide written notice of the termination that includes:
 - a. The reason(s) for such determination;
 - b. The effective date of such termination; and

- c. The scope of the termination of the award.
- d. Termination of an award is final.

XIV. Enforcement

If subrecipient materially fails to comply with any term of this award or agreement, whether stated in a federal or state statute or regulation, an assurance, in a state plan or application, a notice of award, or elsewhere, TDEM or DHS/FEMA may take one or more of the following actions, as appropriate in the circumstances:

1. Increased monitoring of projects and require additional financial and performance reports;
2. Require all payments as reimbursements rather than advance payments;
3. Temporarily withhold payments pending correction of the deficiency;
4. Disallow or deny use of funds and matching credit for all or part of the cost of the activity or action not in compliance;
5. Request DHS/FEMA to wholly or partially de-obligate funding for a project;
6. Withhold cash payments pending correction of the deficiency by subrecipient or more severe enforcement action by TDEM or DHS/FEMA;
7. Withhold future awards for the grant program; and
8. Take other remedies that may be legally available

In taking an enforcement action, TDEM will adhere to any administrative proceeding to which Subrecipient is entitled under any statute or regulation applicable to the action involved, and where TDEM, as the recipient, is obligated to follow.

The costs to a subrecipient resulting from expenses incurred by the subrecipient during a suspension or after termination of this award are not allowable.

The enforcement remedies identified in this section, including suspension and termination, do not preclude subrecipient from being subject to "Debarment and Suspension" under Executive Order 12549. 2 C.F.R., Appendix II Part 200, (1).

XV. Conflicts of Interest

The subrecipient must maintain and provide upon request written standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award and administration of contracts and must establish safeguards to prohibit employees from using their positions for a purpose that

constitutes or presents the appearance of personal or organizational conflict of interest or personal gain.

XVI. Closing of this Award

TDEM will close each subaward after receiving all required final documentation from the subrecipient. If the close out review and reconciliation indicates that subrecipient is owed additional funds, TDEM will send the final payment automatically to subrecipient. If Subrecipient did not use all the funds received, TDEM will recover the unused funds. This does not affect:

1. DHS/FEMA or TDEM's right to disallow costs and recover funds on the basis of a later audit or other review;
2. Subrecipient's obligation to return any funds due as a result of later refunds, corrections, or other transactions;
3. Records retention requirements, property management requirements, and audit requirements, as set forth herein; and
4. Any other provisions of this award that impose continuing obligations on Subrecipient or that govern the rights and limitations of the parties to this award after the expiration or termination of this award.

XVII. Notices

All notices and other communications pertaining to this agreement shall be delivered in electronic format and shall be transmitted in TDEM's Grant Management System, hereinafter referred to as "GMS". TDEM reserves the right to use other delivery avenues as needed.

XVIII. TDEM Grants Management System

TDEM requires the use of the TDEM's Grants Management System (GMS) for subrecipient grant management functions. Subrecipient is required to access GMS for all grant related functions as required by TDEM unless written authorization from TDEM is given. Requested forms and processes may be adjusted and changed to accommodate GMS processes and requirements.

Subrecipient agrees to monitor GMS as necessary to properly manage and complete awarded projects under this agreement. Paper forms and email requests to initiate grant management functions within GMS are not accepted.

XIX. Performance Period

The performance period for this award is listed on the subaward letter for each project. All projects must be completed within the performance period and within the approved budget. Subrecipient shall have expended all award funds and must submit final requests for reimbursements, invoices, and any supporting documentation to TDEM no later than 60 calendar days after the end of the performance period. TDEM is not obligated to reimburse expenses incurred after the performance period or submitted after the deadline.

From time to time, the performance period for grants may be extended by TDEM. These extensions do not change the established performance periods for subrecipients to submit final requests for reimbursements, invoices, and any supporting documentation.

1. All work must be done prior to the approved project completion deadline assigned to each project.
 - a. For Public Assistance projects written at 100% complete, documentation must be submitted within 60 days of the Recovery Scoping Meeting (or DHS/FEMA process equivalent).
 - b. For projects not written at 100% complete for both Hazard Mitigation and Public Assistance awards, documentation must be submitted within 60 days of the work completion date.
2. Should additional time be required, a time extension request must be submitted which:
 - a. Identifies the projects requiring an extension;
 - b. Explains the reason for an extension;
 - c. Indicates the percentage of work that has been completed;
 - d. Provides an anticipated completion date;
 - e. Provides detailed milestones documenting expected progress.

The reason for an extension must be based on extenuating circumstances, or unusual project requirements that are beyond the control of Subrecipient. Failure to submit a time extension request 90 days prior to the end of the period of performance may result in denial, or reduction or withdrawal of federal funds for approved work.

XX. Cost/Scope Modification

Any change to a project's approved scope of work must be reported and approved through TDEM and DHS/FEMA before starting the project. Failure to do so will jeopardize award funding.

Subrecipient shall submit requests for cost overruns to TDEM for review. Any requests sent for a Public Assistance project will be submitted to DHS/FEMA for review and approval. Approval of these requests is not guaranteed and is subject to funding availability. Costs incurred prior to approval of any scope or budget/cost changes may be denied.

XXI. Final Expenditures Report

The Project Completion and Certification Report (P4) must be submitted to TDEM within 90 days of all approved work being completed for each project. If any project requires the purchase of insurance as a condition of receiving federal funds, a copy of the current policy must be attached to this report and the Applicant's Attestation for Duplication of Benefits (DOB) form certifying other funds were received to complete the project.

XXII. Net Small Project Overrun

If the total actual cost of all of a subrecipient's Public Assistance small projects combined exceeds the total obligated for all small projects, the subrecipient may request additional funding through the appeal process, within 60 days of the latest work completion date of all its Small Projects, as described in the [Public Assistance Program and Policy Guide](#). A net small project overrun appeal will require a review of all small projects and could result in a reduction of funding.

XXIII. Appeals

1. Public Assistance

In the event that a subrecipient does not agree with the determinations made by DHS/FEMA, the subrecipient has the right to file an appeal. This appeal must be submitted in GMS by initiating a New Project Appeal, attaching documented justification supporting the subrecipient's position, specifying the monetary figure in dispute and the provisions in federal law, regulation, or policy with which the subrecipient believes the initial action was inconsistent. Additionally, for disasters declared on or after January 1, 2022, subrecipients must submit appeals using DHS/FEMA's Grants Portal system, in addition to GMS. An appeal must be submitted by the subrecipient within the following time frames:

- a. Any DHS/FEMA determination – 60 days from the written notice of the determination being made.
- b. Second Appeal – 60 days from the written notice of the determination made on the previous appeal.

Appeals should be addressed to the TDEM's Deputy Chief of Recovery & Mitigation and should contain additional information that the subrecipient wants to have considered. Upon receipt of an appeal from Subrecipient, TDEM will review the material submitted, and forward the appeal with a written recommendation to DHS/FEMA within 60 days.

For presidentially declared disasters on or after October 30, 2012, a subrecipient may choose to arbitrate in lieu of submitting a second appeal. The arbitration program is designed to offer an alternate second appeal process by providing final adjudication through an independent, neutral panel of arbitrators for particular PA projects involving a dispute equal to or in excess of \$500,000 (or \$100,000 if the Applicant is in a "rural area", defined as having a population of less than 200,000 living outside an urbanized area) and must be filed within 60 days of receipt of the first appeal decision. For specific information, refer to [44 CFR § 206.206](#).

2. Hazard Mitigation

In the event that a subrecipient does not agree with the determinations made by DHS/FEMA, the subrecipient has the right to file an appeal. This appeal must be submitted in GMS by initiating a New Project Appeal, attaching documented justification supporting the subrecipient's position, specifying the monetary figure in dispute and the provisions in federal law, regulation, or policy with which the subrecipient believes the initial action was inconsistent. [In accordance with 44 C.F.R §206.440](#), an appeal must be submitted by the subrecipient within the following time frames:

- a. Any DHS/FEMA or TDEM determination – 60 days from the date of the determination of the appeal written on the DHS/FEMA letter;
- b. Second Appeal – 60 days from the written notice of the determination made on the previous appeal. The decision of the Second Appeal is final and not subject to arbitration.

Appeals must be addressed to the State Hazard Mitigation Officer (SHMO) and should contain additional information, in accordance with Hazard Mitigation Assistance (HMA) guidance, that the subrecipient wants to have considered by DHS/FEMA. Upon receipt of an appeal from the subrecipient, TDEM will forward the appeal to DHS/FEMA within 60 days.

XXIV. Requests for Reimbursement

Subrecipient will request payment of funds on projects by initiating a request for reimbursement (RFR) in GMS or an advance of funds request (AFR) through GMS. The request must include documentation supporting the request.

Payments for open projects must be requested at least quarterly if expenditures have been made in that quarter. If payment is not requested quarterly, Subrecipient is subject to enforcement mechanisms described in the Enforcement section (XIV). Additional monitoring may be required of subrecipients if funds are advanced.

Small projects will be paid upon completion of work and submission of all necessary closeout documentation to TDEM. Due to the increase of the small project maximum, subrecipients may require an Advance of Funds to pay eligible costs of approved project scopes of work.

XXV. Quarterly Report Requirements

Subrecipients must submit quarterly progress reports (QPR) for open, large projects in Public Assistance, all Hazard Mitigation Grant Program, Building Resilient Infrastructure and Committees (BRIC), and Pre-Disaster Mitigation Grant projects using GMS. QPRs are due to TDEM the 15th of the month after the reporting period ends. The reporting period consists of 4 3-month periods:

- a. Quarter 1 (Q1): October – December
- b. Quarter 2 (Q2): January – March
- c. Quarter 3 (Q3): April – June
- d. Quarter 4 (Q4): July – September

Failure to submit required QPRs that demonstrate appropriate project progress for two or more quarters, or Requests for Reimbursement (RFR) not submitted quarterly, can result in the withholding or de-obligation of funding for subrecipients until all QPRs are submitted to TDEM.

TDEM may use the data provided in QPRs when considering requests for overruns, period of performance extensions, or any other award activity. If projects are not progressing, TDEM will require additional reporting or may take any other appropriate action to comply with required standards.

XXVI. Equipment Records

When an individual item of equipment is no longer required for federally-funded programs or projects, Subrecipient must calculate the current fair market value of the individual item. If items have a fair market value in excess of \$5,000.00, Subrecipient must make DHS/FEMA aware. For full rules and regulations regarding purchased

equipment, reference [2 C.F.R. 200.313](#).

XXVII. FEMA Public Assistance Portal and FEMA GO

In addition to TDEM's Grants Management System, must utilize the required DHS/FEMA grant management systems. The FEMA Public Assistance Delivery Model, or Simplified Application process, is used to facilitate the writing of project worksheets in FEMA's Grants Portal system (Portal). The subrecipient must establish and maintain an active account in the Portal. It is the subrecipient's responsibility to provide and upload timely, all information requested that is needed to write accurate project worksheets. The Portal provides the subrecipient visibility of the entire project writing process.

The FEMA Grant Outcomes (FEMA GO) platform is used to facilitate the application, tracking, and management of Hazard Mitigation Grant Programs (HMGP) including Building Resilient Infrastructure and Communities (BRIC), Flood Mitigation Assistance (FMA), and HMGP Post Fire Assistance. The subrecipient is responsible for requesting and maintaining an active account in FEMA GO and responding timely to any information requested in order to complete the award process.

The use of FEMA's Grants Portal and FEMA GO do not eliminate the requirement to use TDEM's Grants Management System.

XXVIII. Indirect Cost Rates

The subrecipient may use the negotiated Indirect Cost Rate approved by its cognizant agency, or may use the 10 percent de minimis rate of modified total direct costs (MTDC) (as per [2 C.F.R. § 200.414](#)) when receiving Management Costs.

XXIX. Request for Information

TDEM and/or DHS/FEMA may request additional information from the subrecipient throughout the life cycle of this grant. This process, the Request for Information, herein referred to as RFI. DHS/FEMA RFIs may be received directly from TDEM's Grants Management System (GMS), FEMA systems (FEMA Grants Portal & FEMA GO), DHS/FEMA employees, or indirectly through TDEM representatives. DHS/FEMA RFI timeframes may vary, but due dates are always communicated upon transmission of the RFI. The TDEM RFI policies can be found in Exhibits G & H.

Exhibits

As the duly authorized representative of subrecipient, I certify that subrecipient

2. Will give the Department of Homeland Security, the Texas Division of Emergency Management, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to this grant and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.

4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).

Exhibit G: Request for Information Policy

Timelines for providing complete and accurate information and documentation are crucial to the success of the overall Grant Program and to the timely completion and closure of awarded projects. TDEM has developed a framework following a progressive series of communications for the Subrecipient, referred to as Request for Information (RFI). TDEM will work with Subrecipients throughout the RFI process as communication is the key to success.

This policy will be applied to Public Assistance and Hazard Mitigation projects for management and closeout activities after obligation. This policy will address non-responsive and inadequate responses to requests for information. Although the timeline outlines milestones to be completed, nothing limits the ability of TDEM from sending communications.

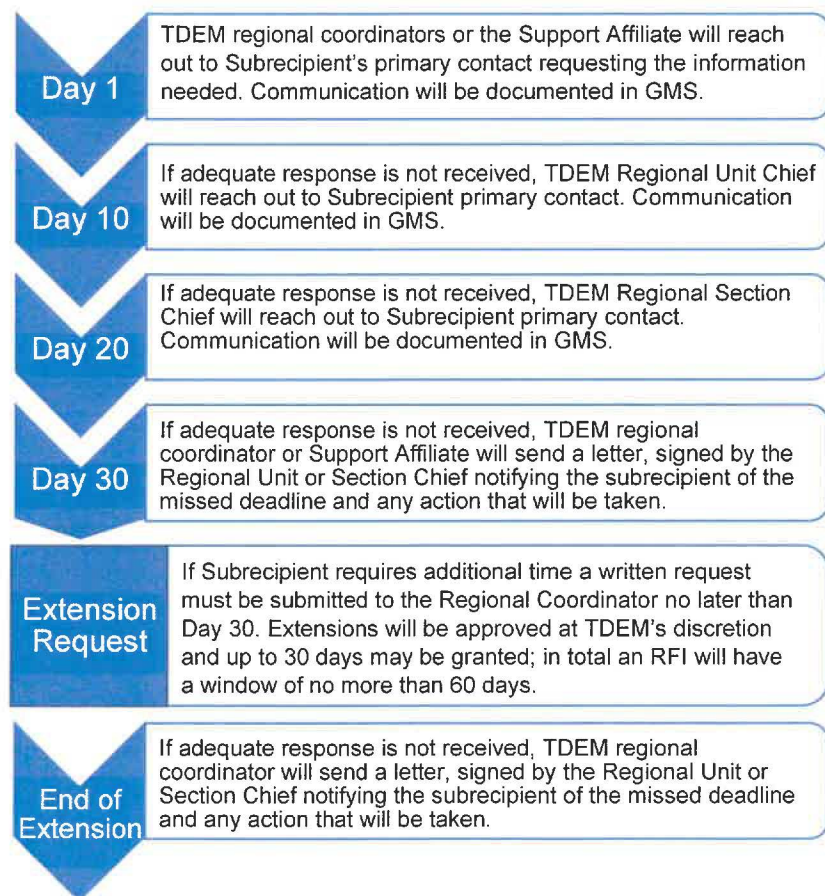

Exhibit H: Pre-Obligation Request for Information Policy

Timelines for providing complete and accurate information and documentation are crucial to the success of the overall Grant Program and to the timely obligation of projects. TDEM has developed a framework following a progressive series of communications for the subrecipient, referred to as Request for Information (RFI). TDEM will work with subrecipients throughout the RFI process as communication is the key to success.

This policy will be applied to Hazard Mitigation projects for management activities pre-obligation. This policy will address non-responsive and inadequate responses to requests for information. The timeline outlined below represents a single, 15-day period beginning from TDEM's first review of Subrecipient's application. Exhibit I: Recoupment of Funds

Procedure Summary

1. This procedure is to ensure responsible spending of federal dollars, [2 CFR § 200.344](#) and [2 CFR § 200.345](#) require that the State of Texas and the Texas Division of Emergency Management (TDEM) act to identify and recover any improper payments.
2. This procedure applies to all Division subrecipients that receive funds from or through TDEM and explains the process by which funding to subrecipients will be recovered in the event that such funding is determined to be an overpayment or is not expended appropriately under the terms and conditions between TDEM and the subrecipient and/or applicable FEMA program, statute, regulations, or guidance.
3. The federal dollars described in this policy are passed through the Division, which serves as the Governor's authorized representative for certain federal grants and awards. Any amount of debt owed to the federal government is ultimately the responsibility of the State of Texas, not specifically the responsibility of the Division.

Procedure

1. Applicability of Recoupment
 - 1.1. This procedure will be applied to subrecipients that have been determined by the Division to have received an overpayment or that the Division determines has not spent federal funds in accordance with their grant or financial award.
2. Recipient's Responsibilities
 - 2.1. subrecipients are required to sign Grant Terms and Conditions prior to receipt of funds that stipulate subrecipients shall refund to the Division any sum that has been determined by the Division to be an overpayment to Subrecipient or that the Division determines has not been spent by Subrecipient in accordance with their grant or financial award.
 - 2.2. No refund payment(s) shall be made from local, state or federal grant funds unless repayment with grant funds is specifically permitted under the applicable program.
 - 2.3. Subrecipients shall make such refund to the Division within thirty (30) calendar days after the Division requests such refund.
3. Division Collection Actions

3.1. Upon determination that a subrecipient has received an overpayment or has not expended funds in accordance with the grant or fiscal award, the following steps will be taken:

3.1.1. First Formal Communication: A recoupment letter will be sent to the subrecipient's Authorized Agent(s) highlighting the amount of federal funds owed, electronic transfer information, and the requirement to repay the amount within thirty (30) calendar days.

3.1.1.1. The communication will be sent using electronic mail to the designated agent identified in the grant/funding application, and;

3.1.1.2. Posted in TDEM's Grants Management System (GMS), and;

3.1.2. The Division will confirm receipt of the recoupment letter by either receiving a written confirmation from the subrecipient or making documented verbal contact with the subrecipients designated agent, mayor, or county judge as applicable.

3.1.3. If the subrecipient fails to make repayment of the amount identified in the recoupment letter within thirty (30) business days of receipt of the letter, the Division may offset an applicant's owed funds against current available funding due to applicant unless an agreement to return funding is reached with the applicant as approved by TDEM

3.1.4. If the repayment is not made, the Division shall send an additional notice to the subrecipient by electronic mail and posted to the TDEM Grants Management System (GMS) thirty (30) to forty-five (45) days after the first letter was sent and then confirm receipt of the recoupment letter by either receiving a written confirmation from the subrecipient or making documented verbal contact with the subrecipients designated agent, mayor, or county judge as applicable. This letter will indicate the amount of funds that have been transferred to offset the amount due and remaining balance or will confirm if offset will occur. In addition, the letter will contain information related to recoupment options that may be taken in accordance with section 3.2 Delinquent Accounts.

If the repayment is not made after the second letter, the Division shall send a third notice to the subrecipient by electronic mail and posted to the TDEM Grants Management System (GMS) thirty (30) to forty-five (45) days after the second letter was sent and then confirm receipt of the recoupment letter by either receiving a written confirmation from the subrecipient or making documented verbal contact with the subrecipients designated agent, mayor, or county judge as applicable. This letter will indicate the amount of funds that have been

transferred to offset the amount due and remaining balance or will confirm if offset will occur. In addition, the letter will contain information related to recoupment options that may be taken in accordance with section 3.2 Delinquent Accounts.

3.1.5. If the subrecipient fails to make repayment of the amount identified in the recoupment letter or enter an agreement to repay the funding with the Division approved by TDEM within one hundred twenty (120) days from the date that the original recoupment letter was sent, the Division will take any and all authorized actions to withhold funding for other grants, including issuing a State Comptroller Warrant Hold and/or referring the matter to the attorney general. The Division shall notify the subrecipient of any such decision.

3.2. Delinquent Accounts

3.2.1. Delinquency Determination

3.2.1.1. If a subrecipient fails to make repayment of the amount identified in the recoupment letter or enter an agreement approved by TDEM to repay the funding with the Division within 120 days from the date the original recoupment letter was sent, the Division may determine that the account is delinquent.

3.2.1.2. At TDEM's sole discretion, TDEM may authorize payment plans that fully reimburse the full amount owed over a 1–9-month period or prior to the end of the grant period. From time to time, variances in approved timelines may occur based on the phase of the grant process and other timelines determined by FEMA such as periods of performance and closeout liquidation periods.

3.2.1.3. Should a subrecipient enter into a payment plan and then fail to make more than one timely payment, the payment plan shall be considered invalid and the full balance shall be due within 30 calendar days. If payment is not made within 30 days, the actions contained within Section 3.1.7 and Section 3.2.

3.2.2. Warrant Hold Process

3.2.2.1. Once the Division has determined that the debt is delinquent, the Division may utilize the state comptroller's warrant hold process to ensure payments are not issued to the individual or entity that is indebted to the state.

3.2.3. Referral to the Attorney General

3.2.3.1. Once the account is determined to be delinquent, the Division may determine whether to refer the account to the Attorney General through the System Office of the General Counsel.

3.2.3.2. The determination as to the manner in which to pursue the collection of the account must consider the following:

3.2.3.2.1. The size of the debt;

3.2.3.2.2. The existence of any security or collateral;

3.2.3.2.3. The likelihood of collection through passive means;

3.2.3.2.4. The cost to the Division or Attorney General in attempting to collect the obligation; and

3.2.3.2.5. The availability of resources within the Division or Attorney General to devote to the collection of the obligation.

3.2.4. Referral to the Attorney General

3.2.4.1.1. The first demand letter shall be mailed USPS First Class Mail within 30 days after the debt has been determined delinquent and an Attorney General referral is desired.

3.2.4.1.2. The second demand letter shall be mailed USPS First Class Mail between 30-60 days after the first demand letter was mailed if repayment of the amount has not occurred.

3.2.4.2. If the Division determines that it will refer the matter to the Attorney General, it shall, through the System Office of the General Counsel, notify the Attorney General around the 90th day after the first demand letter was sent.

3.3. The Division shall maintain copies of all communications with the subrecipients regarding the recoupment of the grant or financial award funding.

4. TDEM's Ability to Remedy

Nothing in this procedure shall limit TDEM's ability to implement alternative remedies for which it has authority to resolve outstanding recoupments.

Nothing in this policy shall prohibit TDEM from immediately taking any recoupment action after the first thirty (30) day notice has been issued requesting repayment.
