Introduction

The Internal Audit Division conducted an internal audit of the Department of Parks and Cultural Services, in accordance with Local Government Code (LGC) §115. The internal audit covered the period September 1, 2024 through August 31, 2025. The audit was performed from September 19, 2025 through October 27, 2025.

The primary objectives of the internal audit are to provide reasonable assurance concerning:

- Reliability and integrity of the information.
- Safeguarding of assets.
- Compliance with laws, regulations, contracts, policies, plans and procedures.

The scope of the internal audit encompassed the financial records and administrative procedures related to the Department of Parks and Cultural Services. The internal audit included, but was not limited to, the books, accounts, reports and records of the Department of Parks and Cultural Services.

The internal audit included examining transactions on a test basis and required exercising judgment in the selection of such tests. As the internal audit was not a detailed examination of all transactions, there is a risk that errors or fraud were not detected during the internal audit. The official therefore retains the responsibility for the accuracy and completeness of the financial information.

Because of certain statutory duties required of the County Auditor, we are not independent with regard to the Department of Parks and Cultural Services as defined by the AICPA professional standards. However, our internal audit was performed with objectivity and due professional care.

Cynthia Hicks, Internal Auditor, performed the audit.

Reliability and Integrity of Information

Reliable information is accurate, timely, complete and useful. In order to achieve this, controls over record keeping and reporting must be adequate and effective.

Separation of Duties

One of the most important controls is to have proper separation of duties. No one person should authorize a transaction, record the transaction and have custody of the assets.

A proper separation of duties is sometimes difficult to establish due to the size of staff and budgetary constraints; however, compensating controls have been implemented in different areas of the department where a proper separation of duties is not feasible.

Bolivar Beach Parking Sticker Program (BBPSP)

The BBPSP generates revenue through the sale of parking stickers for vehicles and golf carts. The stickers are numbered and color coded for each fiscal year. Parking sticker sales are recorded and reconciled on daily reports filled out by each individual seller. The daily reports serve as support to the deposit warrants and as a means for assuring parking sticker numbers and receipt numbers are not skipped. The Beach Parking Sticker Supervisor reconciles the daily reports of stickers sold to the sticker inventory.

No material exceptions were detected in the review of the BBPSP collections.

Facility Use Permits

The Department of Parks and Cultural Services has several parks and facilities available for rent. Each customer is required to complete an indoor or outdoor facility use agreement provided by the department. The agreement provides the security deposit amount and the hourly rate charged for the facility, as well as the reservation guidelines that apply. The auditor tested a sample of facility use permits to verify the accuracy of the rates charged.

No material discrepancies were noted in the review of facility use permits.

Security Deposits

Some facility rentals require a security deposit to be paid in advance. The security deposits are deposited in the county demand account and recorded as a liability in the general ledger. After the event is over, a department employee performs a 'walk through' evaluating the condition of the facility. The security deposit is either refunded to the customer or retained by the county to pay for damages. The department uses a 'Security Deposit Tracker' to monitor the security deposits from receipt to disbursement.

No material discrepancies were noted in the review of security deposits received and disbursed.

Safeguarding of Assets

Safeguarding of assets has three basic components: 1) physical security of the collections, 2) minimal exposure to loss, and 3) proper management of the collections.

Physical Security

Physical security encompasses any method to physically secure the collections from loss. Monies collected should be kept locked away until they are deposited.

As part of the audit, surprise cash counts were conducted on September 19, 2025, September 22, 2025 and October 16, 2025, at the Crystal Beach, and La Marque offices. All cash was accounted for at the time of the surprise cash counts. Controls are in place to ensure staff uses a lockable drawer, locker, or safe to secure collections and manual receipt books until they are ready for deposit. The drawer, locker, or safe remains locked when not in use.

BBPSP Revenue

Approximately twenty-four percent of the FY2025 parking stickers were sold on the beach by part-time employees. During FY2024, and FY2023, twenty-one percent and twenty-seven percent, respectively, of total sticker sales were sold on the beach. The employees count each other's collections during close-out each work day and secure the money in the drop box combination safe located in the bolivar beach pavilion in Crystal Beach. Only authorized personnel have access to the safe. The Beach Parking Sticker Supervisor or the Beach Sticker Assistant Supervisor, or their back-up collects the revenue from sticker sales and prepares the bank deposit slips. The money remains in the safe until ready for deposit. During peak season (March-August), a Galveston County Constable Deputy picks up the revenue from sticker sales and delivers the money to the bank in a locked bank bag. During the remainder of the year, the Beach Parking Sticker Supervisor or the Beach Sticker Assistant Supervisor delivers the money to the bank in a locked bank bag.

Compliance with Statutes, Policies and Procedures

Timeliness of Deposits

LGC §113.022 Time for Making Deposits states, “a county officer or other person who receives money shall deposit the money with the County Treasurer on or before the next regular business day after the date on which the money is received. If this deadline cannot be met, the officer or person must deposit the money, without exception, on or before the fifth business day after the day on which the money is received.” A sample of deposits was tested for compliance with LGC §113.022.

No exceptions were noted.
